LETTER BOOKS OF W. C. C. CLAIBORNE
1811-1816

To Henry Clay

New Orleans 11th Decbr. 1811

Speaker of the House
of Representatives.

I have the honor to enclose you a Petition addressed to the Congress of the United States, from the Ursuline Nuns of New Orleans, & which I will ask the favor of you, to lay before the House of Representatives.—

The Ursulines of this City are held in high estimation.— Their Deportment is exemplary correct, & their temporal cares being wholly devoted to the education of Female youth they have a just Claim to the Patronage of the Government.—

I am, Sir, &ca &ca
Sigd. W. C. C. Claiborne.

To Robert R. Livingston

New Orleans 11th December 1811.

New York.

Sir,

I am honored with the receipt of your letter of the 4th Ultimo.— The arrival of the Steam Boat at this port is daily expected:— We have heard of her progress down

the river, & this whole society manifests a deep interest for her safety & prosperity.— I am fully persuaded, that experience will evince the practicability of navigating the Mississippi without much risk, & I sincerely hope Sir, that yourself & Mr. Fulton may be rewarded an hundred fold for your trouble, Care & expenditures.— Having very much at heart the welfare of the Western Country & being fully impressed with the advantages of Steam Boats on the Mississippi, you may be assured of the promptitude & pleasure, with which I would promote any measure essential to your security; & to the prevention of intrusion on your rights.— But you, no doubt, are apprised of the Change of Government which this Territory is destined very soon to experience.— The Convention of Orleans (now in Session) have determined it expedient at this time to form a Constitution or State Government & to accede to the Terms required by Congress.— I enclose for your perusal the plan of a Constitution as reported by a Committee, and which after undergoing some immaterial Amendments, will, most probably be adopted.— It is very uncertain, whether *or not* I shall be honored with any agency in managing the Affairs of the State;— We have among us, many aspiring Individuals, & it often happens, that the people look upon an officer *long in service*, as old-fashioned, and lay him by, with as little Ceremony, as they would an old Coat; But in whatever station I am placed;— whether I reside here, as a Public Character, or a private Citizen, you will always find me, favorable to the *Navigation Interests* of yourself & Mr. Fulton, & the more so, since I conceive *it* to be intimately connected with the welfare of the Western Country & indeed the whole United States.—

I am &c &c a

To Major Carmick

New Orleans 11 December 1811

of the Marine Corps.

Dear Sir,

Having been informed that the Secretary of the Navy had instructed you with the selection from among the Creoles of this Territory, of three young Gentlemen, to be Commissioned as Second Lieutenants in the Marine Corps, I take the liberty to mention to you Mr. Theobule Montreuil, as a worthy & promising young Man; He is in the prime of Life, perhaps 22 or 23 years of age, & enjoys excellent health; his person is engaging & his Department very correct;— He is connected with a very respectable & numerous family in this Territory, & of the good example which has always been afforded him, he seems to have profited.— Being sincerely of opinion, that Mr. Montreuil would be a Credit to the service, I should be happy to hear that he was Commissioned.—

I am &ca &ca &ca

Sigd W. C. C. Claiborne.

To Albert Gallatin

New. Orleans 12th December 1811

Secretary of the Treasury.

Sir,

Your letter of the 6th of September was brought by the last Mail.— Previous to its receipt, I had been furnished by the Commissioners of the Western District, with a Duplicate of their Letter to you, in which they declared an intention of conforming to the instructions of the President.— I of course in Compliance with your wishes, returned under Cover to your address, the letter directed to Messrs Garret & Fitz.—

I enclose you a Copy of the Constitution as reported

by the Committee;— It will no doubt undergo several Amendments— But my opinion is, that the general Provisions will be approved by the Convention.

Observing by the late Land Law, that several appointments were to be made in this Territory, I took the liberty to recommend, Mr. Joseph Saul of New Orleans, as receiver of Public Monies for the Eastern District; Mr. John Thompson for the Western;— Mr. Henry Bry for the District North of Red River, & Mr. John Clay as Register for this last District.— I really do not know any Citizens better calculated to fill these offices, & am persuaded, they will discharge the duties thereof with Integrity, Zeal and Industry.—

I am &ca &ca &ca
Sigd. W. C. C. Claiborne.

To James Monroe

New Orleans 12th December 1811

Secy of State.

Sir,

I have the honor to enclose a project of a Constitution or form of Government, which is now before the Convention;— It will probably undergo some Amendments, but its general Principles will I think be adopted.—

I have the honor to be &ca
Sigd W. C. C. Claiborne.

To Paul Hamilton

New. Orleans 12th December 1811

Secy of the Treasury

Dr. Sir,

I had the pleasure by the last Mail to acknowledge the receipt of your kind Letters of the 9th Septbr & 27th. of October.— I now address you, more particularly with

a view of enclosing for your perusal a Copy of the form of Government for the New State, reported by a Committee, & to add, as my opinion, that its general provisions will meet the approbation of the Convention.—

We have news here, that the English Government had offered satisfactory reparation for the affair of the Chesapeake, but I am not advised of the particulars.— This act of Justice, would have been better timed had it been rendered a few years ago;— At the *present Crisis* it looks very much like a temporizing measure;— designed to amuse & to divide the American people;— But you who have a view of “the whole ground,” will best know, in what light to Consider this avventure.—

Present me Respectfully to Mrs. Hamilton & to your amiable family.—

I am, Sir, &c

Sigd. W. C. C. Claiborne.

To the Lady Abbess of the Ursuline Convent New Orleans.

Holy Sister!

I have been honored with the receipt of your letter of the 6th Inst.; enclosing the Petition addressed by your Community, to the Congress of the U: States.— I am sorry your letter did not reach me in time, to forward the Petition by the last *Mail*; But it shall certainly be sent by the ensuing one, nor will I omit to state the just Claims of your Community to the patronage of the Government.—

I offer to you, Holy Sister. the assurances of my great respect & sincere friendship.—

Sigd W. C. C. Claiborne.

near to St. Francisville.

Dear Sir,

The Convention is stil going on with their Constitution;— But every article undergoes ample discussion & of course little progress is made.— Doctor Watkins gave Notice on yesterday, that he should move an Amendment to the Preamble of the Constitution, which would go to make express provision for the County of Filiciana being at any time hereafter received into this State, with the assent of Congress.— My impression is that the amendment will prevail, & I indulge a strong hope that your Country will yet form a part of the State of Louisiana.—

I have addressed a third Letter to the Post-Master General relative to a Port-office near to St. Francisville, & I persuade myself, that the establishment will very soon be directed.—

Sigd. W. C. C. Claiborne.

To Capt. Gaines

Fort Stoddart. New Orleans 13th Decbr. 1811.

Sir,

I have received your letter of the 7th Instant.— The complaints of the people on the Bay & River of Pascagoula in Consequence of the non residence of a Judge in the Parish have been general, & to my own knowledge, they have experienced Inconveniences since none of their late Conveyances, Wills, Mortgages, &c have been made & recorded according to Law, & which together with their recent Marriages, can alone be legalized by an act of the Legislature.—I however am pleased to learn, that by your early removal to the Parish these Inconveniences will in the future be removed:— But I ought not to omit

saying to you, that a residence on Dog River will be extremely inconvenient to the great Majority of the Inhabitants of the present Parish of Pascagoula;— The Mass of Population is on the Bay & River of Pascagoula, & the great distance the Citizens will have to travel to transact business will (I am well assured) be made a cause of Remembrance & that I shall be entreated to limit the Parish Eastwardly by the Bayou Batrie & to create a New Parish extending from Bayou Batrie to the Perdido.— If this arrangement should be adopted the office of Judge of the new Parish, will only be acceptable to you in expectation, that the Town of Mobile may soon fall into the possession of the United States & of course within the new Parish.— But this arrangement will not take place, (whilst Mobile is in the hands of the Spaniards) if the necessity for the same should be superceded by your residence on the Bay or River of Pascagoula, where as I have already observed the Mass of the Inhabitants reside, & where the Lands, particularly those on the River, are so fertile as to have attracted (I am told) the attention of Emigrants.—

I know not what has become of the Laws forwarded;—They were sent by the first Clerk in the office to an officer of the Navy who was good enough to forward them on (as I understand) by a Merchant Vessel to Fort Stoddart.—

The bond which you are (to) enter into, must be signed by yourself & two freeholders residing within the Parish, & the sum may be fixed at five thousand Dollars.—

I learn with sincere regret the Domestic Calamity which has befallen you;— It is not easy to bear as we ought such heavy misfortunes; It would indeed be fortunate if we were enabled to call to our aid, those Considerations which Reason & Religion would suggest, & be entirely reconciled to the will of an Omnipotent being.

to whose Mandates all Creation must yield.— But the heart heavily afflicted, finds greatest relief in its overflowings;— And time, silence & reflection can alone reconcile us to the loss of an Affectionate Companion.—

I sincerely wish you health & happiness and am

To the Lady Abbess of the Ursuline Convent.

Holy Sister,

I had the honor to forward your Petition, by the last Mail to the Speaker of the House of Representatives of the United States, with a request that he would lay the same before that honorable Body. —By the same occasion, I transmitted the Certificate which came enclosed in your letter to me, of the 13th Instant.—

I renew to you Holy Sister, & to your whole Community, the assurances of my great respect & sincere friendship.—

By William Charles Cole Claiborne

Governor of the Territory of Orleans.

A. PROCLAMATION

Whereas by an act of the Legislature of the Territory of Orleans, passed on the 24th day of April of the present year 1811, the biennial election of Representatives to the General Assembly is directed to *take place, on the first Monday in October next, and the two following days;* I do therefore issue this my Proclamation, hereby re-

quiring that *an election as aforesaid*, be holden in the several Counties of this Territory, and that there shall be returned from the County of Orleans six Representatives to the General Assembly; from German Coast two; Acadia two; Lafourche two; Iberville two; Attakapas two; Opelousas two; Point Coupeé two; Rapide two; Concordia one; Ouachita one; Nachitoches one; and from the County of Feliciana *five Representatives*, of which there shall be returned *three* from the Parishes of East Baton Rouge and Feliciana; One from the Parishes of St. Tammany and St. Helana, and *one* from the Parishes of Biloxy and Pascagoula:—

And I do further direct and require that due notice be given of the times & Places of *election* in the several Counties & Parishes aforesaid, and that *the same be*, under the direction of the Parish Judges and other officers, Conducted in the manner pointed out by “An Act prescribing the formalities to be observed in the election of Representatives of the Territory of Orleans,” passed on the 4th of June 1806, and “An Act supplementary” to the act last mentioned, passed on the 14th of April 1809.—

[L. S.]

Given under my hand, and the Seal of the Territory, at New Orleans, on the 1st of August 1811, and in the 36th year of the Independence of the United States of America.

Signed William C. C. Claiborne

NOTE.—“No person is eligible or qualified to act as a Representative unless he shall have been a Citizen of the United States three years, and be a resident in the District (or Territory) or unless he shall have resided in the District three years; and in either case shall likewise hold in his own right, in fee simple, two hundred acres of land within the same.”

No man is entitled to the right of suffrage, unless he

shall possess “a freehold in fifty acres of land in the District (or Territory) having been a Citizen of one of the States, and being resident in the District, or the like freehold, and two years resident in the District.”

By an Act of the Legislature, it is made the duty of the Judges or Commissioners of the election, “to cause the title of property of the voter to be exhibited, or in deficit of such title, to administer to the voter an oath, whereby he shall swear, that he possesses truly and Bona fide at least fifty acres of land in the Territory, for at least three months past.”

Dear Sir,

Your letter of the ——— Instant, has been duly received.— The proposed meeting of the people at St. John's Plains, will be an interesting one, & I sincerely hope, that the result may prove favorable to the welfare of the County of Feliciana.— In the contemplated address to Congress, I trust the Citizens, will not loose sight of the good old maxim, “Gentleness in the manner, but substance in the thing.”— State your wishes, your rights & your grievances with firmness but with all that respect & Confidence due to a free, wise and virtuous government.— Believe me, the government are most favorably disposed towards your District:— I know that the President has nothing more at heart, than the happiness of the People of West Florida and their permanent Connection with the American family, nor do I doubt but a like sentiment is cherished by a Majority of the Members of the Senate & House of Representatives of the United

States. For myself, you may be assured, of my zealous co-operation in whatever concerns the prosperity of Feliciana, & I pray you to Communicate with me without reserve?— Mr Magruder has reported a Memorial to Congress praying that the Tract of Country lying West of the Perdido & below the line of the Mississippi Territory, may be permanently annexed to the Territory of Orleans.— The Memorial is well written, & will I trust be favorably received by Congress.— It will meet some opposition in the Convention.— But if I am not much mistaken, its ultimate adoption is certain.—

The Convention do not progress rapidly with their Constitution;— But as far as they have gone, the provisions seem to me wise, and well adapted to the local situation of the Country.—

I wish you health & happiness

Your friend,

Springfield,

St. Helena.

Sir,

I received on last evening, your letter of the 13th. Instant, with its enclosure.— The movements of the Chactaws are suspicious, & the precautions which the Citizens of Springfield & its vicinity have taken are certainly advisable.— I am sorry, it is not in my power to send you at this time, the Arms & ammunition you request:— But the Contents of your Letter shall be made the Subject matter of a Communication to General Hampton, the officer Commanding the regular forces in this Quarter, & he will be requested, to establish a Military Post, some where in your vicinity.— You will be pleased to give me

from time to time, information of the Indian movements, & if your safety shall be seriously menaced, you shall speedily receive all the succour in my power to afford.—

Feliciana.

Sir,

Your letter of the 20th. November enclosing an account of your expenditures, whilst acting as Quarter Master & Commissary under the authority of the Florida Convention, reached me a few days since.— In reply, I can only observe that the Executive Government of the United States, have been advised of the existence of a Number of unadjusted Claims of a similar description with yours;— But that no instructions upon the Subject have yet been received by me.—

To Paul Hamilton

New. Orleans 20th December 1811.

Private

Secretary of the Navy.

Dear Sir,

Your letter of the 20th. Ultimo, has just reached me. — I offer you my Congratulations on the recovery of Mrs. Hamilton, & as regards yourself, I trust that unlike our old Frigates “in ordinary,” you are now entirely refitted, & will for *many, many years*, be employed in active service.—

I have read again & again the Speech of our Excellent President;— It is worthy of him & of the Administration;— All parties who feel for the honor of the Nation, ought at the present Crisis to unite, nor do I know any *point*, to which our measures should be directed with a view to obtain Justice from Great Britain, but *open, avowed & relentless War*, or a *prompt repeal of the orders in Council*.— In a former letter, I stated the view I had taken of the late tender of reparation for the affair of the Chesapeake, & I regret to find, that it is in unison with yours;— This reparation has indeed very much the appearance of “a Tub thrown to the Whale,” & if it should tend to diversion of sentiment & action in the Councils of our Nation, the affair of the Chesapeake, will be more humiliating, than I had heretofore esteemed it.—

I hope in God, the proposition respecting the Floridas may in its whole extent be adopted.— In such event, can I not be honored with some immediate Agency in the transaction? There is no service that could be more agre’able to my feelings.—

The Secretary Mr. Robertson has arrived, & I could proceed even to East Florida, without Inconvenience to the Public Interest in this quarter.—

By the last Mail, I sent you a Copy of the Constitution.— The tenth Section was much opposed by the Members representing the County & City of New Orleans;— They wished a Senatorial representation in proportion to Population;— Two Senators are accorded to the City & County, but this Number is not satisfactory, and a serious Schism has arisen.— But no ill effect will probably ensue.—

Present me affectionately to your Lady & family.

To Judge Rhea

Private & Confidential?

New Orleans December 20th 1811

St. Francisville.

I have heard with sincere regret that you contemplated resigning the office of Judge of the Parish of Feliciana. Can you not make a further sacrifice, with a view to the Public good, & to the Public Satisfaction? It is a fact Sir, that you unite the good opinion of all parties in your Parish, nor is there an Individual, who confides more than myself in your Integrity, prudence & Judgment.— But if you are determined to retire, will you be good enough to name to me from among the old Citizens of the Parish, some one, two or more persons, who you suppose enjoy the Confidence of the people, & would discharge the duties of Judge correctly & honestly.— Two Gentlemen Mr. Gurley & Mr. Bradford will (I am told) be recommended;— they are both young Men & recently settled among you;— A parish Judge should be well known to the people & among other Qualifications should possess a great share of experience & discretion;— His duties as a police officer, are very important to the farmers, & from among that description of Citizens I should prefer to select your successor, if one can be found willing to act, whose general Information was such, as to enable him to decide correctly between parties litigent.—

What is the general Character & standing of Captain Griffith?— I have always considered him a very honest Man, and a Lover of his Country.— Is he prudent, is he Capable, and has he the Public Confidence? I know these are delicate questions, but as this Letter is intended for your sole perusal, so will your answer, be received in entire Confidence, and you may write without reserve. — But do not understand that my enquiries are confined

to Captain Griffith! Give me the names of such Citizens, established in the Parish, known for their Integrity, patriotism & prudence whom you may suppose best qualified.— I however, must again express a wish, that with a view to the general good, you will continue to give to your fellow Citizens the Benefit of your faithful Public service.—

Having received information from the Collector of this Port, that the Schooner Republican, Pierre Ferre Master, had just cleared out for Aux Coyes, under circumstances, which furnish strong grounds to suspect that she is intended for privateering, I have to request, that you would cause her to be overhauled at the Balize; and if on examination, there should be found on board any Cannon, Arms or Ammunition to justify the existing suspicions, that you would direct that the Vessel aforesaid be detained, until my further orders respecting her, shall be communicated to you.—

I am, Sir,
Very Respectfully
Your most obt:
Sigd. William C. C. Claiborne.

By William C. C. Claiborne,
Governor of the Territory of Orleans.

To all who shall see these presents, & more particularly, the Sheriff of the Parish of Plaquemine:—

Whereas, it has been represented to me that a Number of the Inhabitants of the Parish of Plaquemine, had been fined by the Parish Judge, in Consequence of their

not having conformed to the Regulations prescribed by the Judge & Parish Jury relative to the opening & repairing of Roads, during the year 1811.— by virtue of a Law vesting such Judge & Jury with powers to that effect;— and

Whereas, it is further represented, that the Inhabitants fined as aforesaid, are generally Composed of the poorest Class of Society, who were much injured in their Crops by the overflowing of the Mississippi in the same year 1811— And that the payment of the said fines, would prove not only inconvenient, but *greatly oppressive*.—

Now therefore, be it known, that I William C. C. Claiborne, Governor as aforesaid, do by virtue of the general Powers in me vested to grant pardons, have thought proper, & do by these presents, wholly remit *the fines* which have been imposed as aforesaid, upon such of the Inhabitants of Plaquemine as have neglected to open & repair the Roads during the year 1811.— in Conformity to the Parish Regulations prescribed as aforesaid.—

Given under my hand and the Seal of
the Territory at New Orleans on the 24th day
of December 1811.

Information having reached me that the Negros in the County of German Coast had again evidenced a disposition to rise in Insurrection, & that this spirit was supposed also to exist among the Negros in this City, I have deemed it essential to take some immediate *measures of precaution*;— Among these companies of Militia, in case of alarm by day or night are ordered to rendez-

vous at (———?¹———)¹ and there await my orders.— But as the Militia force would be of little use unless well armed and supplied with ammunition, I must ask the favour of you, to send to the Principal, (to remain under the care of the City Guard, & not to be used, unless in case of necessity) about 150 stand Muskets, and several Boxes of Ball Cartridges. As regards the regular force under your Command, I am assured, they are at all times in readiness for service, & if the occasion requires, I shall, with entire Confidence, Calculate on your prompt co-operation.—

Dear Sir,

The news which reached me on yesterday, of a spirit of Insurrection having been manifested among the Negroes of German Coast, renders it indispensable to reorganize without delay the fifth Regiment of Militia, lately under your Command. I have considered your removal from German Coast, in the light of a resignation, and have promoted Major A. Fortier to the office of Colonel.—

I take this occasion to return you my thanks for your faithful Public services and to assure you of my respect and Esteem.—

Since the information I communicated to you on yesterday, no further intelligence has reached me from above.— I nevertheless deem it a prudent measure of precaution, to continue the Militia Patroles, and have accordingly ordered on this service for the ensuing night two Companies of Militia;— they will rendezvous at the Principal at 8 oClock P.M. and will continue on duty until the break of Day on the Morning of the 25th.— I am assured that under your orders, the Police Regulations, will be strictly enforced, & you may rely with Confidence on my Co-operation;— It is only at a time, when our Vigilance has abated, that the Public Safety is in danger.—

My dear Sir,

My two young friends John Raimond Montegut, & Valcouth Doriscourt being solicitous to enter the service of the United States, I beg leave to recommend them to the patronage of the President & to solicit for each, a second Lieutenancy in the Marine Corps, in the event of Vacancies. John Raimond Montegut is about 21 of age, a native of New Orleans, & a promising young Man. His father, Doctor Montegut is a highly distinguished & influential Member of Society, and the son seems to have profited of the good example, which has always been afforded him.— Valcouth Doriscourt is also a native of New Orleans, he is nineteen years of age, and a very amiable youth;— his father is a worthy Citizen, & his connections are numerous & respectable.— Feeling convinced that these two young Louisianians, would make deserving officers, I take great interest in the success of their applications,— & in which event, I wish you would give me the pleasure of handing them their Commissions. It would be very pleasing to Mr. Montegut & Mr. Doriscourt and to their parents, (in case of their being commissioned) to be attached to the New Orleans station, & from the Circumstance of their being naturalized to this unhealthy Climate, I presume that such an arrangement would be convenient to the service—

I have received your letter of the 19th. Instant. There is no tribunal Competent to the decision of the matter in litigation between the Navigation Company, & the Corporation of New Orleans, but the Supreme Court of the Territory.— The division which has arisen in the opinion of the two attending Judges is cause of regret, and it can alone be remedied by the presence of Judge Mathews. I will take the liberty to enclose to that Judge, the letter you have addressed me, and which will no doubt, serve as an additional inducement, to his attending the Court when in session in this City.

We are again disturbed by *apprehensions* of an insurrection among the Negroes.— I believe them myself to be unfounded; But measures of precaution, are nevertheless expedient and these have been directed.—

The Convention will probably bring their session to a Close in ten or fifteen days, & the Constitution as finally adopted, will not materially vary from the *project* submitted by a Committee & of *which* I have already forwarded you a Copy.—

It is represented that the Garrison of Pensacola is in great distress for supplies;— That there is not a Cent in the Military Chest, no prospect whatever of remittance either from Havana or Vera Cruix, & that an abandon-

ment of Pensacola to its dependencies is contemplated.— That the want of Supplies is seriously felt, I have no doubt; but that an evacuation of the province will (in any short time) be the Consequence, I cannot readily believe.—

I am persuaded the English Government have designs on Cuba & that exertions are now making by its Agents to render the occupancy of Havana by an English force a popular act;— The English will endeavor to obtain in the New World, the influence they have lost in the old. A Monopoly of the Commerce of Spanish America will be their object, & the possession of Cuba an incipient measure.— The best Interest of the United States is opposed to Cuba's falling politically or Commercially into the hands of the English.— Nor would it be difficult to prevent it.— The people of Cuba, are for the most part jealous of the English Government, & by no means partial to the English character. The best informed Men already speak of Independence, & the expediency & necessity of an intimate Connection with the United States of America,— If it comported with the policy of the Administration, to encourage these sentiments they would very soon be openly avowed.— The men in power at Cuba, and for the most part, believed to be favorable to the English Views;— But the prejudices of the people present a great obstacle.— The friends of Independence, (I learn) are impressed with an opinion, that the internal resources of the Island are not equal to the object, and that without a supply of Arms & Money it could not be accomplished.— The Mines of Mexico in Consequence of the troubles there, have for some time been unproductive, & the remittances of Species from Vera Cruix to Havana, have wholly ceased.— If the friends of Independence could know from what quarter, Arms & Money could be procured, it is thought they would soon take a decided stand and the incorporation of Cuba, with the United

States or its dependence upon the American Government, (as was deemed most advisable) would soon follow.—

Accept the best wishes of Dr Sir, &c, &c

It has been represented to me that there were grounds to suspect some Frenchmen now in this City of a design to arm & equip a Vessel “for the purpose of surprising Baracoa in the Island of Cuba, plundering its Inhabitants & laying waste the Town.” As such an equipment within the jurisdiction of the United States, would be highly improper, it becomes us to take effectual measures to prevent it.— With this view, I request you to order immediately on the Balize Station an armed Brig, & one or more Gun Boats, with instructions to the Commanding Officer to visit every vessel going to Sea; & detain such as from an unusual Number of Men, Cannon, Arms or Ammunition on board, may justify suspicions that their objects are not wholly commercial.— The Officer detaining a Vessel, will of course report to you the *causes*, & these being communicated to me, I will advise you of such further measures as may be proper to be taken.

It has been represented to me, that the parish of St. Helena, within this Territory is visited by an unusual Number of Chactaw Indians, whose insolent conduct, sus-

picious movements & daily depredations have excited some uneasiness among the Citizens. The Colonel Commanding the Militia of St. Helena, has in consequence, solicited a supply of Arms & Ammunition, but which it is not in my power to furnish, unless they be drawn from the Stores of the United States.— If therefore the convenience of the service permits, give me leave to suggest the expediency of your establishing a small Military Post within the limits of the parish St. Helena, and to request, that you would direct to be deposited at that post a few hundred stand of spare Arms & a supply of ammunition, to be delivered to the Militia of St. Helena in case of necessity, on the receipt of Colonel John Thomas, or the Officer Commanding said Militia.—

A Member of Congress

Dear Sir,

There will be presented to Congress two Petitions from the people, of that part of West Florida, which now forms apart of the Territory, the one praying, that they may be permanently attached to the Orleans Territory, & the other, entreating the Government to make some provision for the payment of the debts contracted under the authority of the Florida Convention—— Permit me to recommend these petitions to your patronage & support;—— It is of great importance to the permanent welfare of the new State, that its boundaries should be enlarged, & I am certain, that the wishes of the petitioners on this point are in unison with their best Interests. — How far it may be politic in Congress, to legislate Conclusively on this subject, until the right of the United States to the Country in question, shall be acknowledged by the Government of Spain, the other claimant, you, who have a view of the whole ground can best determine:— But I presume a Declaration on the part of Congress, that so soon as the question of title shall be settled in favor of the United States, the District of West Florida, extending from the Mississippi to the Perdido, shall form a part of the State of *Louisiana* (the name of the new State) might not be improper, & I am persuaded such a declaration would be received with great satisfaction by the good people in this section of the Union.—

As regards the payment of the debts contracted by the Florida Convention, I am well aware of the delicacy of the subject;— But really Considerations of Justice, plead powerfully in favour of the petitioners.— of the pro-

ceedings of the Conventionalists the United States have profited;— The Revolution, they effected, was the immediate cause of placing the Country in possession of the United States, & it would seem just, that the expences of that revolution, should be paid by the party benefited. — In this quarter the public voice is greatly in favour of the petitioners, & there is a general Sympathy for such Individuals of the Conventional party, as are likely to be held personally responsible for these debts, unless the Government should come to their relief,— I pray you Sir, to give me the earliest information of the order, Congress may take on these petitions, & the the probable result.— The Orleans Convention will adjourn in ten or fifteen days;— The Constitution will be purely republican, & will I hope be approved by Congress during their present session.¹—

Sir,

I had the honor to receive by the last mail, your communication of the 5th Ultimo, together with a Copy of a letter which Mr. Onis had addressed you, in which it is stated that some Frenchmen designed to arm & equip at New Orleans, a Vessel for the purpose "of surprising the port of Baracoa in the Island of Cuba, plundering its inhabitants, and laying waste the Town." My impression is that Mr. Onis has not been accurately advised.— I have had recourse to the most convenient means of obtaining information, and cannot learn that such a project exists.— I nevertheless have recommended to the Collector of the District the exercise of vigilance in his Department, and instructed the Naval Commander on this station, to cause to be visited at the Balize, every Vessel going to Sea, and to detain such as from an unusual number of Men, Cannon, Arms or Ammunition may justify a suspicion that their objects are not solely commercial.—

My dear Sir,

Since my letter of the ————Ultimo, I have experienced much satisfaction in reading the report submitted to Congress by the Committee of foreign relations.— It is indeed an interesting state paper; our wrongs are concisely enumerated, and placed before the nation in a point of view, that must make a sensible impression on every Citizen who has a soul to feel, & a spirit to support the rights of his Country.— If the measures advised by the Committee are adopted, a *Crisis* (which is certainly desirable) must soon arise:— An *honorable accommodation*, or a *War*, the Justice & necessity of which, can only be questioned by those who are prepared for Submission.— I can see no good grounds to fear the issue of a War;— If the *enemy* depredated on our Commerce, *his* would be no less annoyed by American cruisers;— If *he* menaced our sea-port Towns, *his provinces & those of his ally* would present to us, fair objects of attack:— to the North, the Canadàs would no doubt attract attention, & in this quarter, Cuba & the other Spanish possessions should interest our Government. Their destinies are of deep concern to the United States, and it is all important

that they should be free'd from the Schackles of European Authority and influence.— I fear, lest I may be thought intrusive by so frequently introducing this subject.— But I shall find in your goodness an apology, when I assure you that it is attributable to the pleasure with which I dwell on topics, which to my mind, is so intimately connected with the welfare and security of my Country.— Cuba in possession of the British, and Havana would become a great naval station.— From Halifax to Jamaica the chain would be complete.— our whole Coast might be blockaded, and the Trade of the Mississippi entirely destroyed. Cuba in possession of the British, and they would maintain there a disposeable force, always ready to be transported to our shores— our maritime possessions would be seriously menaced, and lower Louisiana in eminent danger.— But reverse the scene, and what are the prospects. Cuba in possession of the United States;— Her ports would swarm with our Merchant Vessels, and her immense resources brought into active use.— In time of War our Cruisers would find an advantageous rendezvous, and their Prizes a Convenient Assylum;— The trade of Jamaica and other Islands would be paralized, and the destinies of New Spain at our disposition.— But above all, the great avenue for the Commerce of the Western States would be secured, and a unity of interests established and perpetuated between the several Members of the America family, that would place our Union beyond the reach of change.—

The *Orleans Convention* is yet in session; a contrariety of opinion existed on many points in the constitution as reported, and the discussions were vastly diffusive;— I believe however that *their* labours are now drawing to a close, & will I trust, eventuate in the formation of a Constitution strictly republican & calculated to promote the present & future prosperity of the State.—

Dear Sir,

I have for some time past anticipated the pleasure of a letter from you.— But I see (through the medium of the papers) that you are busily engaged, and can readily find for you an apology.— I sincerely wish you success in your application for a State authority;— Territorial Governments are at best necessary evils;— they are illy suited to the Genius of the American people and should never exist but over small communities, who are neither able nor desirous to manage their own affairs.— I cannot however wish success to your efforts to take from Orleans, the whole of West Florida.²—

¹ Delegate from Mississippi Territory.

Had you designed to give us a moiety; for example, had you proposed that the Orleans Territory should extend Eastwardly to Pearl River, & the Tract of Country extending from Pearl River to the Perdido to be attached to the Mississippi Territory, I do not know, that the plan would be very exceptionable;— But your demand for the whole seems to me somewhat extravagant and if granted by Congress, will in my opinion be highly injurious to the New State of *Louisiana* (the name the Convention has preferred) whose best Interests suggest an extension of its Eastern Boundary.— I myself, would prefer the Perdido.— But we would compromise & take as far as Pearl River, and leave to your State the Country on the Tombigbee & Pascagoula & the care of one of the great avenues for the Western Commerce, *the Mouth of the Mobile*.

What is the real situation of our foreign Relations? — Will the Report of the Committee on that Subject, be supported by Congress? The measure recommended seem to me wise and well calculated to bring on a Crisis, which the honor of the nation demands.— an immediate Repeal of the orders in Council, or open & direct War.—

The Orleans Convention will close its session in ten of fifteen days.— The constitution adopted will be purely republican, & will I trust be approved by Congress during their present session.—

Sir,

The Commission by which I was appointed Governor of the Territory of Orleans expired on the 17th Instant. — A high officer of the Government, in a private letter to me, dated at Washington on the 16th Ultimo, says, “You must have received an Account of your reappointment, which met with no difficulty,” and this Sir, is the only information I have on the subject. How far, under these Circumstances I am authorized to exercise Executive authority, being a matter of some doubt, I have taken the Council of the Territorial Attorney General, who is of opinion, that I cannot with propriety, cease to act as Governor, until officially advised that a successor in office had been commissioned. — By the ordinance, the Secretary can alone discharge the duties of Governor in case of Vacancy, arising from the death resignation or removal from office, of the latter, or in case of his necessary absence. — The letter of my friend, above alluded to, altho’ not official, leaves no doubt in my mind, but I am still possessed of the confidence of the Government, & if such be the case, no act of the Secretary as Governor (in as much as I am not absent from the Territory) would be valid. — From these considerations with others not necessary to mention, & the support received from the opinion of the Attorney General, I am induced stil to exercise Executive powers. — I sincerely hope that in this course, there is nothing improper. — If the trust I have so long had the honor to hold be continued to me, it will be accepted with gratitude & discharged with as pure motives of honest patriotism

as ever warmed the breast of man:— But if this trust has been committed to other hands, it will indeed be cause of much additional regret, that my ignorance of the fact, should have led to a line of Conduct, so contrary to what my feelings would have dictated.—

The enclosed Copy of a memorial, signed by sundry Merchants of Nachitoches, will advise you of an act of atrocious violence, which an Armed Banditti have recently committed within the Tract of Country lying between the Arroya Honda and the Sabine on some unoffending Spaniards, and of the desire of the Memorialists, that measures be taken to put an end to a system of Brigandage, which is calculated to destroy all friendly intercourse, between the Citizens of this Territory and the Inhabitants of the Neighboring Spanish provinces. — The Parish Judge of Nachitoches gives me to understand, that the efforts of the Civil authority are wholly inadequate to the suppression of this Banditti, & he solicits that the Military support prayed for, may be promptly afforded.— Orders have heretofore been given to the officer Commanding the Militia of Nachitoches on the requisition of the Parish Judge, to turn out the whole or such part of his force as may be necessary for the preservation of good order;— Detachments have in consequence of some prior depredations of this Banditti been ordered into service.— But they are not yet suppressed, and if suffered longer to exist, their num-

bers and outrages will probably greatly increase.— It is known to you, that the claim of the United States extends to the Sabine, & that in the act of Congress authorizing the Inhabitants of Orleans to form a Constitution or State Government, the Sabine is recognized as the Western Boundary of the Territory.— Hence it is Sir, that whilst as the past, I feel no difficulty as to the question of Jurisdiction, I consider it a duty to take *Measures* to prevent a repetition of such atrocities.— *These* heretofore ordered having proved ineffectual, I have to entreat your Co-operation, and earnestly to request, that you would establish three temporary Military Posts between the Arroya Honda & the Sabine, on the Road leading to Nacogdoches;— That you would instruct the Commandants of these Posts to give protection to Travellers;— to aid the Civil authority in arresting *offenders* & to hold *them* in safe keeping, subject to the disposition of the Civil Magistrate.— A number of armed men assembled very lately near to Nachitoches, with the design of attacking the Post of Nacogdoches within the province of Texas, but owing to the treachery of their Leader, the project was for the moment abandoned:— It is however not improbable, but it will again be set on foot, since many persons believed to be concerned (of which number the perpetrators of the recent murders and Robberies may be included) are still hovering on our Western Frontier, and this circumstance furnishes me with an additional motive for urging the establishment in that quarter of several small Military Posts:— As to the extent of the force, you certainly Sir, can best determine.— But I presume two or three Companies would for the present be sufficient.—

I pray you to have the goodness to dispatch my Express as soon as your convenience will permit, and to inform me how far the State of the service may justify your conforming to my request.— Since in the event

of your Compliance, I would wish immediately (for the purpose of preventing misrepresentation & dissatisfaction) to advise the Spanish Authorities of the measures we may take, & of the objects in view.— The preservation of a good understanding with our Spanish Neighbours, will at all times be desirable.— But it is particularly so at this eventful Crisis.—

My dear Sir,

I have noted with the greatest satisfaction, the decided vote in favour of the resolutions reported by the Committee of foreign Relations, & the passage of a Bill by the Senate providing for the raising an additional force of twenty five thousand Men.— These proceedings promise well:— It now seems that the nation & Government are united, & that the wrongs offered our Country will be avenged.— Do me the favour to embrace an occasion to assure the President, that my services & my life are at the Command of my Country, & that in the event of War I would with pleasure enter the Army.— As relates to

the Grade, I beg leave to repeat to you my willingness to accept of *any* which the Government may be disposed to assign me.— Under an impression however, that my knowledge of the adjacent Spanish provinces might be useful, I would prefer to act in this quarter.— Mexico is again represented to be a State of Revolution, & I have no doubt of the fact;— To this Revolution, it would not be difficult to give such direction as might accord with the views & Interests of the United States. *Five thousand* Regular Troops marched to St. Antoine & fifty thousand stand of Muskets would give Independence to Mexico, & banish forever European Influence;—

A very intelligent friend of mine is now engaged in Committing to paper (but not with a view to publication) his Ideas of the importance of Cuba to the United States, & the advantages which would result from the Independence of Mexico.¹— I send for your perusal his first Number, & will take the liberty to transmit the others as soon as they are completed.—

The friendly intercourse between the Citizens of this Territory, and the Inhabitants of the province of Tehus, has recently been disturbed by an armed Banditti, who have taken post between the Arroya Honda & the Sabine, & plundered and murdered several unoffending Spaniards.— I shall take such measures as are in my power to disperse this Banditti;— A good Intelligence with our Spanish Neighbours is at all times desirable— But it is particularly so at this *eventful crisis*.—

The Orleans Convention after much discussion & a Considerable share of Intrigue & some warmth & division of sentiment will finish their labours, perhaps in two days, by the adoption of a Constitution, which altho' in some parts may be thought defective, is nevertheless

Dear Sir,

Permit me to introduce to your acquaintance Messrs. E. Fromentin & Allan B. Magruder Esqrs. who are appointed by the Orleans Convention, Agents to convey to the President of the U. States, the Constitution proposed for the New State, & to represent generally to Congress, the Interests of this section of the Union.—

These Gentlemen deserve & possess a great share of the confidence of their fellow citizens, & can satisfy any of your enquiries as to the aspect of affairs in this Territory.—

The Convention having acceded to all the Conditions prescribed by Congress, & the Constitution being founded on principles purely republican, I persuade myself it will be approved.— The general welfare seems to me to require that the authority of the Territorial Government should speedily cease, & that that of the State should

commence.— an early change being confidently anticipated, & apparently sincerely desired, the respect of the people for the existing Government its Laws & agents diminishes daily.— A careless indifference also, on the part of some of the public functionaries is observable, & in case of vacancies, appointments to office are accepted with reluctance.— Such are the effects already resulting from the incertitude of our political destiny, & if this Incertitude should be much prolonged, I really fear Sir, the public service will be exposed to the most serious inconvenience.— For myself, I entertain no doubt, as to the expediency (at the present moment) of our admission into the Union, as a Member State.— The great Majority of the Inhabitants are unquestionably well affected to the Government of the U: States, nor could any event tend more to strengthen their allegiance & affection, than an early reception into the bosom of the American family.—

Messrs. Fromentin & Magruder are charged by the Convention with a Memorial to Congress, which prays for the annexation of a part of West Florida to the New State.— How far the posture of our Relations in respect to that District, with Foreign Nations, will permit the Government to annex permanently, to a State, such part of Florida as lies west of the Perdido, is not for me to determine:— But you will permit me to observe, that the Interests of the New State strongly advise an enlargement of its Limits, & to add that the annexation solicited would (in my opinion) not only conduce to the Convenience & prosperity of the people, more immediately interested, but *to the national good*.¹— I have the honor to be, &c a

Dr. Sir

Permit me to introduce to your acquaintance, Mr. Allen B. Magruder who has been named by the Orleans Convention one of their Agents to Convey to the President the Constitution for the New State, and to represent generally to Congress, the Interests of this section of the Union.—

Mr. Magruder deserves & possesses a great share of the Confidence of his fellow Citizens, & can satisfy any of your enquiries relative to the aspect of affairs in this Territory.—

The Convention having acceded to all the Conditions presented by Congress, the Constitution being founded on pure republican principles, I trust & hope it will be approved.— Of the expediency (at the present moment) of our admission into the Union as a Member State, I entertain no doubt the great Majority of the Inhabitants are (I am persuaded) well affected to the Government of the U: States, nor is there any thing, that would have a greater tendency to Confirm them in their affections & allegiance, than an early reception into the bosom of the American family.—

Mr. Magruder is well informed as to the nature of the Land Claims in this Territory, & will state to you some amelioration in the Laws relating to them, which Justice would seem to demand.— I learn that there are many claims, founded on the most unquestionable Titles, which have not been presented to the Commissioners.— various are the causes assigned for the Negligence of the Claimants;— some were advised either by ignorant or base men, not to enter their Claims— others assert, that they were apprehensive, it would be attended with a heavy expense; some again plead ignorance of the Laws, & others

state, that their title papers, were thrown carelessly aside, & were not found until the time for receiving Claims had expired.— But whatever may have been the cause of this negligence, it is likely to prove injurious to many honest Citizens unless the Government should again deem it expedient to open an office for the reception of Claims— I am aware that the doing so will be attended with inconvenience.— and perhaps some injury to the public Interest:— But with a view to Justice, the first should at all times yield & I trust such restrictions and regulations may be devised & adopted as may effectually guard against fraud.— I am &c a

The last letter of yours, which has reached me was under date of the day of But I can readily account for your Silence. being well aware, that during the session of Congress your official duties engross much of your time.— I hope however you will be enabled to embrace a few leisure moments to inform me of your health & happiness, and of the measures likely to be re-

sorted to by the Government at this interesting Crisis.—

What a heart rending scene passed at Richmond on the night of the 26th of december.— It has harrowed up my very soul, & made me sad & Melancholy.— I knew many of the unfortunate sufferers, and sincerely do I regret their untimely end.— But our sorrow is unavailing;— The Grave will retain its prey and the mind finds no relief in dwelling upon the subject.— The Schism in Society will indeed be long felt.— But we must endeavour to seek Consolation from the Hope, that the *Scene of Gaiety* which was closed upon our friends, has been exchanged for an eternity of Bliss.—

You will very soon receive at Washington the Constitution proposed for the New State;— One of the Gentlemen named to bear it to the President departs on tomorrow, & the other in a few days.—The electioneering Campaign has commenced & my enemies will labour to rise on my ruin;— Already the press groans with abuse of me and it is attempted to convert into crime, acts the most meritorious.— But strong in conscious rectitude, I place great confidence in the Justice of my country.—

From considerations personal & political I am greatly desirous to visit Washington;— But I cannot at this Crisis (with honor) quit my pose.— I owe much to that portion of my fellow Citizens who have long & so firmly supported my administration, & on the eve of a change of Government, I am unwilling to withdraw from among them;— I have moreover, buffeted for more than eight years all the Storms of party— & thus far, maintained my ground against the efforts of Intrigue, & the Shafts of Calumny;— New Clouds are now arising & a Tempest near at hand;— Its rage may drive me into port— But never from my duty.—

Dear Sir,

I have nominated & appointed as your Successor in office, Mr. Thomas Butler, on whose application, you will be pleased to deliver the records & papers appertaining to the office of Judge of the Parish of Feliciana.— In appointments to office, it rarely happens, that I am fortunate enough to give universal satisfaction;— But in selecting Mr. Butler, I am persuaded, I have reposed confidence in a Citizen, who will administer the Laws with Justice & in mercy, & whose primary object will be to merit the esteem of the good & virtuous.—

As regards Mr. Bradford & Mr. Gurley, (whom the Inhabitants of Feliciana, have recommended) it is impossible for me, to feel towards either an unfriendly disposition— But when the people of a parish seem divided in their wishes as to the nomination of a parish Judge, I deem it expedient to select some worthy & capable Character, in whose favour, neither party had taken an active Interest.— This policy has been observed on former occasion, & experience has convinced me, that it is correct.—

Accept Sir, the assurances of my Respect & esteem,

Dear Sir,

This letter will be delivered to you by Mr. E. Fromentin who bears to the President, the Constitution proposed for the New State, & who is appointed by the Orleans Convention, one of their agents to represent generally to Congress, the Interests of this section of the Union.—

Mr. E. Fromentin deserves & possesses a great share of the public Confidence;— He is a man of education;— of strict Moral rectitude, & is, I am persuaded, ardently attached to his adopted Country.—

The Convention having acceded to all the Conditions required by Congress, and the Constitution being republican, I sincerely hope it may be approved— a change is confidently calculated upon, and I believe sincerely desired.— A delay will greatly disappoint the expectations of the people, and augment the embarrassments which already attend the administration of the temporary Government.— I have no doubt myself, as to the expediency at the present Moment of admitting this Territory, as a Member State of the Union.— There are among us Individuals, from whose principles political & private, a virtuous Government can look for no support;— The intrigues of these Individuals, will certainly be productive of some temporary Inconvenience;— But the great Majority of the Inhabitants, are well affected to the United States, nor could any thing tend more to confirm them in their allegiance & attachment, than an early reception into the Bosom of the American family.—

Permit me the honor Madam to introduce to you, Mrs. F: of this City, who accompanies her Husband on a visit to the City of Washington— The very amiable disposition of this Lady will soon make you acquainted & her virtues will engage your esteem.—

Mrs. F.— can give you the character of this interesting Society accompanied with such details, as will be most agreeable;— She can also state particularly the alarm which has recently been excited here, by that dread phenominon of Nature, an Earthquake.— On the night of the 16th Instant, a trembling of the Earth interrupted the Gaiety of the Season, & many Ladies retired from a Ball Room seriously affrightened. On the evening of the 7th a like trembling, more than the one preceeding, excited our apprehensions.— I was attending (at that time) a Theatrical Representation, which amused & interested a numerous audience.—

The night was unusually serene, and without, and within all was tranquility.— On a sudden, the vibration of the Chandeliers attracted every Eye:— The whole House undulated:— The Comedians ceased to act:— after a moment of most profound silence, a General expression of fear was heard from the Ladies, & an anxiety for *their safety*, filled me with *Inquietude*.— It however was of short duration, for in about a Minute & a half the Earth became composed, and to a kind providence we are stil indebted for life & protection.— I am not however, without serious apprehensions, that elsewhere, the *Shock* has been more terrible, & attended perhaps with consequences, that will be regreted by all, who can feel a sympathy for human woe.— The train of reflection, to which this subject naturally leads, presents anew to my view the heart-rending Scenes which took place at Richmond in Virginia, on the evening of the 26th of December last.

— With what sincerity of Heart, do I lament the calamity that has befallen my Native State;— How greatly do I sympathise for the misfortunes of that Society with which, I had the happiness to pass, many of the days of my Youth.— I knew many of the unfortunate victims, & shall long affectionately cherish their memories.— But in reflecting on this afflicting occurrence the mind finds no relief— Our sorrow is unavailing.— We have, indeed lost much, but our friends have made a fortunate Exchange;—Thro' a few moments of extreme suffering, they have passed into an eternity of Bliss.—

I am very solicitous to pay my respects in person, to my friends at Washington;— The period is perhaps, not distant, when it may be in my power to do so, & it will be embraced with great satisfaction.— Be so good as to bear to Mr. G. my best wishes for a continuance of his domestic, individual, & public happiness, & permit me the honor Madam to subscribe myself,—

Sir,

I have this day drawn a Bill upon you for three hundred Dollars, payable at ten days sight to Abner L. Duncan or order.—

When at the City of Washington, in the summer of 1810, I informed Mr. Smith, (who was at the time Secretary of State) by letter, of a Suit which Mr. Edward Livingston had instituted against the Marshal of Orleans, who in obedience to the instructions of the President, had dispossessed Livingston, of a piece of ground commonly called the Batture, & I took the liberty to suggest the expediency of employing Council to aid the District Attorney in the defence of the Marshal. Mr. Smith, after having mentioned the subject to the President, authorized me to engage the services of one or two Lawyers, as I might judge proper;— The amount of compensation

was not fixed by Mr. Smith, but if my memory serves me right, I mentioned three hundred dollars as a reasonable fee, to which he assented.— I have in consequence engaged in the defense of the Marshal Mr. Abner L. Duncan, & the Bill now drawn upon you, is in full for his compensation, unless the suit should be attended with much more difficulty than is contemplated, & in which case, it is to be left to you Sir, to determine his fee. The District Attorney & Mr. Duncan are of opinion that the suit, will be discontinued, on a plea to the Jurisdiction which has been filed;— But if in this expectation they should be disappointed, & the case be submitted to a Jury, I shall employ also in the defence some one of the French Lawyers unless you should instruct me to the contrary.— The suit instituted against Mr. D'Orginoy the Marshal who dispossessed Livingston was upon argument dismissed by the Court;— The suit now pending is against Mr. Fortier, the successor of Mr. D'Orginoy who in compliance with the advice & instructions of the District Attorney, removed Mr. Livingston who had a second time intruded on the Batture.—

Dear Sir,

Three successive Mails having failed, we remain without any recent intelligence from Washington.— Mexico (from latest accounts) was stil in a State of revolution:— The patriots continued embodied, and manifested a determined resolution to put down all European authority.— A reinforcement of three thousand regular Troops from Cadix, had arrived at Vera Cruix;— But it is be-

lieved, a much greater force will be necessary to keep in check, a spirit of resistance to arbitrary power & oppression, which was so generally diffused.—

I await with great anxiety the determination of the Government, with respect to Mobile, & East Florida,—A longer forbearance will produce no good;—on the contrary I fear it may prove injurious.—England & Spain have already expressed much dissatisfaction, at the partial occupany of Florida, nor would the taking possession of the whole, highten in the least their resentment.—On the contrary a measure of so decided a Cast, would command their respect, and incline them to be cautious in provoking a people, who evinced no fear of war.

If the proposed additional army should be raised, there will be doubtless many applicants for Commissions;—among the number will be my two Brothers, General Ferdinand L Claiborne, & Doctor Thomas A. Claiborne both of the Mississippi Territory.—They have each been in the regular service, & I have the satisfaction to believe, acquitted themselves with honor. My Brother Ferdinand I presume, will aspire to the Command of a Brigade, & the Doctor to some appointment in the line of his profession.—For particular information as to their general course & Conduct in life, I refer you to Mr. Poindexter & Govr. Holmes, (who I understand is now at Washington), and should their report be satisfactory, I take the liberty to recommend them to your patronage.—For myself Sir, I can vouch for their *Integrity*, personal firmness & Love of Country, nor would they be less grateful than myself, for any services you may render them.—I felt some reluctance in introducing this subject;—But upon reflection, that delicacy seemed to me to be false, which would induce an Individaul to withhold from his Brother a *just support*.—

If Captain Johnson formerly of the marines, but now of the United States Infantry, should have arrived at

Washington, I beg you to present him, with my best wishes; His merits are I understand known to you.— He is certainly an officer of great promise, & will I hope, meet with promotion in the additional Army;— He is prudent, brave, attached to his profession, & devoted to his Country & Government.— I am, &c a &c a &c a

Your letter of the 31st December last, has been delivered to me by the person, to whose care it was committed. To this moment I have received no letter from the Secretary of State, in which his name is mentioned, & I have been some what at a loss, as to the degree of countenance proper to show him.— As however, you inform me, that the Government wished his return *to Mexico to be expedited*, I have not hesitated to recommend

him to the friendly attention of Captain William Shaler, who will depart for Nachitoches by the first Boat ascending the River from hence to that post— This Stranger has already given me to understand, that he is wholly destitute of funds; & that some advances from me are calculated on.— I presume, I shall not do wrong in soliciting Captain Shaler to advance such sum as may be necessary to make his voyage to Nachitoches comfortable: Were I not to do so, his return to Mexico, would be greatly retarded, unless he should fall into the hands of some of the Intrigues (foreign or domestic) with which this City abounds.

Do me the favour to name to the President Mr. Horatio S. Your letter of the 15th Ultimo, was delivered to me on this morning.— I have formed the most favorable opinion of Mr. Sprigg, & with great pleasure, I have this

moment, addressed a letter to the Secretary at War, recommending him for a Captaincy in the additional Army.— It is very possible, my letter will not reach the Seat of Government, until all the appointments are made.— Had Mr. Sprigg made an earlier application I feel assured it would have been successful.— I entertain however strong hopes, that he will stil meet the patronage to which I consider him so justly entitled.— We have no late news from the Seat of Government, & remain unadvised of the reception of the Constitution proposed for the New State.— The Territorial Legislature will meet (according to Law) on the 20th of the present Month, & I sincerely hope, the Members will be punctual in their attendance.—

Dear Sir,

To this moment, I have received no letter from the Secy of State, in which Don Jose Bernado Guiterras, (whom I have already introduced to you) is mentioned. But my friend, Mr. Graham who is attached to the Department of State, having informed me by letter, that the Government, wished the return of that Gentleman to Mexico "*to be expedited,*" I beg leave to repeat to you my desire, that you would give him a passage in the Boat in which you ascend to Nachitoches, & to extend to him, during the voyage, your friendly civilities. Mr. Graham does not request me to advance to Mr. Guiterras any money, & says expressly, that he has no authority from

the Government to make such request;— But wholly destitute as this Stranger is of friends, his return to Mexico *cannot be expedited*, without some pecuniary assistance;— I therefore Sir, do not hesitate to ask you to advance him, such sum, as may be necessary for his prompt departure from this City & comfortable accommodation on his voyage to Nachitoches & in the settlement of your public accounts, I am of opinion that the same will be allowed you,— provided it does not exceed in amount the boundary of a prudent economy.—

Accept assurances of my great respect & sincere esteem.—

The interposition of yourself & several other highly respectable Citizens in favour of Doctor Holmes, assures me, that he is a fit object of mercy & I take much pleasure in restoring him to the bosom of his family.—

I fear the prorogation of the Territorial Legislature will be a source of Inconvenience to the people of Feliciana— But the Interest of the Territory generally renders the measure advisable.— In the event of an early approval of the Constitution, a Session of the Territorial Legislature would not only be useless, but attended with an expence, which the Territory (at the present moment) is illy prepared to incur.—

A Bill approving the Constitution formed by the Orleans Convention has passed the House of Representatives; But I am not advised of the details.— It is understood, that the Country from Pearl River to the Perdido, is to be added to the Mississippi Territory;¹— But of the disposition to be made of the residue of Florida, I am not informed;— I indulge however the pleasing hope that the parishes of St. Tammany, St. Helena, Baton Rouge & Feliciana will ultimately form a part of the State of Louisiana.—

Dear Sir,

Being well assured of the deep Interest you take in whatever concerns the welfare of this Territory, I beg leave to enclose to your care, a *Petition* to Congress from the Regents of the University of Orleans.— *It* will not reach Washington in time (I presume) to be acted upon at this Session; I will only therefore ask of you the favour to present it to the House, & if the object, should (as I have no doubt) meet your approbation I am persuaded, that at the ensuing session, the *Petition* will receive your support.—

We are awaiting here, with great anxiety, the Ultimate measures of the Government towards Great Britain;— Our wrongs are sensibly felt by every real American & to avenge them, ought to be, & I believe is the wish of the Nation.— The “*Henry Communications*” are much talked of by the Federal Party in this City;— In point of numbers this party is not formidable,— But in exertion, incessant, & point of Intrigue unrivalled.— It would seem, from the Federal papers, that “the Henry Communications are recoiling on the Administration.” But I really cannot see, with what reason.— The Intrigue on the part of Great Britain was of the Basest cast, & of a nature to excite in every American breast, the warmest feelings of resentment.— The development of this intrigue, was a sacred duty imposed upon the executive, & if in doing so, the expenditure of some fifty or sixty thousand Dollars became necessary, there ought not to have been a moments hesitation. You will observe, I

have only seen the Federal comments;— few of the republican papers reach us, & none regularly.—

Will there be any serious opposition at the ensuing Presidential Election.— I have thought, & I stil hope, that Mr. Madison will receive an almost unanimous support from the friends of Republicanism;— His course merits such support, and a grateful nation will justly appreciate his services.—

I take it for granted, that the State of Louisiana is e'er this, fully acknowledge by Congress, & the people here, will very soon be called upon to organize the State authorities.— It is very uncertain whether or not, I shall be honored with an employment under the State Government. I owe it to myself & to the Administration who sent & continued me on this Station, to offer for the Chief Majestray.— But my success is extremely doubtful.— I have been long in office, & vested with too much power, not to have excited the Jealouscy of some, & the ill-will of many.

Dear Sir,

It has been stated to me, by Mr. Francis Duplessis of this place that affairs of Interest in which one of your Brothers-in-law is involved will call him to Point Coupeé & in the event that a law process should become necessary, Mr. Duplessis apprehends that the Parish Court will feel some delicacy in taking Cognizance thereof.— From my knowledge of your Disposition, I am assured you will use such influence as you may possess, to bring about between the parties an amicable adjustment either by themselves or Arbitrators of their choice.— But if this cannot be effected, & a Law process be preferred, surely there can be no obstacle to your acting, in the event, that the parties do not themselves object.— My great solicitude to preserve, that happy tranquility at Point Coupeé which has followed your appointment to office, & to put down all germs of discontent has induced me to name to you this subject.—

Mr. Lanusse informed me, the other day, that a money matter, in which you & him were involved gave him some uneasiness, & added that he should send an agent to Point Coupeé, with a view of settling it amicably.; I replied to Mr. Lanusse that I was certain, you would read-

ily unite with him in such disposition, it being in unison with the Interests of both parties.—

The House of Representatives of the U: States, have approved the Constitution proposed by the Orleans Convention, nor is there a doubt of its meeting the approval of the other Branches of the Government;— Hence we may soon expect, to assume the high stand of a Sister State of the Union, & that the people will very shortly be called upon to elect a Governor of Louisiana; & Members to the General Assembly.—

Dear Sir,

Since my letter of the 20th I have recd information, that so much of West Florida as lies West of the Pearl River is to be annexed to the State of Louisiana, but upon what Conditions I know not.—

I am sorry my proclamation did not reach St. Francisville in time to have prevented the Representatives from Feliciana descending to New Orleans;— It would have been desirable to have issued that Proclamation at an earlier period, but the information on which it was founded did not reach me, until the morning of the 7th Inst:— I assure you, I ardently wish for the period, which shall close my present powers;— The Territorial *Government*, always difficult to administer, is at the pres-

ent Crisis peculiarly embarrassing;— Territorial Governments are never popular, & now that the one in operation here is drawing to a close, instead of a *shew of respect*, many of the people treat it with the neglect, which a *fallen man* sometimes meets with in Society.— Indeed, had I not prorogued the Legislature, I am very certain, that it would have been difficult to have obtained the attendance of a quorum of the two houses, & this being done, it is not probable that any business would have been transacted.— The inconvenience experienced in your District, relative to Juries (particularly in Criminal cases) is greatly to be regretted.— I have suggested to one of the Judges — to the Attorney General the expediency of holding a special Court in May next at St. Francisville, for the Trial of offenders, & am not without hopes, that it will be done.— In this way, perhaps, the inconvenience may be remedied.— As to the difficulty existing in Civil causes, it cannot be removed but by Legislative interposition. The interest of Creditors will in the meantime suffer; But the Debtors will gain time and really were I to judge from what I see in the Time Piece, a great many of my fellow Citizens in Feliciana must wish some delay in the recovery of Debts.— Its columns are filled with Sales of property taken in execution, & I presume from the pressure of the times, that this property is often sacrificed.—

I do not know, whether, or not Congress has made any provision for the payment of the Debts contracted by the Florida Convention; I gave to the Petition upon that subject, all the support in my power, & such as the Justice of the demand called for.— It seems that the people in East Florida are in a State of Revolution & that the Flag of the U. States is displayed at Amelia Island & at other places.— The aspect of the relations of the U. States with foreign Nations is indeed gloomy and I be-

lieve the warmest advocates for peace, begin now to think, that war is inevitable.—

Dear Sir,

During the last week, we had reports of an Embargo, & great exertions were made to hasten the departure of Vessels. Having understood that an Individual in this City, was authorized to purchase *supplies* for the Garrisons of Pensacola & Mobile, I addressed a letter on yesterday to Commodore (Shaw) & requested him to detain all Vessels bound to Mobile or Pensacola & charged with provisions.— But the Mail of this Morning having brought to the Collector official Information of the Embargo, I am relieved of further responsibility.—

We learn that a *Bill* for the admission of Louisiana into the Union, has passed both Houses of Congress, & I persuade myself a *Copy* as approved by the President, will be received by the ensuing Mail. I am greatly solicitous for the close of my present powers. The Territorial Government was always difficult to administer— But at the present Crisis, it is indeed vastly arduous & disagreeable; It is viewed in the light of a Merchant on the eve of Bankruptcy;— distrusted by its former friends— abused by Enemies, and slighted by all.— The office of Chief Magistrate of the New State, is deemed desirable by some of the most influential of the Louisianians. My name also is with the people; But with what probability of success, I know not.— much Wealth, & considerable *Intrigue* are enlisted against me.— My old Batture acquaintance, Livingston after having had, (as is believed) a principal hand *in pointing out the mode of electing a Governor*, has undertaken to direct all the Machinery, which can be brought to bear against me.¹ —

¹ The ablest man in the Constitutional Convention, and the most influential member of the Committee on the Constitution.

I observe that some War Taxes are about being imposed.— If an Officer for the Collection of the Quota allotted to this State, has not been selected, permit me to name Mr. Peter L. B. Duplessis of this City, as deserving the Confidence of the Government.— I can vouch Sir, for his *Talents, his Zeal, industry & Integrity.* Mr. Duplessis is the Marshall of the District, & his conduct is marked with great propriety.— I am sorry to add that his Perquisites as Marshall, are not equal to his support.—

Having understood that an Inhabitant of this Territory, was specially authorized to purchase a quantity of flour for the use of the Garrisons at Pensacola & Mobile, & observing in a hand Bill just published a letter from a Member of Congress which announces that a General Embargo for Ninety days had been laid by the Congress of the U: States, I request you to give orders for the detention of all Vessels bound to Pensacola or Mobile, & charged with *provisions of any kind.* The probability is, that by tomorrow's Mail we shall have official advice of the Embargo.— In the mean time however, I deem it right & proper *upon the information before me,* to detain for the present, all supplies destined for the Garrisons aforesaid.

Sir,

Your letter of the 4th Ult.;, was received on this morning. The letter to Colo. McKee, which was enclosed, shall be forwarded to Fort Stoddart, where I presume, it will find him.—

For several days past, we have had here private intelligence of the Embargo, & much exertion has been made, to hasten the departure of Vessels.— Having understood that certain individuals were authorized to forward supplies to the Spanish Garrisons of Mobile & Pensacola, I deem'd it right & proper on yesterday to address to Commodore Shaw a letter of which the enclosed is a Copy.— On this day official information of the Embargo has reached the Collector, but of its *general provisions*, I am not yet advised;— If *these* should not extend to Mobile & Pensacola the letter of Instruction to Commodore Shaw, shall be withdrawn.— We learn, that an act for the admission of Louisiana into the Union has passed both Houses, & I persuade myself, that the next Mail, will bring advice of its approval by the President.—

We have information of the passage of the Bill, by the two Houses of Congress, for the admission of Louisiana into the Union, & by the ensuing Mail we shall no doubt, receive a Copy of the act as approved by the President.—

Florida as far as Pearl River is annexed to Louisiana; But as to the Conditions I remain uninformed— I learn however with much regret that the House of Representatives had not secured to the people of Florida the right of suffrage at the first elections under the State Authority, & I much fear, that the Senate in this particular has not afforded a remedy.— Our admission into the Union being now certain, I do not calculate on a Session of the

A Bill approving the Constitution of Louisiana has passed the two Houses of Congress, and by the ensuing Mail, I expect to receive an Official Copy of the act.—

The certainty of our early admission into the Union, as a Member State, will occasion a further prorogation or perhaps a dissolution of the Territorial Assembly. I

Dear Sir,

Your favours of the 8th & 20th Ultimo were duly received.— I regret, that I had not the pleasure of seeing Mr. Randolph to whose care, the first was committed, &

of forming an acquaintance with a Gentleman of whose enterprise & amiability of Character you speak in such favorable terms.—

The depressed state of our Commerce, cannot fail seriously to affect the agriculturists, & I see little prospect of better times.— Indeed the injustice of England is so pertinaciously persisted in, by her rulers that there is no alternative for the United States, but submission & national Degradation, or immediate & determined resistance.— Under such circumstances, no real American, can for a moment hesitate, or withhold from his Country a tender of his life & fortune.— Every advice from Washington justifies the opinion, that the Government has decided on its course! England must respect our rights, or the wrongs offered our Country will be avenged! The recruiting service prospers beyond example, & Troops are marching from every quarter towards the Canada Frontier.— Detachments of Militia are ordered into service, & there exist the strongest indications of a speedy declaration of war.— I entertain no fears as to the issue of this contest.— In point of *enterprise, personal firmness, & perseverance*, the American can nowhere find his *superior*, & when the safety of his Country, is put to hazard, there is no undertaking, that valour can atchieve, from which he will shrink.— For myself, then, I calculate to a certainty on an Invasion of Canada, & that on the plains of Abram, England will learn the fact that the attachment of the people of the U: S: to peace, does not proceed from a fear of War.—

We are momentarily in expectation of receiving official information of our admission into the Union.— On the 6th of April, a Bill approving the Constitution passed both Houses of Congress, & by the ensuing Mail, we shall doubtless receive a Copy with the Presidents approbation.— It is understood that Florida, as far as Pearl River, with the assent of the State Legislature, is to be

added to Louisiana.— There are individuals in this City, & some too, who will probably be in the Legislature, who would withhold this assent;— But I trust a great majority will accede to the proposition with promptitude & pleasure.— For myself I shall view such an acquisition of population & Territory as an event greatly interesting to the present & future prosperity of this section of the Union.—

In this City & its vicinity parties are already formed & Intrigue is the order of the day. There are several Candidates for the office of Chief Magistrate.— My name is among the number, but with what prospect of success I know not. If it should fall to my lot, to be honored on the occasion with the public suffrage, I will accept the trust with gratitude, & deserve it if I can.—

The recommendations of Messrs. Brashears & Jackson to which you allude in your letter of the 20th have not reached me.— Should they *be shortly received*, my intention is to Commission each of them.—

Nova Iberia)

Dear Sir,

The construction which you have given (I understand) to the Law establishing a port of entry at Nova Iberia, is I am persuaded erroneous.— It surely never

could have been the design of Congress, to subject the Inhabitants of Attackapas & Opelousas, who descend the Waters of the Mississippi annually to New Orleans, with their surplus productions, in Boats navigated by their own Negroes, or occasionally a few hired Indians, to the expense attending Licenses for the Coasting Trade, & to the Marine Hospital Tax.— Vessels proceeding by Sea, from one District to another, within the U. States, are the fit objects of these provisions;— but they could not have been intended to embrace Barges & other small craft employed in the Inland Navigation.— With equal Justice might a Tax be levied on Carts & Waggon engaged in Carrying a Crop to market.—

Desiring sincerely, that the people of this Territory, may have no just cause of Complaint against the Government or its officers, and believing that you are in error, I entreat you to suspend your further operations in this particular, until the subject can be referred to the Secretary of the Treasury for his advice and Instructions.—

Gentlemen;

The undersigned in obedience to a Resolution of the Council of administration of the Charity Hospital of New Orleans hastens to lay before you, the wants of that Institution, & to entreat in its behalf your kindest patronage.— The undersigned deems it unnecessary to enter

into details— But he begs leave to state,— “that there
 “are at this time in the Hospital, thirty diseased and dis-

 “for admission is daily increasing;— that the Hospital
 “is destitute of most of the convenience essential to the
 “comfort of the Sick; and that its monthly revenue falls
 “far short of the actual & necessary expenditures.”—
 Under these circumstances, the Council of Administra-

 administering relief to suffering humanity, are sensibly
 affected by an accumulation of human wretchedness,
 which duty impels them to witness, & to the alleviation of
 which their means are inadequate.— Hence it is, that the

SIR,

In consequence of the repeated failure of the Mails, we remain without any recent intelligence from the Seat of Government. On the 6th of April, we learn, that a Bill for the admission of this Territory as a Member State of the Union, had passed the two Houses of Congress, & in daily expectation, of receiving a Copy, as approved by the president, I have a second time, prorogued the Territorial Legislature;— Its session would have been expensive & entirely useless;— Indeed such is the anxiety of the people for a change of Government, & so little are they disposed to respect *Authorities whose ex-*

istance will only be momentary, that I doubt, whether if a prorogation had not taken place a quorum could have been formed, & if formed, I am persuaded no business would have been transacted.—

On a former occasion, I advised you of the arrest of certain Individuals, who had committed depredations between Arroya Honda & the Sabine;— I have now to add, that they were indicted before the Superior Court for Robbery, & two of them convicted.—A motion in arrest of Judg'ment was submitted on various grounds;— But the want of Jurisdiction was principally relied on.— The motion however was not sustained, & the offenders have been sentenced to seven years imprisonment at hard labour.— It is known to you Sir, that the tract of Country between the Arroya Honda & the Sabine, is stil claimed by the Spanish Authorities, as a part of the province of Tehus, & I am not without apprehensions, that the incorporation of that Tract with the State of Louisiana will create some dissatisfaction;— I trust however, that the people of Spanish America, will soon take rank among the Nations of the Earth, & establish for themselves a Government with which the United States may negotiate on all matters interesting to the New World.—

My letter of the 14th of February last informed you, that in the case of Livingston against Fortier late Marshal of Orleans, a plea to the Jurisdiction of the Court had been filed.— This Plea has since been overruled, & the merits on its merits is set for Trial on tomorrow. I have in consequence, engaged in defence of the Marshal, & in aid of the District Attorney (& Mr. Duncan already employed) Mr. Peter Derbigny a french Lawyer of eminence.—I have promised Mr. Dubigny a fee of three hundred Dollars, & for which amount, I shall draw a Bill upon you.— I am sorry to subject the Government to this additional expense;— But the exertions of Mr. Livingston are unremitting— His Talents considerable,

& an address, (which is of the most engaging cast) is made subservient to his purposes.— To do justice then to the cause of the Marshal which is in fact, that of the Government, requires the exercise of great Judgment, discretion & professional research.— The authority in which I have employed Council in defence of the Marshal, is particularly detailed in my Letter of the 14th of February, & of which, lest the Original may have miscarried, I herewith enclose you a Duplicate.—

I have for some time past, considered a War between the U. States & Great Britain highly probable.— Indeed it seems to me, that unless the orders in Council are speedily revoked, & other wrongs atoned for a longer— forbearance, would compromise the honor, the Independence of our Country.— The causes of dispute are not unknown to the American people for they have been the subject of discussion, not only in the Capitol & the Cabinet, but in every Cottage.— English apologists may be found on our Sea Board, in the persons of English Agents, factors & old Tories.— But surely there can be no real American who does not feel sensibly the Indignities the injuries offered his Country.— Thro' the medium of the public prints I have received general information as to the preparations for War. But to this moment, I remain unadvised as to the particular means of defence intended for this section of the Union.— General Hampton took his departure on yesterday for the United States, & General Wilkinson's arrival is momentarily expected, by whom I presume, the measures of offence or defence contemplated in this quarter will be communicated to me.

I have the honor to be,

Parish of St. Mary's

Dear Sir,

The last mail brought us information of the approval of the Constitution, & Mr. Poydras is now engaged in preparing his proclamation, & will I understand issue the same on Tuesday next. The election is to take place the 4th Monday after the date of the Proclamation, & which will be the 29th of June.—

It gives me pleasure to learn, that you are talked of as Representative for the Parish of St. Mary, & sincerely hope, that you may meet a very general support.— My venerable friend Mr. Duralde & Major Ollivier, are I learn, spoken of for the Senate.— Of the Major I have formed the most favorable opinion & have great confidence in his firmness & virtue;— I should be sorry therefore to see him & Mr. Duralde brought in contact.— Their political views, I am told are *in unison*, & it seems to me, that yourself & other of their mutual political friends, might induce one or the other to diction [decline].—

It has been represented to me, that pains had been taken to injure me in Attackapas & that among other things, it had been asserted, that I had in the most positive & solemn manner promised the appointment of Sheriff to a Creole Gentleman, & the very next day nominated G. W. Morgan— This report is untrue; It arose from a friend of mine with whom, I was conversing, relative to the appointment of a Sheriff, misunderstanding me;— I was passing a just eulogium upon one of the Candidates, & my friend received the impression, that it was my intention to appoint this candidate & he stated such his impression to several Citizens.— The fact is, I had no such design.— Apprehending the death of Mr. Cenas for some time previous to its taken place, I had determined on Mr. Morgan as his successor, & so informed some of my

friends.— I could have no object in promising the appointment to another, & in truth I never did;— The report originated in error & was first given Currency without any design to injure me;— It is now propogated by Malice, & used for electioneering purposes.—

I owe it to myself Sir, & to you, who I consider as my friend to inform you of another means, my enemies take to injure me.— Soon after receiving possession of Louisiana, & early in January 1804, I wrote an Official Letter to the Government, in which I took a general view of the state of the District;— Spoke with great freedom of the abuses of the Spanish Government, & some of its agents— And took occasion, to say something of the general character of the Louisianians;— I have not this letter by me, but its contents are sufficiently fresh in my memory to say to you, that there was not a sentiment, which evidenced the smallest ill-will towards the people of the Country;— This letter was communicated in Confidence, by the President to Congress, & a few days afterwards, there appeared in one of the federal Gazettes, a publication purporting to be the substance of my letter, in which I am represented as speaking in Terms the most contemptible & the most ill-natured of the Louisianians. — This misrepresentation, has been published & re-published in this City (I believe) fifty times, & is again relied on by my enemies to injure me. I have said, & I repeat it, that this publication did not contain the substance of my letter;— My language is perverted & my feelings towards the people of this Country greatly misrepresented. — In a private letter also, from Mr. Jefferson, dated in July 1804 & which I have shown to several of my friends in speaking of this publication he declares it to be a false statement, & says that some one or more persons must

have clubbed memories & malice to make out the forgery.—

Sir,

Give me leave to congratulate your Excellency on your safe arrival in the Island of Cuba, & to offer you my best wishes for the happiness & prosperity of your Excellency's administration.— In the course of the Terrible War which has so long desolated Europe, it has heretofore been the favored lot of the U: States, to remain in Peace;— I fear however, the time is not distant when the injustice of one, or perhaps both of the Great Belligerents will force my Country from that neutral position, which she is so desirous to maintain; But in any event I trust that between the U. I avail myself of this occasion to introduce to your Excellency a subject on which I had the honor to address your predecessor, the Marquis of Someruelas, & which motives of humanity urge me to renew.— Among the prisoners of State at Havannah, are ten native Americans, who whilst acting under the authority of the Florida Convention, were taken in armes, in the year 1810, near the Fort of Mobile, & sent to Cuba.— Their friends & relatives who reside at this time, within the Territory

Sir,

I have the honor to enclose for your Excellency's perusal, a Copy of a letter addressed to me, by the Spanish Commercial Agent at this place Don Diego Murphy, as also of my answer thereto.— The event which has given rise to this Correspondence is by me sincerely regreted, & I persuade myself that *one* of a like nature will not again occur.— The unfortunate subjects of Spain, whose return to Vera Cruix, Mr. Murphy has solicited me to facilitate, will embark in two or three days on board of an armed Vessel of the U: States, & will I hope, reach in safety their place of destination.—

I renew to your Excellency the assurances of my high & respectful consideration.—

Dear Sir,

My young friend Mr. Bosch, to whom you have been pleased to give a passage, visits Vera Cruix solely with a view of paying his respects in person to some of his relations who reside at that Place. Mr. Bosch is a native of Louisiana, & being a Citizen of the U: States has received my passport;— It may happen however that the authorities of Vera Cruix, may be opposed to his entering the City— I will therefore, thank you to mention to the Governor, the object of Mr. Bosch in visiting Vera Cruix, & if you find that his landing is in the least disagreeable, I advise & request that he may remain on board of the Siren.— I should be sorry, that this young man should experience any difficulty, or that his visit to Vera Cruix, should excite the smallest suspicion.—

I sincerely wish you a pleasant voyage, & the enjoyment of health & happiness.—

Dear Sir,

I sincerely regret the disappointment which you have experienced.— The putting to Sea of the Viper, was an event which it seems the Commodore had not anticipated.— But he says her cruise will not be long,— & perhaps it may be best that you await her return to the Balize.— In the mean time, I presume you may pass your time agreeably at the Fort & in the Country around, & more particularly if you should ascend the River as far as a Captain Johnson's.— As regards the “Siren”, I stand committed; Mr. Murphy has been assured that she should proceed directly to Vera Cruix & land there, certain Spanish subjects. But were it not so, all my Controul over the Navy, is now at an end;— I have been *officially advised*, that on the 30th. of April last, the day on which the Territory, by an Act of Congress, became a State, I ceased to be an officer of the U: States, & of course, I do not consider myself, as having any further Controul over the Navy.—

I have nothing new or important from Washington.— It is still reported that War is probable; But I begin to think that it will end in a War of Words.—

The electoral struggle is in full vigour; the virulence of faction increases, & new Calumnies are issued every hour.— For myself, I feel much indifference as to the event— My mind is in that State which the Scripture represents to be desirable.— “Happy is the man who “expects nothing, for if he gets nothing he will not be “disappointed.”—

Commodore Shaw is of opinion that the Viper will certainly return to the Balize in eight or ten days.— The disappointment is disagreeable, But it probably may eventuate well.— Had you reached Havanna pending the

Embargo, you might not perhaps have been received.—
 If I have formed a correct opinion of your mind the
 great ills of life would give you no serious concern & the
 “miseries of human life,” as Mr. Cuning calls them,
 do not I am sure excite a moment’s inquietude.—

Accept my best wishes

Dear Sir,

Mr. Magruder delivered to me your very friendly letter, & to which I shall reply more fully in a few days. — This state is for the moment, in great agitation, & the approaching election for Governor engrosses every mind. The people appear much divided, & it is very uncertain, which of the Candidates will succeed.— On the 29. Inst; the trial of strength will commence;— In this City, the vote will be nearly equal;— But it is believed by my friends, that in the Interior Counties I shall be honored with a Majority.— The opposition to me, is very violent,

& I am undergoing all the Calumny which Malice can invent.— Among my opponents Mr. Ed. Livingston & Mr. Thos. Robertson are particularly conspicuous;— But whatever may be my Lot, I am happy in the belief, that neither of these Gentlemen will receive in this quarter, proof of Public Confidence.¹—

Enclosed is my resignation as Governor of Orleans which has become necessary, in order to remove all doubts as to my eligibility to the office of Governor of Louisiana.— I have a sincere friendship for Mr. Dawson, & highly appreciate his long & faithful public services.— I am persuaded, that in this state his prospects *would be favorable*;— But at this moment I cannot express myself *as freely* upon the subject, as I could wish. — The election being over I will write to Mr. Dawson fully & frankly.— In the mean time he must not venture on a voyage hither during the summer Months.— In the fall he may come on with safety to his health, & then at all times, he will find me disposed to advance his Interest in Life.—

General Wilkinson is in the River & his arrival in the City momentarily expected. We learn by the Mail of yesterday, that a Declaration of War, against Great Britain, had passed the House of Representatives on the 4th Ultimo, & information as to the decision of the Senate, is awaited with the greatest solicitude.— From Vera Cruix we have such accounts of the Successes of the Revolutionists as to leave no doubt as to their ultimate Triumph;— Mr. Shaler now at Nachitoches informs me that he had advised you of a design of sundry Citizens of the United States, to rendezvous at some point West of the Sabine, & there to take up arms in favour of the Revolutionists; It is believed, this design is not yet abandoned, but that its execution will be delayed until the question of Peace or War is finally settled by Congress.— A Gentleman on this morning put into my hands the enclosed Copy of an Article of Association, which was secretly circulating in the County of Rapides for signatures;— But at the same time, assured me, that no movement would be made, until further intelligence was recd from Washington.— The advice which on a late occasion I gave to the Civil Authority at Nachitoches, to bring the Law to bear against any person or persons engaged in setting on foot within the Jurisdiction of the U: States a Military expedition or enterprise against the Dominions of a foreign Prince or State, at Peace with the U: States, & my instructions to the Officer Commanding the Militia to give all necessary aid to the Civil Magistrate, supercede *for*

Secy of the Navy

Sir,

I this day received by express from Washington, official information of the declaration of War on the part of the U: States against the U: Kingdoms of Great Britain & Ireland & the Dependencies thereof.— If there was ever a just & necessary War, that which our Country has waged, is the *one*; It was the only measure that could preserve the Independence of the Nation;— That could make our Government respectable at home or abroad, & I trust in God, we shall be enabled to make its miseries recoil *most heavily* upon the enemy.

I inform you with regret, that the Brigs Siren & Viper are at Sea, & may probably fall in with British Cruisers, without a previous knowledge of existing hostilities.— About the middle of the past month, a Mr. Stephen Kingston lately appointed by the President, Consul at Havanna, arrived at New Orleans, & having satisfied me (from a view of his instructions) that the Government was solicitous for his speedy arrival at his port of destination, Commodore Shaw at my request gave him passage in the Brig Viper.— This Vessel was on the Balize Station, & being ordered to cruise in the Gulph Southardly, I did suppose a run to Havannah (so near her cruising ground) would subject the service to

no inconvenience.— The Siren has been ordered to Vera Cruix, with some spanish passengers. Two French cruisers or pirates (believed to have been fitted out at New Orleans) captured & plundered on our Coast a Spanish Brig bound from Vera Cruix to New Orleans, in search of provisions for an almost starving people; The Captain, passengers & Crew, were put on shore, & reached New Orleans poor & miserable;— The Spanish Consul (Mr. Murphy) solicited me to facilitate the return of these unfortunate strangers (particularly the passengers) to their homes & families, & at my request, Commodore Shaw ordered the Commander of the Siren to receive (Mr. Murphy furnishing the necessary stores) & to land them at Vera Cruix.— The Siren had been ordered to cruise to the Westward as far as the Latitude of the Sabine, & to proceed on to Vera Cruix, would not probably have taken her more than thirty-six hours from her Cruising Station.— I had availed myself also of Mr. Kingston's visit to the Havannah, to renew my efforts, with the Captain General of Cuba, to obtain the release from confinement, of ten native Americans, who (whilst acting under the authority of the Florida Convention) were in the fall of 1810, taken in arms near Mobile; & being desirous, that my interference in behalf of these unfortunate men, should be accompanied, with some proof of a disposition on my part, not to be wanting in a return of good offices, I the more readily accorded the request of Mr. Murphy.— I hope the fortunes of War will so far favour the Siren & Viper as to enable them to return safely into port, but in the event of their capture, my regret will be much increased, if the smallest censure should attach to Commodore Shaw— perhaps I was wrong in having ordered those Vessels to a Spanish port, at so perilous a Crisis;— But I remained for some time without official information, as to the course of our Government, & private accounts altho' contradictory, were

such, as to leave on my mind, an impression, that a declaration of War, would not have been proclaimed at so early a period.—

Your dispatch of the 19th Ulto furnished the latest intelligence which I have received from Washington.— General Wilkinson is here, & making the necessary dispositions of the Troops under his orders.— For the present, I cannot afford him all that Co-operation, which I desire;— I am at this time Governor of the State *in expectancy only*; It is understood that I have a great Majority of the vote of the people, & the general opinion seems to be, that the Legislature (which will be in session in 9 days) will sanction the popular sentiment in my behalf; But until my nomination is confirmed, I feel a delicacy in taking any measures, with a view to permanency, & indeed my present powers (as Governor pro: Tem: under the Constitution) do not permit it.— A New Spanish Governor has arrived at Pensacola accompanied by 150 Troops Men of Colour & Blacks & Mobile stil remains in the quiet possession of the Spanish Authorities.— I consider the taking immediate possession of Pensacola & Mobile absolutely essential to the safety of this section of the Union, & I learn with great regret, that Genl. Wilkinson has no orders to that effect.— Considerable supplies of flour & salted provisions have been exported from hence to Pensacola & Mobile, & since the Declaration of War, the Shipments to these places augment daily.— We have much contradictory information, relative to the State of things in Mexico.— It was a few days since, reported, that the patriot Chief Rayon was killed, & that his second in Command Morales had been defeated.— But this is now contradicted, & the patriots are represented to be in peaceable possession of the

whole Country, except Vera Cruix, the City of Mexico, & very few interior *provinces*, to which it seems the Revolutionists, have not yet turned their attention.— A very respectable Citizen of this State, who was formerly in the Spanish service, put into my hands the other day some reflections he had committed to writing relative to the State of things in Mexico ; A perusal may not be uninteresting & therefore I take the liberty of enclosing you a Copy.

that no time ought to be lost, in making the necessary preparations to maintain our possessions on the Mobile & to repel aggression.—

It may be proper to inform you, that in the course of my late administration as Governor of Orleans, I instructed the several Civil Officers in Commission for the County of Feliciana, to exercise authority over the whole tract of Country, extending from the Mississippi to the Perdido, excepting indeed a small District, which enclosed the Town & Fort of Mobile, & is bounded by Dog River, by that branch of it which is called Bayou Boulins; by a line direct from thence, to the Bayou St. Louis (lately called three mile Creek) & the said Bayou & the Mobile River: Neither Dolphin Island nor fish River, (the points alluded to by the Spanish Governor) fall within the above defined limits, & of course, were the District stil subject to my Government, I could not & would not, (unless ordered by the President), do an act, which might be construed as a relinquishment of the Jurisdiction of the U: S: over the same.— As regards Dolphin Island, I gave no particular order to take possession of it; But I stated to Commodore Shaw generally that Dolphin Island, & all other Islands bordering on our Coast & lying West of the Perdido & East of the Sabine, were considered as being within the Jurisdiction of the U: S:., & I requested that our cruising Vessels would anchor near to said Islands, & that Crews would land thereon, whenever their convenience made the same desirable. I presume that the Crew of some of our Gun Boats, have landed at Dolphin Island & hoisted the American flag; But I remain uninformed of the particulars.—

I take this occasion to enclose your Excellency a list of the Civil Officers which were appointed by me for the parishes of Biloxy & Pascagoula, & which parishes are

GENTLEMEN of the SENATE, and HOUSE of REPRESENTATIVES.

I have the honor to lay before you, a paper purporting to be a Copy of an Act of Congress, entitled “An Act “granting to the Governor of the State of Louisiana for “the time being, & his successors in office, a lot of ground, “& the buildings thereon.” I have received no official Copy of the above Act; But the paper enclosed, having having been transmitted to me, by a Member of Congress, I have no doubt, but it is a true Copy from the Original. — Whatever may be the construction Gentlemen, which you shall give to this Act, I trust, in the event, the Senate & House of Representatives of the State should deem

Dear Sir,

I have the honor to inform you, that on the 30th Ult., I entered upon the duties of my office as Governor of Louisiana to which I have been called by a vote of the people of the State & of the general Assembly.—

Yielding to the feelings of a grateful heart, I eagerly seize this occasion to return you my sincere thanks for the high Confidence you were pleased to repose in me, during the late Territorial Government, & to assure you, that in the course of my services as Governor of Louisiana there is nothing, I more desire, than to promote the views of your wise & virtuous administration, & to give you individually proofs of my most faithful & respectful attachment.—

Sir,

Having received information that the Chaetaws of the lower Towns had committed depredations in the settlement on Pearl, Leaf & Checkasaw-hey Rivers, & had discovered a hostile disposition towards the U: S: I have

directed to them “a talk” herein enclosed, & which I commit to your care.— I request you therefore, to proceed without delay to the nation & after assembling the Chiefs & Head Men to deliver & explain to them my address;— and to which you will add such observations of your own, as you may think best calculated to incline them to Peace & friendship.— Should you meet with Mr. Silas Dinsmour the agent of the U: S: for the Chactaws, or with Mr. Pitchlynn,¹ or any other person in the nation in the employ of the U: S:, you will explain to them the object of your visit, & request their Co-operation.—

During your stay in the nation, you will make enquiries & transmit me on your return, information on the following points.— 1st Whether the Creeks & Chactaws have been furnished with Military supplies at Pensacola & Mobile— & if so, by whom— to what amount & with what views.

2n. The number of warriors in the Chactaw nation & what portion of them are supposed to be under English or Spanish influence.

3 The names of the Town, where the Spaniards & English have the most partisans & the Character of the Principal Chiefs of these towns.—

4 Whether the Prophet, had sent talks among the Chactaws, & whether his Brother Ticumsey had visited them.—

You will be pleased to keep an account of your expenses, which together with such reasonable Compensation for your services, as the Legislature of Louisiana shall think proper to prescribe, shall be allowed you.—

Sir,

About seven leagues north of the Fort St. John, & immediately back of the plantation of M. Bernard Bernowdy on the German Coast, there are the remains of a small Fort on the Lake Pontchartrain at a place called Tiganyou. At that spot, the Chactaw Indians are in the habit of crossing the lake, & in former times, they took that route in all their hostile visits to the settlements on the Mississippi. The French afterwards had a few Men stationed at Tiganyou, & recent information of the unfriendly disposition of the Chactaws, induces me to suggest for your Consideration, the expediency of sending *there*, a subaltern & fifteen or twenty men. It would I am sure give much satisfaction to the inhabitants on German Coast, several of whom have expressed to me, their great desire to see that position occupied.— If events should require your whole force to be concentrated, I will relieve the Command you may send to Tiganyou, by a Detachment of Militia, so soon as the Legislature shall pass a Militia Law, which is now under discussion.—

FELLOW CITIZENS of the SENATE and HOUSE of
REPRESENTATIVES.

I am very grateful to the people of Louisiana for the distinguished proof of confidence, they have been pleased to afford me, nor am I insensible Gentlemen of the honor conferred, by your sanction of the popular sentiment in my behalf.— Diffident of my talents, & deeply impressed

with the magnitude of the trust committed to me, I should despair of a successful result, were it not for the benefit of your enlightened councils.— Man is rarely enabled to conduct his own concerns in a manner pleasing to himself, & how much more difficult is it to manage satisfactorily the affairs of a Government. As far as regards my agency, I cannot promise myself the happiness of pursuing a Course which shall command General approbation. To conciliate public sentiment, & to satisfy the wishes of all, require a perfection in wisdom & virtue, to which I lay no claim. It will, I fear, be often my misfortune to mistake the public interest; but I shall never do so intentionally.— There notwithstanding will be individuals, who endeavor to *magnify my errors into crimes*. But the repose of an approving conscience is not easily disturbed, & as in times past, so in times to come, I shall view with calmness, the turbulence of political contention, & meet with composure the clamour & bitterness of opposition. With these feelings Gentlemen, & a *firm reliance on the justice of my Country*, I have entered on the duties of my office, *without the smallest apprehension*, other than what arises from an extreme solicitude for the general welfare.—

Having witnessed the moment when the authority of the United States was first extended over this important, interesting & delightful district; having assisted for near nine years, in its progress from Colonial dependence to state sovereignty, & so frequently experienced the kind indulgence of its generous Inhabitants.— there are no motives which can influence an ingenuous mind;— no considerations of honor & gratitude but combine to render the prosperity of Louisiana, an object of my fondest affections.— Receive then Gentlemen, my warmest congratulations on the happy event, which has made her a Member of the great American confederacy, & secured for ourselves & posterity, the blessings of liberty, Laws

& safety, Always a friend to Representative Government,' believing it to be the one best calculated to advance the happiness of society, I anticipate the most favorable results from your present deliberations.— Your devotion to the public good & your wisdom to discern it, will ensure the earliest attention to the various & fit subjects of Legislation. The consideration of the Act of Congress, which provides for an enlargement “of the limits of the State,” has justly been esteemed as of primary importance. By that act a considerable tract of Country rich in natural resources and highly improved by the hand of industry is, with the assent of the Legislature, to be added to Louisiana. This accession of *population, of wealth and of strength*, was earnestly desired by the Convention of Orleans, & the general government in according it, has given a further proof of regard for the welfare of this section of the Union, which you Gentlemen, will I am assured highly appreciate.—

The constitution of the State, points to several objects of high concern; which claim your most deliberate reflection. On a wise & just arrangement of the judicial department, depends the best interests of the community.— The great outlines are prescribed; but the details are left for Legislative provision.— The Judicial power “is to be vested in a supreme Court with appellate jurisdiction only, & in such inferior courts as the Legislature may think proper to establish.” Your first care should be to facilitate the approach to the tribunal of last resort, & render it accessible to the most indigent Citizen; An accumulation of legal forms & ceremonies should be studiously avoided;— they augment expences & become oppressive; they obstruct the streams of Justice, & eventually divert their course. In organizing inferior courts, your own knowledge of the local situation of the several counties, & of the habits & sentiments of your Constituents, will be your safest guides;— we have seen the oper-

ation of the Parish Court system, & experience has made us sensible of its defects.— *These* should be remedied. But let us not proceed with an impetuous hand, or we may mistake innovation for reform, & instead of amendment present only a change. The duties of the Attorney General and “the number & duties also of District Attorneys” are to be determined by Law. These will necessarily depend upon & be adapted to your judicial arrangements. But I am persuaded Gentlemen, you will in no instance, depart from that wise policy which forbids an unnecessary increase of offices.

At this eventful crisis, it is highly essential, that this State, should be fully represented in the Senate & House of Representatives of the U: States, & that timely provision be made for the exercise of its important suffrage, at the approaching election of a President & Vice President. To this end you will take the necessary measures, nor do I doubt, but they will be such as the purest principles of Patriotism shall advise.

To carry into effect the articles of the Constitution, which secures to the Citizens of New Orleans, the right of appointing the officers necessary for the administration of police pursuant to the mode of election to be prescribed by the Legislature,” your Co-operation is necessary & ought to be speedily rendered. The *interest* of this great & growing City, is intimately connected with *that* of the State, & *cannot be too affectionately cherished.*

The regents of the University of Orleans will lay before you Gentlemen, an interesting view of the College of New Orleans, & of the several County Schools under their superintendence.— You will notice with great satisfaction the progress of science, nor do I doubt your readiness to contribute by such means as may be in your power, to its further advancement. Education gives to the mind all the perfection of which it is susceptible, and prepares our youth for the high destinies which await

them. On the rising generation rest the happiness of parents, & the best hopes of the State. Let our children be reared in the paths of knowledge, of virtue & patriotism, and whilst they will maintain the rights, the honor the glory of our Country, their general deportment will be such as to occasion the grey hairs of those who watched them in their infancy, to go down without regret to the grave.—

GENTLEMEN of the HOUSE of REPRESENTATIVES.

The proper accounting officers will present you a Statement of the receipts & expenditures for the past year. The liberal donations of the last Territorial Legislature to literary instructions; the remuneration accorded to sufferers during the late insurrection, & the heavy expences incurred by the Convention of Orleans, made serious impressions on the public Treasury. There nevertheless remains a fund equal to present exigencies, & I indulge a fond hope that the Charges incident to a State Government, may all be met without resorting to further taxes. But to this end, it is indispensable that punctuality in the collection of the revenue be enforced, & the most prudent economy in its expenditure observed. We are all Gentlemen sensible of the pressure of the times, & must unite in the most economical course.— The hand of industry no longer meets a liberal reward; most of the productions of the soil are perishing in our possession, & the payment of the existing imposts is becoming seriously inconvenient to many of our fellow-Citizens.

GENTLEMEN of the SENATE and of the HOUSE of REPRESENTATIVES.

There is yet another subject, to which, I am urged by the strongest considerations of duty to invite your attention.— The Militia, says the Constitution, is to be or-

ganized in such manner, as may hereafter be deemed most expedient by the Legislature.— It is with regret I have to observe, that this force does not exhibit that arrangement, order & discipline which can alone render it respectable. The causes may in part be found in this existing Laws, which I pray you to revise & to render more efficient. The contrariety of language spoken by the Citizens of Louisiana; the dispersed situation of settlements & the inconvenience which attends the frequent assemblage of corps for exercise & inspection, present serious *obstacles*; but *these* should serve only as incitements to further exertion, until every improvement is given to our militia system, which existing circumstances will admit.— At all times, such would be our duty. But at this perilous crisis, the safety of our Country imperiously demands it; The U: States are engaged in a War, to the calamities of which, this section of the Union is greatly exposed. We know not the moment when the enemy may menace the sanctuary of our dwellings & convert to his use, the fruits of our industry. A sense of common danger, should unite every heart, & strengthen every arm. If ever War was justifiable the one, which our Country has declared, is that war.— If ever a people had cause to repose with confidence on their Government, we are that people. From the days of the great Washington to the present period, the desire of our rulers has been to preserve peace with all nations, & to keep aloof from those destructive conflicts which are filling the world with widows & with orphans. With this view the most pacific policy has been pursued: omitting nothing which justice required, & doing nothing which neutrality forbid. Remote from the Scene of Carnage, & indulging in no sympathy for the belligerents, but such as invited acts of kindness to all.” we had a right to expect exemption from aggression. But in this degenerate era,

innocence itself cannot arrest the hand of violence. When the Government of Great Britain first aspired to the base pre-eminence of becoming the highwayman of the Ocean, our illustrious statesmen opposed the absurdity; the wickedness of her pretensions, & made repeated appeals to her justice.— But they appealed in vain. When our unprotected commerce became a prey to rapacity, & our Countrymen navigating the high Seas were impressed into her ignominious service, & made to fight the battles of their oppressors, we again preferred remonstrance to resistance.— But this moderation has been received as timidity, & in proportion to our forbearance has our wrong multiplied. Our Laws are derided, & our rights outraged. The harbours of the U: States have been blockaded & their own waters coloured with American blood. Seeking redress by negotiation, the sword still rested in the Scabbard & we called it peace.— But such a peace presented no claims to an American heart, it was accompanied with dishonor, & leading fast to the ruin of our Country. The day however of retribution has at length arrived.— The Government which to a long list of injuries, has added an attempt to dismember the happy union, which made these States free & independent. The Government whose Agents are busily employed in exciting the ruthless Savage to murder our women & Children has much to answer for.— The collected wisdom of the American nation has declared the *remedy*, & a great, brave & determined people will apply it.— A War exists between the United Kingdom of Great Britain & Ireland & their Dependencies & the U: States of America. War is not the greatest of evils; a base submission to aggression would have been a greater curse— it would have entailed dishonor, cowardice, vassalage upon ourselves & posterity. The independence of America was the fruit of eight years of toil & of danger, & to maintain this inestimable “heritage” the sword is

again unsheathed. The wrongs of England have been long & seriously felt;— they are visible in the decline of our Sea port towns; in the ruin of commerce & the languor of agriculture. The recourse to arms may increase the pressure; but let it be recollected, that whatever sacrifice we make, is offered on the altar of our Country; a consideration which will reconcile a faithful people to every privation. The President of the United States calculates on every aid, which it is in the power of Louisiana to give, “as well to mitigate the evil of War to our own Citizens, as to make it effectual against the enemy.” In so reasonable a request, let not our Chief be disappointed. For years he has laboured to avert the storm, & now that it rages in all its fury, let us endeavor to carry him & our Country safely thro’ it. Union is in itself a host. It is numbers, strength, and security.— Let every man put himself in Armour.— Age itself, should be prepared to advance against an evading foe: our young men should hasten “to the tented field,” & tendering their services to the Government, be in readiness to march at a moments warning, to the point of attack.— In such a contest, the issue cannot be doubtful. In such a cause every American should make bare his bosom. “Where justice is the standard, Heaven is the warrior’s shield.”

GENTLEMEN of the SENATE!

I have received a Copy of your resolution of the 6th Inst.; by which you “advise the Governor to nominate Mr. Thomas B. Robertson, as a Candidate to fill the office of Secretary of State.”

The ninth section of the third article of the Constitution speaking of the powers of the Governor, says.— “*He shall nominate & appoint, with the advice & consent of the Senate, Judges, Sheriffs, & all other officers whose offices are established by this Constitution, & whose appointments are not herein otherwise provided for.*”

After giving to this section all the Consideration which its importance merited, my mind became perfectly convinced, that the power to nominate was vested *exclusively* in the Governor, & that the Constitution had called upon him *imperatively* to exercise it.— I did in Consequence on the 30th Uto. nominate Lewis Bartholomew Macarty of New Orleans, as a fit person to fill the office of Secretary of State. The right to *approve*, or *disapprove of that nomination*, is, by the Constitution given to the Senate. Whenever therefore Gentlemen, you shall notify me of your disapproval, I will nominate another Citizen possessed of my confidence, & whom I believe also to be deserving of yours.— In the mean time, I cannot & will not act upon any nomination made me by

the *Senate*, because by doing so, I should depart from my Construction of the Letter & spirit of the Constitution and abandon a Trust committed to me by the People of Louisiana.—

A Message from the Governor to the Legislature.

GENTLEMEN of the SENATE, and of the HOUSE of
 REPRESENTATIVES!

Being informed that a Bill apportioning the representation, to the Parishes of Feliciana, Baton Rouge, St. Helena & St. Tammany was at this time under Consideration,— I deem it proper to lay before you, a census of the inhabitants of *Feliciana & Baton Rouge* taken in the year 1811, by the proper officers.— No official returns have been received by me from St. Helena & St. Tammany; But from the inofficial reports of parish officers, & other Citizens entitled to Confidence, there were in *St. Helena*, in the year 1811, about two thousand and two hundred Souls, of which three hundred were Slaves; and in *St. Tammany* from seventeen to eighteen hundred free people, and three hundred Slaves.— I have understood, that in the course of the present year 1812, there has been a Considerable emigration to the *four Parishes above mentioned*, particularly to St. Tammany;— But I have no Documents, on which I could form an accurate estimate of the Number of these emigrants.—

A TALK from

WILLIAM C. C. CLAIBORNE, Governor of the
State of Louisiana & Commander in Chief
of the Militia thereof, to the Chief Head
Men & Warriors of the Chactaw Nation.

Brothers

I salute you in friendship, & beg you to open your Ears, that you may hear my words,— Many of you remember me, when I was a Chief at Natchez, & know that I never deceived you. My friendly disposition towards you remains unaltered, & since I have been a Chief at New Orleans, I have always been just to the red men.—

Brothers! When I have a journey to make, I take the nearest path, turning neither to the right nor to the left, but keeping straight on;— So it is when I send out a talk — my manner is to speak plain, & to ease my heart at once, of what I have to say.—

Brothers! The English who live beyond the big Water have done the Americans much harm;— they have robbed us of our property— compelled many of our people to serve on board of their Ships of War, & spilt American blood.— The President of the U: States, & his head Men have determined upon satisfaction; the Tomahawk is raised & our hearts are cross.— This a quarrel Brothers between white people, & does not concern the red Men; We know well the English, & have no fear of them.— More than thirty years ago they made War against the U: States. We were then a young people, & the enemy thought to crush us;— But they found Men & Warriors to combat them, & returning to their Ships, they left our Country to ourselves, & made peace upon our own terms.

Brothers! We have now grown up to manhood, & can the better fight our own battles.— I say again this quar-

rel does not concern the red Men.— Let them therefore remain quiet & join neither side. Your squaws & little Children will rest undisturbed in their Cabbins Your old Men will discourse & smoke without fear, under the shade of the Trees, & your Warriors may hunt & dance & be merry until they have an enemy of their own to strike.

Brothers! During the last War between the Americans & the English, the cherokees, & the Creeks & the Northern Indians joined with our Enemies.— And what followed?— The Indian Country was often visited by the big knife Men; Towns were burnt & fields of Corn destroyed; the women & little Children had to sleep in the mountains & many a brave warrior was laid low.— And what Brothers was the recompense for all these sufferings? Some trifling presents! A few shirt Blankets— some kegs of Rum & two or three dozen Medals made of bad Mettle.

Brothers! I have heard some bad news from Pasca-goula & Pearl Rivers.— It is said the Chaetaws have committed many robberies & that blood has been spilt. What does this mean? Do the English want the poor Indians to fight their battles & are you such fools as to sell your lives for a few goods? Has the proffet sent bad talks among you? or has his Brother Ticumsey made you believe that the Northern Indians are strong enough to drive the Americans into the Sea?

Brothers! The proffet says that he is the Son of the great Spirit, & can prevent powder from burning, & deprive a Ball from a riddle of its force. Some of the followers of this pretended “Son of the great Spirit” believed him & made an attack some moons past on the American Army. But as formerly the powder hurt & the Balls penetrated, the Indians were defeated.— Many were killed & the proffet turned out to a liar.— Ticumsey

is a Warrior; But he is a *Mad Man* & knows not what he says, or what he does. Beware of him, or he will bring you into trouble.—

Brothers! Your father the President of the U: S: loves his red Children & wishes him to live in peace,— He loves also his white Children, & will suffer no Nation to strike them with impunity. He possesses the power to punish his enemies, & the will to do it.— The Chactaws are a small people, & when compared to the Americans are but a handful.— You may make War; But you will soon sue for peace.

Brothers! I am told that a Council fire is now burning & that white Beads & Wampum are passing between you & the Creeks.— Let this talk be read at the Council, & tell the Creeks to hold it fast. Say to them in my name, to keep their bad Men at home or evil will fall upon their nation.—

Brothers! I am told you go often to Pensacola & Mobile. Listen not to any bad talks you may hear there; But sell your skins & return in peace to your Cabbins or to your hunting ground. The Spanish Chiefs if they are your friends will give you the same advice; But there are wicked people every where, & if you find such at Pensacola or Mobile, turn your backs upon them— But Brothers I must conclude— Many words are soon forgotten— Take Simon Favre by the hand, & whatever he tells you in my name, believe him, for he is a good Man, & will neither betray me, nor deceive you.

I have nothing more to say Brothers— but to express a wish, that the Tomahawk between the Americans & the Chactaws may long remain buried.¹—

Virginia

Dear Sir,

Attribute not my long silence to a want of friendship; — But to the Political Storm to which I have been exposed, & the disposition, I felt, to await addressing you until I had made a safe harbour.— During the late contest for Governor, my enemies were unusually active, & had recourse to every means, to injure my private & public character;— Among my opponents Edward Livingston of New York, & Wm. Robertson (the Secretary were the most malignant! But after all, I have the pleasure to announce to you, that the people of the State, have honored me, with a most flattering proof of their confidence.— In the vote of the people, I obtained a majority in each & every County in the State;— the aggregate Number of votes in my favour was 2757.— Mr. Velleré 947, & for M. Destrehan 168— On the 28th Ult. the Legislature proceeded to elect by ballot one of the two highest Candidates in the vote of the people, when there appeared to be 33 votes in my favour, & 6 for Mr. Velleré.— I entered upon my administration on the 30th. Ult. & enclosed is a Copy of my address on the occasion.— I have before me an arduous Task, & already my difficulties have commenced.— In New Orleans my enemies are numerous, & they have already succeeded in creating a serious Schism between the Senate & myself.— The power of nominating to office under the Constitution, is claimed by the Senate & will be insisted on by me.— How the difference will finally be settled, I cannot tell. The Senate are at this time equally divided; Seven decidedly with me, & Seven opposed;— the first are to a man my

friends, & the latter, with the exception of perhaps, two, are my political enemies, & I believe personal.¹

No appointments in the Judiciary have yet been made, & are not likely to take place for some time. Most willingly would I place you on the Bench of the Supreme Court of this State.— But in my present difficulties with the Senate it is extremely doubtful, whether or not it will be in my power to serve you.— Your absence would prevent a Confirmation of your appointment were you nominated— & the great doubt as to the disposition of the Senate towards *either* of us, make it impossible for me to invite your removal here, with any certainty of the patronage of the Senate.— Your old friend Poydras is President of the Senate, & is most favorably disposed towards you:— But his influence & mine united, can only divide the Senate. Cannot the General Government give you some desirable employment in this quarter? I will pay attention to passing events, & should I see any way of serving you at Washington, I will eagerly seize the occasion. After some short residence among us, I am certain it would be in the power of your friends, to advance your Interest under the State Authority.— I pray you to write me from time to time, & keep me advised of the successes of our little Navy & of the Northern Army. I am grieved at the course Massachusetts has taken; the address of the Representatives of that State to the people, is vastly humiliating & will be read with sorrow & by every lover of his Country.— I wish to God Congress had ordered taking possession of the Floridas: Was the War prosecuted with vigour, promptitude & decision, it would soon become popular!—

Genl. Wilkinson is here, but can take no effectual means for the protection of this Section of the Union, until he is authorized to take Mobile & Pensacola! If

Dr. Sr.

Do me the favour to forward the enclosed letter to our friend Mr. Dawson; It acquaints him of my sincere desire, to advance his interests, & of the pleasure I would feel in placing him in the Judiciary of this State;— But such is my present difficulty with the Senate of this State, that I cannot promise my friend, the support he so justly merits.

I succeeded to the Government of the State by an overwhelming majority of the vote of the people, & in the Legislature by a vote of 33 to 6:— But notwithstanding Sir, it will be with extreme difficulty, that I shall be enabled to get along with the Government. New Orleans is the seat of Government;— My enemies here are very numerous & after resorting to every expedient which malice could invent, to defeat my election they seem determined to throw every embarrassment not only in my way, but in the way of the public Interest & safety. The Intriguers have already succeeded in creating a serious Schism between the Senate & the Executive.— The power

of nominating to office, under the Constitution is claimed by the Senate, & insisted on by me. The enclosed Copy of my last message will inform you, in what state the business now rests. I learn today, that the Senate are equally divided 7 in favor of the Executive nomination & 7 against.— The former are my warm supporters;— The latter my political opponents, & (with the exception of two) my personal enemies. I believe no appointments in the Judiciary of the State will take place for some months;— In the mean time, I will endeavor to impress my friends favorably towards Mr. Dawson, & with this view, I shall use your letter as also one which Mr. Jefferson has written to me.— With the people of Louisiana I stand well, & in the House of Representatives I have many friends. But the unprincipled intriguers of New Orleans with Livingston at their head will prevent me, from effecting many objects, which accord with the best Interests of the State.

I am grieved at the course Massachusetts has taken, nor can any lover of his Country, read the address of the Representatives of that State to their Constituents without terror & humiliation.—

Gen. Wilkinson is here but can take no effectual means for the safety of this Section of the Union, until he is authorized to take Pensacola & Mobile.—

It is understood that the patriots in Mexico are still successful— But I have received recently, no information that can be relied on. It is believed that a Number of Americans design to rendezvous at some point West of the Sabine, & to join the revolutionary standard. General Adair is mentioned as the leader of the party, & it is positively stated to me, that the project will soon be attempted. I await with anxiety some orders of the Government upon this subject.— in the mean time, I have thought it a duty, to renew my instructions to the Civil Officers at Natchitoches to be vigilant in preserving order.

& preventing a violation of the Law, which forbids the setting on foot within the jurisdiction of the U: S:; a Military expedition against the Dominions of a foreign state at peace with the U: States.—

East of the Sabine & within the limits of this State, there is a small settlement, called the post of Bayou Pierre, where during the Territorial Government, I never exercised jurisdiction,— It is within what has heretofore been called the neutral ground, that is to say, between the Harroya Honda & the Sabine;— there is at present at that post a Civil Magistrate acting under a Spanish Commission.— I must necessarily extend to that settlement the authority of the State of Louisiana & I am not without apprehensions, that it will be illy received by our Spanish neighbours.—

GENTLEMEN OF THE SENATE, & OF THE HOUSE OF REPRESENTATIVES!

Involved as we are in War, with one of the most powerful Nations of Europe:— menaced with Indian hostilities, & exposed from within to Casualties of serious import, I feel it a duty to urge the Legislature, to take with promptitude, *such measures*, as the safety of the State shall advise.— Among these, the immediate passage of a Law; which shall point out the mode of appointing Militia Officers, is highly essential.— Many vacancies exist, & there is no where a power to supply them.— The Consequence is, that the Militia already disorganized, is becoming more so every day.— It would indeed be desirable that a Militia System more efficient, than the one left us by the Territorial Government should be adopted; But to mature such, would require much reflection, & be attended with greater delay, than the present perilous Crisis permits.— I entreat you therefore Gentlemen to remedy some of the most prominent defects of the existing Laws, & to put it in the power of the Executive, to array in defence of the State our whole force, or such part thereof, as the occasion may demand.—

On turning my attention to the interior situation of the State, I perceive with regret, that within the parishes of Feliciana Baton Rouge, St. Helena & St. Tammany (which have recently been annexed to Louisiana) the

Civil Authority has become so weakened & relaxed, that the laws have lost much of their influence, & in the parish of St. Tammany particularly are scarcely felt.— I advise therefore Gentlemen, that such provisions as you shall think proper to prescribe for these parishes, may be passed with all convenient dispatch.—

In organizing the Judicial Department, I recommend an early decision, as to the expediency of continuing the Parish Courts, which is the more necessary, since vacancies have arisen in the parishes of Iberville, & Avoyelle, which the public Interests require to be speedily filled.— To the due preservation of the Law & of good order it is requisite, that an additional Number of Justices of the Peace, be named in several of the parishes:— But it devolves upon the Legislature, to declare in what manner they shall be appointed.—

Dear Sir,

Shortly after issuing the enclosed proclamation, a Man of the name of William Francis came to me & said, he had intended to proceed to Nachitoches in a barge, with a number of passengers, whom he believed designed to join the *Mexican expedition*, & understanding the Government approved the *same*, he had not supposed any blame would attach to him.— But finding from the Proclamation, that the expedition was unauthorized, he should no longer favour it, or any person concerned; & on proof of his sincerity, he delivered me four stand of U: S: Arms, which were found in possession of some of the persons, who had engaged their passage.— The next day Francis again came to me, & said that having taken in freight for Natchitoches, his private Interest required he should proceed thither;— But as it was probable, suspicion would at this time attach to all Boats proceeding to that quarter, he solicited for his security a passport, which I furnished him, under a belief that he was sincere in his professions of respect for the Laws. I have this moment been informed, that the whole of this conduct was a finesse & that Francis left this place two days since with all the persons who had originally engaged to accompany him.— I have therefore to request, that you would take means to see Francis, as soon as he should reach Baton Rouge & demand of him his passport, & on

receiving it, that you should say to him, that he had deceived me, & that I had requested you to obtain the passport & to transmit it to me.— I have further to request, that you would cause the Francis's Barge, the Passengers & Crew to be examined, & if there be reasonable ground to suspect, that the object of the voyage to Natchitoches is in any manner to co-operate in the expedition against the Spanish Dominions, that you will bond Francis & the passengers to their good behaviour, or have recourse to such other procedure, in conformity to the Laws, as may in your Judgment be deemed correct. New. Orleans 18th August 1812.

My dear Sir,

I have received your friendly letter, & am very thankful for the Interest you take in my welfare.— I owe the people of Louisiana many obligations for the high honor conferred on me, & the first object of my heart shall be to advance their prosperity;— But the difficulties in my way are considerable & not easily surmounted; already my enemies have succeeded in dividing the Senate & Executive; The former claims under the Constitution, the power of nominating to Office, & pretend that the duty of the Executive is to Commission, such persons as the Senate shall select. This doctrine being opposed in my judgment to the Spirit or letter of the Constitution, I cannot & will not submit to it. The Consequence is, that no appointments have been made, nor will any take place, until the Delegation from Florida, shall decide the contest.—

In volunteering your services, we have another proof that the Spirit of Seventy Six is not yet extinguished;— the Example is inestimable, & will produce the happiest effect; the Commissions for the Company shall be for-

warded as soon as the Legislature, shall pass a Militia Law, now under Consideration; But, for the present I can do nothing (officially) in forwarding the patriotic exertions of yourself & Captn. Bellenger, in as much, as I have no authority to issue a single Commission— but I hope the Legislature will in a few days relieve me from this embarrassment. I rejoice at the prospect of your becoming a permanent Citizen of Louisiana;— be assured of my friendship, & of my sincere disposition to serve you. You ought to occupy in the Militia of the State that high rank to which your long & faithful service entitle you, & the first opportunity shall be embraced by me to confer it;— Under the Civil Government, whenever it is in my power to serve you, I shall give a proof of my confidence, in your virtue & patriotism. I am one of those, who feel grateful to the Soldiers of the Revolution.— I consider them as the fathers of my Country, & having great claims on the public patronage.

In the affair of McFarland, the conduct of Judge Wykoff & the Citizens, & of Captn. Ballenger meet my entire approbation. I am sorry that the arrest of the Offenders, was attended with so much bloodshed,— But their resistance made it indispensable, & the example may, & I hope will, have a good effect.—

Give my best wishes to Captn. Ballenger & say to him, that I shall answer his communications by the ensuing Mail.—

The collection of the Taxes by the several parish Judges, has at all times been considered by them as a very unpleasant duty.— It has already occasioned several resignations, & in some instances prevented Citizens, in whom the public placed high Confidence, from accepting the office of Judge.— I much fear a continuance of this regulation may induce the Judges to retire & that at the present period, when the durability of the Parish Court system is so very uncertain, I shall experience difficulty in filling satisfactorily, the vacancies which exist or such as may arise.— With a view therefore to prevent embarrassments, & the better to secure a punctual collection of the revenues, I suggest for consideration, the expediency of providing by Law, for the division of the State into *five or more Collection Districts*, & for the appointment within each of a Collecting Officer, or that some other means be resorted to, calculated to ensure *a faithful accountability*, & upon terms the least expensive.

A Message from the Governor, making several nominations.—

GENTLEMEN OF THE SENATE!

Several parish Judges having resigned, & the Public interest requiring that their successors should be speedily appointed, I have the honor to submit to the Senate for their advice and *Consent*, the following Nominations to wit:

John Dutton of Point-Coupeé to be Judge of the Parish of Iberville in the place of Nathan Merian resigned.

Kenneth McCrummins of Avoyelles to be Judge of that parish in the place of Thomas F. Olliver, resigned.—

Ranson Easton of Attackapas to be Judge of the Parish of St. Martin in the place of Seth: Lewis resigned—
And Edward Lauve of Natchitoches to be Judge in the place of John C. Carr, who has tendered his resignation.

I take this occasion also to renew to the Senate the nomination of Lewis Bartholemew Macarty of New Orleans as a fit person to fill the office of Secretary of State.—In conducting the business of the Executive Department the aid of that officer is essential & the public service will be promoted by such an appointment.— It is very questionable whether the Secretary of the late Territory of Orleans, is at this time authorized to act as Secretary of the State of Louisiana. The powers given to that officer in the Schedule to the Constitution were evidently designed to be only temporary. The 19th Article of the 3 Section of the Constitution says, “A Secretary of State shall be appointed & Commissioned “during that term for which the Governor shall have “been elected, if he shall so long behave himself well.”— In order to meet this Constitutional provision, immediately after being sworn into office, I had the honor to nominate to the Senate, a Secretary of State. It would

seem also, from the Resolution entered into by the Senate on the 6th of August last, that on their part, they were alike impressed with the necessity of appointing & Commissioning a Secretary of State, for and during the time mentioned in the Section of the Constitution above referred to.

A Message from the Governor, returning a Bill with his objections.

GENTLEMEN OF THE SENATE!

I have considered the Bill, entitled “an Act for regulating the Election of Representatives for this State “to the Congress of the U: States,” and I now return it to the House, in which it originated, in order that the first Section may be so modified as to meet what I presume to have been the object of the Legislature, an early election.—

The Bill (which was presented to me on yesterday the 3rd of September) directs an election to be holden on the fourth Monday in September next,— and of course if approved in its present shape, the Election would be postponed to a very distant day.—

As the first Section of this Bill must necessarily be reconsidered, it seems to me desirable to render the same more explicit.— Two elections are contemplated to be holden in the same days;— The one for a Representative to the present Congress, whose term of service will expire on the 3rd of March next, & the other for a Representative to the next succeeding Congress, whose term of service will expire on the 3rd of March 1815.— If the Judges of the elections were directed to furnish on the

occasion two separate Boxes, & to make the result of the examination of each Box the subject of a distinct & separate return, it would prevent confusion & Irregularity.

As regards the proper period for holding these elections, I shall not oppose the *will* of the Senate & House of Representatives; But I am of opinion, that information of the same, cannot be generally communicated thro'out the State, in less time, than six weeks.—

I have considered the Bill entitled “An Act supplementary to an Act for Regulating & governing the Militia of the Territory of Orleans” and as I cannot approve the same, I now return it to the House in which it originated.—

I object to the passage of this Bill because it would tend to throw the whole Militia into a State of Confusion & Chaos;— which would at any time, be cause of regret, but at a moment like the present, of War & peril, might prove hazardous to the public safety.— Because some of the provisions of the Bill are contradictory, & others cannot be executed.— And because, there are officers created by the Bill, on whom high duties devolve, & for whose nomination & appointment no provision is made. There are several Regulations proposed that would greatly contribute to the good of the Service:— Among others those contained in the 3rd 14th 16th 17th 18th &

Ultimo, I have found myself exposed to embarrassments which were not anticipated. The general Assembly of the State (being in session at that time) was invited so to annex the existing Laws, as to put it in the powers of the Executive, to array in defence of the State, its whole Militia or such part thereof as occasion might require;— & as an inducement to doing so, the two Houses were informed of the extent of your requisition.

A mandatory Act was proposed; But it contained provisions which the Executive could not approve, & the sessions of the general Assembly were finally closed, without Legislating on this interesting subject.— Hence in part arises the embarrassments to which I allude;— Confiding however in the patriotism of the State, I stil feel myself at liberty to promise a zealous co-operation in such defensive measures, as may from time to time become necessary.— If therefore you will state to me, what particular positions on the Lafourche & the Lake Barrataria, you would wish to assume, & shall on your part make the necessary arrangements for provisioning these posts, I will order each to be occupied by a Company of Militia, & will have the detachment in readiness “to be mustered & inspected by a regular officer,” with all possible dispatch.— In like manner I will (if you should under the instructions of the President think proper to make the requisition) order into the service of the U: S: one or two Companies of Militia to take post on the Teche within the County of Attackapas, a point, which in my judgment, ought not to remain as it now is, wholly unprotected.— I will further hold in readiness for service within the City of New Orleans, a disposable force of five hundred men to act as Exegencies may demand, either to quell internal commotions, or to meet an invading foe; but not to be Considered as being in the pay of the U: S: until ordered to take the field. To effect however these views, and as an indispensable requisite, I must ask of you the loan of Arms (the Militia being for the most part without them) & of some necessary Camp equipage.—

I am,

Sir,

With very great respect

Your mo: ob: Sert.

Sir, M. Territory.

On the 9th. Ult: I had the honor to enclose you a letter from the Judge of the Parish of Biloxy communicating intelligence of Indian depredations, as also a Memorial addressed to me, by a Number of the Inhabitants on pearl River, expressive of their great apprehensions, & entreating me, to send into the Chaetaw Nation Simon Favre, whose influence with the Indians, the Petitioners believed to be such, as to insure a continuance of Peace.— About the same time I received sundry letters from respectable Citizens of the parishes of St. Helena & St. Tammany within this State, informing me of the frequent menaces of the Chaetaws, & requesting that measures might be taken for the safety of the settlements.— Desirous of ascertaining whether or not there was ground for this alarm, I addressed a Talk to the Chiefs of the Chaetaws (of which a Copy has been transmitted to your Excellency & sent it by a Special Messenger, Mr. Simon Favre, who was particularly instructed, to inform Mr. Dinsmoor, Mr. Pilchylum, or any other agent of the U: S: whom he might meet in the Nation of the object of his visit.— Since Mr. Favre's departure, I have received from him two Letters, the first advised me of his arrival in the Nation, & of the favorable disposition towards the U: S: of a Chief who was the Bearer of his Communication: & the second announcing the arrest & detention of Mr. Favre as a prisoner by orders of Mr. Dinsmoor. I am persuaded this proceeding is the Act of a subordinate Agent, & that it is not approved by your Excellency.

At a period, when the emissaries of the English, are busily engaged in inciting the Savages to War against the U: S: the Citizen (acting under the orders of the Chief Majistrate of a State) whose sole object in visiting

the Chactaws was to incline them to peace, did not merit the treatment Mr. Favre has received! and permit me to add Sir, that at a period, when the Indian Tomahawk was believed to be raised against the Frontier settlers of this State on Pearl River & elsewhere, I felt it a duty, to take immediate means to ascertain the extent of the danger; so as to be enabled to direct the corresponding measures.—

I knew that the Governors of Tennessee, in the vicinity of which State the Chickassaws are settled, are in the habit of addressing Talks *to their chiefs*, & it has (I believe) at no time been considered an interference with the resident agent.— I have observed also, in the Newspapers, that not only Messages pass, but interviews take place between the Governor of Ohio & the Indians on the frontier of that State, nor have I understood, that any exception has been taken to the proceeding.—

I presume that Mr. Dinsmoor finding Mr. Favre in the Nation without your Excellency's passport, wishes to consider him an Intruder, & will I fear be disposed to subject that unoffending Citizen to much inconvenience. I therefore hasten to request in behalf of Mr. Favre, your Excellency's interference, & to recommend him as an honest Man & a worthy Citizen.¹—

he spoke of Bourcier as a deserving Man, & the head of a large & distressed family;— In proof of Mr. Bourcier's integrity, he gave me in Confidence the following anecdote.— That he M. Bourcier, had in possession, my signature to a piece of paper for which one of *my enemys* had offered him six thousand Dollars & which he refused. — I enquired with great eagerness, to what instrument the signature was annexed, & why it was deemed so valuable.— Mr. Bringier replied, the *signature* was to the Commission.— But was so affixed that several lines might be written above it.—I asked Mr. Bringier the name of the person, who had offered for the signature six thousand Dollars; he could not tell, Mr. Bourcier had but informed him of the fact & exhibited the paper, & that he Mr. Bourcier had made the communication to put me on my guard for the future.— Mr. George W. Morgan Sheriff of the first Superior Court District, & Major of the 4th Regiment, informed me some Weeks since, that I did not observe a sufficiency of caution in signing Militia Commissions— that he had noticed several in which, there was vacant space sufficient, above the signature, to write a note or anything else, that would do me injury, & that he had heard several persons speak of the facility with which my enemies (provided they were base enough to do so) holding Militia Commissions, or could obtain them, might injure me.— I have committed these circumstances to writing & requested Mr. Dejan my private Secretary to enter them in my official Journal.

Sir,

Your letter of the Instant has been received & read with respectful attention.— I regret it is not in my power to make of Judge Hampton the request you intimate, since his resignation has already been noticed in a Message to the Legislature.— I will however take the liberty to place your letter in the hands of some of the Members, & it will I hope be an additional motive for them, to adopt some permanent Judicial System.— A measure which cannot be longer delayed without serious injury to the people.

Dear Sir,

I have received your letter of this date, advising me, that you “had been warned by Government to be prepared for the defence of this City against an attack from the enemy,” & requesting that the Battalion of free people of Color, may be placed under your orders.— I shall reply on tomorrow or next day, & hope to be enabled to meet your wishes in relation to the Battalion.— meantime however it is desirable, that you address me a Communication respecting the probability of an attack, which might be submitted in Confidence to the Legislature.— It

would I think, induce that body, to vest me with the necessary powers to call to your aid an Auxiliary Militia force.— Perhaps it will answer my purposes to lay before the Legislature the first paragraph of your letter, & with your permission I will do so.—The paragraph alluded to, is as follows, “I am warned by Government &c.”—

If however you should think proper, & the information before you admits, I could wish to speak with more precision as to the extent of the danger to be apprehended. Your letter would be sent to the Legislature in entire Confidence, & if they did act upon it, as a love of Country should dictate, we shall have done our duty.— It is with the sincerest regret, I inform you that my present Militia powers do not enable me to co-operate with promptitude & effect in the defence of the State.—

Secy of the Treasury

Dear Sir

I have received your letter advising me of the removal from office of Doctor Barnwell late surgeon to the Marine Hospital of this City, & that Mr. Williams (the Collector) had been instructed to consult with me as to a suitable person to fill the vacancy.— My impression is, that to separate the duties of Surgeon & physician, will favour the Interests of the Institution, & I hope Mr. Williams may feel himself at liberty to make such disposition.

On a former occasion, I took the liberty to mention to you, Mr. Peter L. B. Duplessis the Marshal of this District, as an Intelligent faithful officer, & a suitable charac-

ter to instruct the collection of such War Taxes in this State, as Congress may impose.— My opinion of Mr. Duplessis remains unchanged. Permit me also to name to you, Mr. Thomas B. Johnson the present Post-Master at New Orleans; as among the most prudent & promising young Men in this State; he also might safely be intrusted with the Collection of the public revenue, nor do I doubt but such a Confidence as you may repose in him, will be faithfully discharged. The Collector of the District of Lafourche Mr. Wrenn, having resigned I beg leave to recommend William Goforth of this State, as a suitable person to fill the vacancy; Mr. Goforth is a native of New York, and late of the State of Ohio; By profession a physician & an honest amiable Man.—

I learn with sincerest pleasure the re-election of Mr. Madison to the Presidency; It is the just reward of virtue, & he will serve to convince the world, that an American Statesman, whose course is honorable, & whose sole object is his Country's good has nothing to fear from intrigue & Calumny.— In this State or rather in *New Orleans*, the Clintonians were numerous & active;— they addressed themselves to the Interest of the Sugar & Cotton planters, & spoke of the return of peace & lucrative Sales, as the certain Consequences of Mr. Clinton's elevation;— These arguments made some impression, & the strongest hopes of success were indulged.— But the good sense of the Legislature prevailed, & the vote of the State of Louisiana has been such as reason, justice & gratitude would dictate.—

I do not know, who will succeed Mr. Magruder;— He will not be re-elected— General Posy is talked of— But the circumstances which lately operated to his injury, will again be brought forward.— It is contended, that his family is in Kentucky, & that he has no fixed residence in Louisiana.— Some Citizens, whose native language is french, will be chosen perhaps Mr. Fromentin.—

Present me respectfully & affectionately to Mrs. Galatin.—

Dear Sir,

Among the buildings in this City which in the year 1803. the Commisary of France delivered to the Commissioners of the United States, as public property, is one fronting on the Levee, commonly called the priests house. — It has been appropriated, under the Spanish Government for the residence of the *Vicar General of Louisiana*, in whose possession it was when the Country was delivered over to the Spanish authorities. But during the short administration of the Colonial Prefect, (Mr. Laus-sat) he was dispossessed. On assuming the Government of Louisiana in the name of the United States, the Vicar General entreated me, to reinstate him in possession of a building, which from long occupancy, he considered as the property of the Church ; The request was acceded to, as well from Considerations of justice as policy, & to this moment, it has remained in the use & occupancy of the person claiming to be the head of the Catholick Church in Louisiana.— During the Territorial Government, I informed the Executive of the United States, of the *claim* of the Vicar General and recommended it for Confirmation.— I now beg leave to request your attention to this subject & to recommend to your protection, the claim of the Church to the building in question ; It rests I believe

on the same ground, as the titles of most of the parishes in the interior of the State, to the Houses & Lots in possession of the several parish priests— long & uninterrupted occupaney.— Since the election of M. Fromentin to the Senate of the United States, nothing of importance has been done by the Legislature.— A Judicial system is under discussion in the House of Representatives;— It provides for the establishment of seven circuit Courts & curtails the power of parish Tribunals;— It will probably pass the House of Representatives;— But will, I think, be rejected in the Senate.— We have just received some confused accounts from the Army under Command of General Alexander Smyth;— From present appearances it would seem, we were again disgraced on the Canada frontier, & that the President had been greatly unfortunate in the selection of his Military Chiefs.—

I am, Dr. Sir,

With great respect Your ob. Servt.

Dear Sir,

I acknowledge receipt of several interesting letters from you, & for which you have my sincere thanks.— The view you take of public affairs is certainly correct & I accord in opinion that a determined & vigorous prosecution of the War is essential to the honor—the safety—nay the existence of the Nation.

Your communications to me have from time to time been shown to Members of the Assembly & other Citizens, who cannot but be sensible, of the deep Interest you take, in whatever relates to the welfare of Louisiana.— You

have heard of the election of Mr. Fromentin to the Senate;— He received the united vote of every Member of the Legislature (except two), whose native language was french, & obtained on the first Ballot a decided Majority. — The course of popular opinion, always uncertain, is particularly so in this new State, & until the politicks of Louisiana are more firmly established, no public agent ought or can calculate, with any certainty on public support.— The Legislature remains in session, a Bill organizing a Supreme Court to consist of three Judges, & dividing the State into seven Districts & providing for the appointment of a Judge for each District has passed the House of Representatives; It will meet much opposition in the Senate, but there is, (I believe) a Majority, (perhaps of one only) in its favour.—

My young friend Mr. Joseph Basque, a creole of Louisiana, & a young Man of good conduct, wishes to enter the service of the United States; Will you do me the favour to extend to him your patronage; He would prefer an appointment in the Corps of Marines or Artillery — But if this cannot be obtained, he would willing serve in the Infantry.— Mr. Basque is 18 years of age & has been well educated;— He is at this time studying the English language, & will with a little practise, speak it correctly.—

My dear Sir,

Attribute not my long silence to a want of friendship or respect, but rather to the mortification I have experienced at the unjust course, which the Legislature of Lou-

isiana pursued towards you, & the wish I had, that the information should first reach you, thro' another Channel.— Previous to Conferring on you, the temporary appointment, I had made my calculations;— With the support of the Florida representation, I was certain of your Confirmation, & without it, I entertained much doubt as to result.—If my memory serves me right I wrote you to that effect,— & I believe you left Baton Rouge under the impression that the Members from Florida, would to a Man give you their suffrage.— In that opinion I had also indulged myself;— But we were both disappointed;— Messrs. Carpenter & Hicky were your friends— the others supported on the first Ballot Skipwith, & on the second Ballot, (if I am correctly informed) voted to a Man for Brown.— Among the Members who were most decided in their opposition to you, were Genl. Thomas, Caldwell & Dent. the election for a successor to Mr. Magruder your name was again brought forward, I wished it withdrawn, because I foresaw we could not be successful.— The Members from Florida, on the last occasion, (with the exception of Thomas) supported you;— But the French who in opposition to Brown had supported you, were now for Fromentin, & they were joined by Thomas Caldwell & Dent, & I believe Mr. Olliver of Rapide— Had two of these Gentlemen voted for you, Mr. Fromentin would not have been elected on the first Ballot, & on the second, there was strong grounds of belief, you would have obtained a Majority:— But I learn General Thomas & Mr. Caldwell were fixed in their opposition;— they did justice to you as a Man & a Soldier— they acknowledged your integrity & faithful public services— But objected to your want of residence in the State, & to your political Tenets, which they thought were federal.— Of the ground of Dent's opposition, I am not informed, nor is it of any importance that you should know;— He is one of

those persons, whose friendship if you have it not, will do you no injury.—

Several letters from you, have reached me, & I sincerely thank you for information they contain.— A determined & vigorous support of the War is essential to the honor, the safety—nay the existence of this Nation!—The President has been truly unfortunate in the selection of some of his Military Chiefs.— From the view of Smyth's Conduct as presented in the papers, he has disgraced himself & humiliated the Nation. The recall of General Wilkinson from the Command at New Orleans, might prove injurious to the service in this quarter— But I think with you, his Military knowledge & experience might redeem the honor of our Arms, so seriously affected on the Canada frontier.—

A Judicial Bill providing for a Supreme & Circuit Courts has passed the House of Representatives of this State, & will probably be approved by the Senate.— as to the right of nominating to office, it is believed a small majority in the Senate, is in favour of the executive; But the minority on that question, are violent in their opposition to me, & make my administration arduous & unpleasant;— I hope however to go thro' without much injury.— Difficulties have always been in my way & I am not in the habit of shrinking.— It is reported here, that you are called to the Armies with rank of General, & will command in this quarter; I sincerely wish this may be true.— In any event, I indulge the hope of speedily seeing you in this State.

My dear Sir,

I received some time since your agreeable favour, advising me of your approach to this Capitol, with two thousand Tennessee Volunteers & enclosing your letters of advice to the Assistant Quarter Master, & Contractors Agent which were immediately delivered.— I need not express to you the satisfaction your Communication afforded me;— At this perilous Crisis so respectable a reinforcement composed of men whose patriotism and valour are so well established would have given security to this exposed Section of the Union, from all attacks from without, & commanded from the savages in our vicinity an adherence to the most pacific course;— Your safe arrival at Natchez with your Command was known to me, & I was awaiting with anxiety, the pleasure of welcoming you within this State, when I learn that by order of the government, your detachment is discharged from the service of their Country.— To what cause, this sudden & unexpected dissolution of a force so ardent in their Country's cause is attributable, I cannot tell! Is it the harbinger of peace? Is Florida acquired by Treaty, or is it

determined to abandon the Volunteer System, & to rely intirely on regulars? Do satisfy my enquiries, & relieve me from the surprize, which the sudden dissolution of your army has excited!¹—

In this quarter, the preparations for defensive war are not in the least abated! Forts on the Mississippi & on the Margins of the Lakes are in great forwardness;—Most of the Mechanicks of the City are engaged in making Gun Carriages— Timber is preparing for building Block Ships to operate on the lakes & at the Mouth of the Mississippi, & the Volunteer system, meets from the Commanding General the most flattering encouragement.— It is impossible to say whether or not, the enemy will attack New. Orleans; but I have always, considered it, as an event so probable, that the Government would have been highly reprehensible, not to have provided in time, the most ample means of defence shall I have the happiness of seeing you in New. Orleans, previous to your return to Tennessee.— The friendship which I formed for you in early life, is still ardent & sincere, & my best wishes, have & will always, attend you.— Can you not obtain a Command in the Northern Army? Our affairs in that quarter are indeed in a most humiliating State! The arm of every Citizen should be raised, until the lost honor of our Country is restored.— The surrender of Hull—the Proclamation Attack of Smyth, & the disaster, which has recently befallen our old friend Winchester, are causes of great affliction to every American Heart.— For myself, I have but little knowledge of the theory or practice of War; but could I obtain a Command in the Northern Army, most willingly could I resign the post to which the Citizens of this State have called me, & repair to Canada.— But I trust, that others better calculated than I am

On looking over papers in my office, I find a Communication to you, which was prepared under date of the 30th of June 1812, & by some mistake, was not forwarded. It is now enclosed, & contains my Account for the Contingent expences of the late Territorial Government, during the second quarter of the year 1812. Your letter of the 25th of May 1812, instructing me to close my Accounts on the 30th of April did not reach me until late in June, as will appear from my letter of the 27th of that Month.— I in consequence exhibited no charges (subsequent to the last of April) against the Government, but such as were necessarily incurred in bringing the business of the Department to a close;— of these the services of the Clerk (who had been in the office for several years) & of a Messenger were indispensable.— The several other Items in the Account are for expenditures previous to the last of April.—

SIR,

In an official letter from Thomas H. Williams Collector of the District of Orleans, under date of the 13th. Inst.; I am advised that an organized plan, for introducing Slaves & Merchandize into this State illegally, was formed on Lake Barataria, & with such combinations as to render Military & Naval aid essential to a due execution of the Laws.— I further learn from various sources that the Association is composed of near three hundred individuals;— that they have already armed two or three Cruisers, & Captured several Vessels, the Cargoes of which were landed on an Island of the lake Barataria, from whence an illicit Trade is carried on with this City.— The Collector alluding to these transactions, says “they are enormities, which in point of open impudence, defiance to the Civil Authorities & in their tendency to destroy the moral Character of the Country, & to ruin the Revenue of the United States, have not their parallel in America.”— Sincerely desirous to do whatever may depend upon me, to arrest such lawless Acts, & to bring the offenders to Justice, I issued on yesterday a Proclamation of which the enclosed is a Copy.— I do not expect, that the Proclamation will induce these lawless men to disperse & separate;— But I trust & believe, it may tend to excite the vigilance of the officers of this State & to prevent the Citizens from Countenancing such violations of the Laws. As regards the principal offenders, I am persuaded, that nothing short of the most vigorous measures, will put a stop to their evil practices & resort to force is in my opinion indispensable, & as you are vested with the Military & Naval Command on this Station, I hope you may find it convenient to the service to send without delay to Barataria, a detachment sufficiently strong, to disperse the

Banditti.— I am ready to Co-operate with you, in any manner that my powers as Governor of Louisiana will justify & with this object, I request the honor of an interview with you, in the Office of the Collector of the District at such time, as your Convenience will permit.—

Gentlemen,

Baton Rouge 19th may 1813

I regret (request) of you the goodness to lay in person before the president the enclosed Copy of a Resolution entered into by the general assembly of Louisiana and, which solicit a loan of arms from the General Government— It is proper to informe you, that this resolution was soon after its date transmitted by me to the late secretary at war Mr. Eustis, with a request that he would lay the same before the president;— the secretary in reply refered me by order of the president to general Wilkinson, who was instructed to deliver to me such number of arms for the use of the militia as his limited supply would permit.— On application to the General, he discovered every disposition to accomodate, but the state of the Arsenal did not permit him to loan the state more than six hundred musket, I am making every exertion to organize the militia & to place it on the best possible footing but the want of arms, and the impossibility of obtaining them, by private purchases, discourage officers & men, & check all military ardour.— If you can obtain from the President a loan to this state of three thousand four hundred stand of muskets, and four hundred sabres, It would be doing much towards the Surety of this Section of the union.— I should then be enabled to hold in readiness for service a strong detachment of the militia of Louisiana to act whenever the occasion demand, and there would no longer be a necessity to send to this quarter the militia of the western states, unless indeed our safety is serously threatened by the enemy and with a greater force than I had supposed (Consistent with views in Europe and the defence of Canada) Concentrate on the mississippi.— If the arms desired can be obtained from the Government it would be convenient that they be delivered within Louisiana to my order, without subjecting the state to the expence of

transportation;— but if on this point there exists the smallest difficulty I could wish the arms to be transmitted hence at the expence of the state.— I have understood that the arms desired could be spared, without inconvenience to the service from the Arsenal at Harpers Ferry;— If so Gentlemen, and the President assents to the loan, may I trespass further, on your goodness & request you to contract for their prompt transportation and delivery to my order at Baton Rouge in good Condition, and to draw upon me for the expences attending the same to any amount not exceeding five thousand dollars

On my return to this city, I have learned with sincere regret, that the third Regiment of the United States Infantry had been ordered from this state: If it is intended to be immediately replaced by another regiment of equal strength there can be no objection: But it is my duty to state to you, & to urge you, Gentlemen to represent to the Government, that the regular Force in this quarter, Cannot be deminished without endangering the safety of the state.— The militia are not & cannot for some time be made efficient the Want of Arms & muni-

tions of War, are sources of great embarrassment, and I renew to you my entreaties to effect if possible from the Government, the loan of three thousand four hundred muskets & four hundred sabres.— We have a report to Day, that the taking possession of *mobile*, has excited among the spaniards great dissatisfaction, & that an expedition is fitting out at Havana avowedly for the purpose of retaking *it*.— Two English sloops of war are near the Balize, & it is said another has been seen off the bay of Mobile.

The Mississippi is unusually high; It has overflowed its Banks in Several places & the prospect of many industrious Planters totally blasted.— the Parish of Concordia is nearly inundated & every farm in the Parish of Plaquemine more or less injured. A crevasse at the plantation of M^r Kener, will destroy his Crop & greatly injure the Crops of his Neighbourgs, particular of Mr Fortier & Trudeau.— A Crevasse near Mr S Martin's on the opposite shore has already done much injury in that quarter, but the waters are now at a stand & will I trust retire in a few days; I have not understood that the smallest injury has been as yet received to Mr. Brown's Plantation or in its vicinity.

Dear Sir

Colonel Hawkins informed me of the Arrival of Yourself & Lady at the Creek Agency, and I trust that long eer this, you have reached Washington.— The present is indeed a most interesting Crisis, and I feel much solicitude to learn the *Course*, which the new Congress are disposed to pursue.— It is certainly prudent to be represented in Europe at this eventual Epoch— nor could a more Judicious selection of ministers have been made, than those recently embarked for St. Petersburg. —I fear however that the Russian mediation Will not eventuate as Speedily as seems to be anticipated in an Accommodation with Great Britain; the pretension of England to the “Rule of the seas” seem to be supported with great unanimity in Parliament, and I fear those

pretensions will not be relinquished until the haughty Islanders are made severely to feel the pressure of the war. in a letter Directed to Mr. Brown & yourself I expressed my sincere regret at the withdrawing of the third Regiment unless it is intended to be replaced by another Corps of equal strength.— I seriously apprehended (if the war is Continued an attack on this state; —I do not believe that Peace will be maintained with Spain; the course of affairs in east Florida, the recent taking possession of Mobile, & the support which the Revolutions in Mexico receive from the American Citizens, have occasioned much excitement at Havana, & will not I presume be well received by the Cortes.

We have distressing (news) from the Upper Parishes;—Warren and Concordia are wholly inundated and the Crops totally lost—The levee above Point Coupeé is said today to be broken, I hope it may be incorrect, for in such event, not only the Crops of Point Coupeé would be lost, but the waters would do great injury in Attackappas.

I took the liberty some time since to recommend Charles Dutillet of this City, for a commission in the army;—Will you do me the favour (to give) this Young Gentleman your kind Patronage,—He is an amiable youth, about twenty years of age, a native of New Orleans, & the son of our mutual friend Colonel Francis Dutillet,—my young friend will accept an Ensigny in a regiment of Infantry, and would I am sure make a valuable officer.—Young Basque in whose behalf I, in a former occasion solicited your support has been appointed a Lieutenant of Artillery and will I am per-

In hastily Glancing the militia act of this State which you did me the Honor to send me, I find that by the 10th section you have power in Case of invasion insurrection, or When the danger shall be such that the Public safety may require it to call forth such detachments of the militia as you may judge necessary &c. &c.

The exposed situation of this state at all times to the inroads of an invading enemy, who will put to use every means in their power to excite the states (slaves) to take up (arms) against their masters in my opinion renders it essentially necessary that you should without delay adopt such measures for the public safety as will enable you at a short warning to turn out any portion of the militia that may be necessary on the happening of either of the aforesaid Contingencies & to enable you in the event of a Call from the president of the united States for your quota of militia to satisfy the requisition with that promptness, Zeal & patriotism which have marked your Political Career. This becomes the more necessary on account of the instructions I have received

to order the 3d Regiment of the regular troops to join the Northern Army and which has been done accordingly.

The whole regular force at my disposal, when this Regiment has left me will not exceed, 1,500 men, the volunteers in Service About equal in numbers. With this force, it is impossible that the District Can be defended.—aid, therefore from the state authority is indispensable to our safety.

New Orleans 17th June 1813

A press of business has prevented me until this moment from Acknowledging the receipt of your letter of the 14th Instant.

I am very sensible of the dangers to which this state is exposed from within & from without, and the expediency of taking in time *precautionary measures!* Among *these* the holding in readiness for active service, a strong Detachment of militia, is Certainly of primary importance,—and orders to that effect shal be issued.—It is however with Concern, I inform you, that the militia of Louisiana, is for the present in a state of Great Derangement.—You will have observed by the militia Law (recently passed) that Captains & Subalterns are to be elected to the several Companies, and such has been the delay in making those elections, and forwarding the returns, that only a few Regiments are yet organized.—Hence Sir, it is not in my power (to) array an auxiliary

force, as promptly as I would wish;— But you may be assured that to effect the object I shall use all my Authority & best exertions.

I regret that at this eventful crisis the third Regiment should have been ordered from this district.— The force which remains at your Disposition, is certainly inadequate to our protection, and therefore I shall be solicitous so to arrange the militia, as to give you *in time of need*, all the aid which the population and resources of Louisiana will admit.

I have the honor to be

Sir

Very respectfully

Your most humble Servt.

Commanding the Troops of the U. S.
on the mississippi District.

New Orleans June 21st 1813

Dear Sir,

The third Regiment is still here, and I entertain strong hopes that the orders for their ascending the Mississippi may be countermanded— from the information before me, I am persuaded, that occupancy of Mobile, has given great dissatisfaction to the Spanish Authorities, and that a Force is in readiness at Havana for some district service. Indeed it is confidently stated to me, that this force is designed by the Captain General of Cuba, to attempt the recapture of Mobile, and was on the point of sailing;— But that the Captain General was advised by a Council of War to await further operations untill the Regency of Spain was advised upon the subject and that a fast sailing Vesel had been dispatched to Cadiz whose return to Havana, was expected with great

anxiety.— General Flournoy has very properly augmented our forces on the Mobile Station;— The volunteers recently at Baton Rouge have been ordered to Mobile, and will give, with the troops already in that vicinity, an aggregate number of from 12. to 1500 men, under the command of Brigadier General Claiborn who will I trust be enabled to defend the Country. the movements in the Neighbouring Province of Texas, Deserve the attention of Government. The Revolutionists have got possession of the Capitol of their Province, St. Antonio and are likely for the present to maintain their possession.— Their Chiefs manifest no disposition to be Dependent upon the American Government, or to grant any peculiar privileges to the American people;— their objects seem to be, to encourage emigration (emigration) to fill their armies with adventurers from all Nations, & to set up for themselves;— They may become useful Neighbours,— but as we have no certainty of it, I wish sincerely, it comported with the Policy of the American Government to take possession of the country as far as the River Grande.— Under the Louisiana Convention, we claim the tract extending from the Sabine to the River Grande, or River Bravo, as it is some times Called. — During Mr. Jefferson's administration, our Claim was often avowed, and I have now on my Journals, sundry official letters addressed by me as governor of the Territory of Orleans (in Conformity to instructions) to the spanish Agents, remonstrating against their assuming any new military positions upon the Bay of St. *Bernard* or elsewhere within tract of Country Claimed by the United States:— the Bay S^r Bernard is west of the Sabine— The River Mississippi is beginning to fall, But another rise is apprehended as it is believed the Waters of the Missouri, have not yet come down.— The breaking of the big levee above Point Coupeé has done much injury in that Parish, and inundated a considerable por-

tion of the Counties of Attackapas and Opelousas.— I believe your Plantation remains secure, unless indeed, you may have received some little injury from the back Water of the Crevasse at Mr. Kenner's, which I learn today extends far as the former Plantation of Colonel Andris.

A Young friend of mine M^r Charles Dutillet, a son of Colonel Dutillet of this city, is anxious to enter the Army of the United States and would willingly accept of the Appointment of an Ensign. may I take the liberty to recommend him to your patronage; he is a promising Youth & will

To His Excellency, the Governor,
 & Captn Genl of the Island of Cuba

The Undersigned the Governor of the State of Louisiana, being informed that Antoine Laporte, a Citizen of the United States, and Commanding officer of a privateer, fitted out at New Orleans, and duly commissioned by the American Government to cruise against its enemies, having landed within the Island of Cuba, for the purpose of

obtaining some necessary supplies, was arrested, the papers of his Vessel detained and himself committed to prison, deems it his duty to ask of his Excellency the Governor and Captain General of the Island of Cuba an explanation of a transaction apparently so much opposed to that friendly understanding believed to exist between our two Nations.— The undersigned has further to request that if the said Antoine Laporte be still in confinement, he be released therefrom and such remuneration made him for his sufferings, as justice shall dictate.—

The undersigned tenders to his Excellency the Governor and Captain General of Cuba the assurances of his great respect and high consideration.—

A Message from the Governor to the Legislature.

Gentlemen of the Senate & of the House of Representatives.—

I lay before you in Confidence a Copy of a Letter which in conformity to a Resolution passed at the last session of the Legislature I addressed to the Secretary at War, soliciting of the executive of the United States, a loan of arms, together with the Secretary's answer referring me to General Wilkinson, who was instructed to furnish such as his supplies will admit.— On application to General Wilkinson, I have received from the public arsenals between *six & seven* hundred stand of Muskets, which have been distributed among the several Militia Corps of New:Orleans.— It is proper to add that the General manifests a great desire to accommodate the Militia of the State.— But his supplies of arms are at present too limited to admit of the loan desired. he can furnish me with no Sabres, nor can he at this time state

with certainty what further number of Muskets may be spared from the public stores.— Several Corps of Volunteers are raising in this State and in the Mississippi Territory destined for the service of the United States who will require the use of public arms;— But the General presumes, that without inconvenience he will in a short time be enabled to make me another loan of from five to six hundred Muskets & two or three pieces of field artillery.— New. A PROCLAMATION.

WHEREAS I have received information that upon or near the shores of Lake Barataria, within the limits and Jurisdiction of this State, a considerable Banditti composed of Individuals of different nations, have armed and equipped several Vessels for the avowed purpose of cruising on the high Seas, and committing depredations and piracies on the Vessels of Nations at peace with the United States, and carrying on an illicit trade in goods, Wares and Merchandize with the Inhabitants of this State, in opposition to the Laws of the United States, and to the great injury of the fair trade of the Public Revenue;— And whereas there is reasonable ground to fear that the parties thus waging lawless War, will cease to respect the persons and property of the good Citizens of this State;— I have thought proper to issue this my Proclamation hereby Commanding the persons engaged as aforesaid, in such unlawful acts to cease therefrom and forthwith to disperse and separate;— And I do

charge and require all officers civil and Military in this State, each within his respective District, to be vigilant and active in apprehending and securing every Individual engaged as aforesaid in the violation of the Laws;— And I do caution the people of this State, against holding any kind of intercourse, or being in any manner concerned with such high offenders;— And I do also earnestly exhort each and every good Citizen to afford, help, protection and support to the officers in suppressing a combination so destructive to the Interests of the United States and of this State in particular, and to rescue Louisiana from the foul reproach which would attach to its character should her shores afford an assylum or her Citizens countenance, to an association of Individuals, whose practices are so subversive of all Laws human and divine, & of whose ill begotten treasure, no Man can partake, without being forever dishonored, and exposing himself to the severest punishment.¹—

New. Orleans 14th April 1813—

General Armstrong)

Secretary at War.)

Dear Sir,

Within the limits of the State of Louisiana, many families of Chactaw Indians have taken up their residence and many vaggabonds of the same tribe frequently

¹ This refers to the Lafette brothers. For a good account of their operations, see Walker's "Jackson and New Orleans," pp. 31-61.

visit this City & the adjoining settlements.— These people all acknowledge the authority of the Chiefs residing in the nation, and were there some convenient mode of my communicating with the Chiefs, we probably should not be so often troubled with Indian visits, and that whilst here, their conduct would be more orderly.— Several Parishes within this State, for instance St. Tammany, St. Helena, and Baton Rouge are much exposed to Indian depredations;— In the course of the last year, their safety was seriously threatened, so much so, that several farms were abandoned, and the frontier settlers fled to the interior for surety.— I sent a special Messenger to the Chaetaw Nation with a Talk to the Chiefs;— My Messenger was arrested by the resident Agent Mr. Dinsmoor, and ordered out of the Nation. I exhibit no charge against Mr. Dinsmoor;— As far as I know he is a vigilant officer, and my Messenger not being furnish (ed) with the passport superintendent of Indian affairs, for the Southern Department, I presume Mr. Dinsmoor had supposed it his duty to arrest him;— but I do hope that taking into view, the peculiar situation of this State, the Government will appoint an additional agent for the Chaetaws, and that such agent be instructed to correspond with the Governor of Louisiana, and to communicate to the Chiefs such Talks and Messages as the Governor may forward to him.— I will recommend as this additional agent, Colonel Simon Favre who resides on Pearl River, not very far from the Chaetaw boundary. — Colonel Simon Favre was agent for the Chaetaws under the Spanish Government, and has more influence with these Indians than any man in existence. Mr. Dinsmoor resides some where on the route leading from Natchez to Nashville, and so remote from New Orleans, that a Correspondence between the Governor of this State & that Agent would be useless.— for further particulars as to the expediency of appointing an additional Agent,

and for the character of Mr. Favre I beg leave to refer you to Mr. Fromentin of the Senate, who will do me the favor to deliver this letter in person.—

To James Madison

President of the United States

New Orleans July 9th 1813.

Dear Sir,

I sincerely wish the mediation of Russia may eventuate in an early and honorable adjustment of differences between the United States and Great Britain;— But I much fear England has not yet sufficiently felt the pressure of the War to induce her to be just;— I trust however that the valor and interprise of our Naval Heroes, will soon be equalled by our land forces and that the fall of Canada will convince the enemy that he may loose much and gain little, by a continuance of the War.—

In this quarter we hitherto have only felt the effects of the War on Commerce and agriculture.— But I entertain great apprehensions that a strong *force* and a judicious disposition of *it* may soon be necessary for our security.— The Agents of Spain at Havanna & Pensacola express considerable dissatisfaction at the late occupancy of Mobile by the Troops of the United States, an *an* expedition is fitting out at Havanna avowedly (as it is stated) for the re-capture of that post. Indeed it is confidently reported the expedition was on the point of sailing but that the Captain General of Cuba was advised by a “Council of War,” to await further operations until the Supreme Government of Spain could be consulted. In the mean time the Governor of Pensacola has in a letter to the officer commanding at Mobile complained of

the taking possession of that post, as also of Baton Rouge as *Acts* of aggression and requires their immediate evacuation.— I further learn that the Spanish authorities have of late been unusually attentive to the Creek & Chactaw Indians & had made them considerable presents. How far this course of conduct may be dictated by the *enemy*, time will unfold;— But my impression has always been that *he* would not force Spain to break with the United States, until it became his policy to attack Louisiana and that *then*, all the power and the supposed influence of Spain in Louisiana would be inlisted against us.—The War on the Continent will afford ample employment for the French armies and it is probably that their Veteran Troops, will be withdrawn from the Peninsula; This will lead to a diminution of the British *force*, in that quarter, and a part of *it* may be ordered to Spanish America, as well with a view to menace Louisiana, as to preserve the Mexican Provinces.— An attack on Louisiana will necessarily divide the American forces, and may perhaps protract the conquest of Lower Canada.— The Spanish Mexican Provinces involved in all the horrors of Civil War will soon cease to be useful to Spain or her allies, unless a “force that can lood down all opposition” shall speedily arrive. But to enlarge is unnecessary.— your means of information will enable you to anticipate the enemy at every point, nor do I doubt but this Section of the Union, will, when the occasion demands, receive as ample support as your means will permit. In speaking of the Mexican Provinces it seems to me, that the movements of the revolutionists in Texas, are of great concern to our Country.— It is true the Capitol of the Province *St. Antoine*, has been taken, and that the revolutionists have hitherto met with little opposition.— But the savage and imprudent conduct of the Chiefs have already indisposed & disgusted the people.— Bernado the leader has all the qualities of a Tyrant,— *Weak, Cowardly* and

Cruel. After the Capture of St. Antonio, he rested from his labours, & gave time for the Royalists again to embody nor has he taken measures to organize a Government or to provide permanently for the support of his Army.—Anarchy prevails, and an arbitrary destruction of life Character & property is the order of the day.—It is rumoured that Bernado is deposed and a General Toledo (last from Philadelphia) called to the Supreme Command. But the Change is too late.—A regular *force* of three thousand men (the greater part from Vera Cruix) is certainly advancing towards St. Antonio, and will in all probability *drive the Revolutionists back on Louisiana.* In such event I fear some disorders on our frontiers will be committed, and I am not without apprehensions, that these disorders may be followed by Acts of hostility on the part of the Royalists.—

General Flournoy is providing for the defence of Mobile and has sent thitherto strong reinforcements.—He is exclusively devoted to his Military duties, and seems to me, to have made a most judicious disposition of his command.

I have given orders today for a Regiment of Militia drawn from the first Brigade (by draft) to be held in readiness for service, and so soon as the Militia of the more distant Counties can be organized in conformity to the provisions of a late Law, I shall add three other Regiments to this disposable force. I add with regret, that it has not been, and I fear will not be, for some time in my power to render the Militia of Louisiana efficient:—The heteregenious mass of which our population is composed;—The contrariety of language spoken the dispersed situation of our settlements & the want of arms present serious embarrassment.—I however shall not be wanting in exertion, & will in time of need, give to the General Government all possible aid in the defence of the State.—

It is believed that vast sums of money have been recently expended in providing for the safety of Louisiana; How far these sums have been judiciously expended, time will evince.— But from my knowledge of the Country, and the means of approaching it, I feel no hesitation in saying that a water defence is not only the most economical. but the safest that could be resorted to. The block ship destined (I learn) for the Lakes is in great forwardness and will with a few Gun Boats, be a formidable defence in that quarter. Two large Block Ships with a few look out Boats on the Mississippi, and one Block Ship and five or six Gun Boats on the Mobile would *give greater security*, than all the fortifications that could be erected.—

In speaking of fortifications, it is understood that several recently commenced, are left in an unfinished state, the proper officers being without means of completing them, nor can they procure them, since the protest of a number of the Bills of Colonel Shamburg the deputy Quarter Master General, has greatly affected the Credit of the War department.— Indeed Sir, the General Distrust of the Bills of the Quarter Master & Pay Master of the Army have already created much embarrassment, & will I fear, seriously injure the service.

Mr. Fulwar Skipwith has been here for some days, without being enabled to obtain a passage to his port of destination;— He has vested a Mr. William Taylor of this State with special powers, & this Gentleman departs hence for the Havanna in a few days, in hopes of obtaining a passage from thence to the port of St. Domingo. Mr. Skipwith did me the honor to apprise me of the nature of his mission, and to consult me as to the course proper to be pursued.— It seemed to me imprudent for him who I knew was obnoxious to, would excite the suspicion of the Spanish authorities to venture himself at Havanna. As regards Mr. Taylor I believe him to be a

discreet, honest, capable young man, & will execute the trust reposed with great fidelity.—

I do not recollect ever to have seen the Mississippi as high as the present year, and really, the *effects* have been most distressing.— The loss of Cattle, Hogs &c have been considerable, Crops that would have sold at half a *Million Dollars* have been destroyed, and the injury done to the houses, Fences, Levees & lands would not be repaired for that sum. But a stil greater misfortune is apprehended, a prevalence of disease (one of the effects of high waters) thro'out the State, and the death of many valuable Citizens.

I request you to present my best wishes to your amiable lady, & to permit me to subscribe myself.—

With sentiments of the great respect &c

Sir,

I avail myself of the present favorable opportunity again to solicit your kind services in favor of the unfortunate Hargrove, & has fellow Captives.— The Governor of East Florida, has recently published a decree of the Cortez, which accords a free pardon, to all persons, concerned, in the rebellion (as it is termed) in East & West Florida.— I have not by me a Copy of this publication, but the Decree to which it alludes, is understood to be, what it purports, an Act of the Cortez, and many of the party in East Florida styled patriots, have, I learn availed themselves of the same, I have thought Sir, that this decree of the Cortez, embraced the case of Har-

grove & his unfortunate Companions, and I am somewhat surprised, that they have not been restored to their Liberty.—

Enclosed is a letter from Mrs. Hargrove to her husband which I request you to have conveyed to him; The affectionate regards manifested by this unfortunate woman, for her unfortunate husband & her continued intercessions in his behalf, keep alive my warmest sympathies & will I am sure induce you to renew your efforts in the cause of suffering humanity.—

My letter to you relative Hargrove & his Companions is so expressed as to be shewn to the Captain General, if you think advisable.— In the event, these unfortunate Men should be liberated, I am persuaded that any expences you might incur in obtaining for them a passage to New Orleans, would be remunerated you by the General Government.— I am the more certain on this point, since, during the period of my acting as Governor of the late Territory of Orleans, I was instructed by the Secretary of State to continue my efforts to effect the release of Hargrove & his fellow Captives.— After manifesting so direct an Interest in the fate of these Men, it is not to be supposed, the Government would refuse to pay the expences attending their return to the United States, provided the same should not exceed the limits of a prudent economy.—

Sir,

The third United States Regiment commenced its ascent of the Mississippi a few days since;— I much fear, this Regiment will be considerably reduced, previous to his arrival at Cincinnati.— The recent overflowings of the *River* have left on its *margin*, an immense mass of vegetable matter which under the influence of a hot Summers Sun, will soon be in a State of putrifaction, and must render the Atmosphere greatly insalubrious.— The departure of the third Regiment has diminished one half the Regular force in this quarter, & leaves us much exposed.— I have issued orders for holding in a State of requisition a strong detachment of Militia, to take the field in case of Insurrection, Invasion or eminent danger of Invasion;— But the arraying of this force will necessarily be attended with delay, and to General want of discipline, will be added a Scarcity of arms unless the loan of Muskets desired, can be obtained from the General Government and speedily forwarded.—

The non payment of the Bills drawn by Colonel Shaumburg on the Secretary at War, has seriously affected the Credit of the War Department, in this State, & will I fear much injure the service. Colonel Shaumburg's Bills in many cases fell into the hands of private *individuals whom* their rejection *subjects* to serious embarrassments, I learn also, that the claims of my Citizens for labour done, or material furnished, at the different fortifications remain for the want of funds, unliquidated.— It is not for me to enquire, how far the monies expended in this State under the authority of the War Department, have been judiciously appropriated.— But I

sincerely regret, that so many persons, relying on the Credit & good faith of Government and its officers, should have sustained injury.

The Mississippi is retiring within its Banks; every Parish on the River has sustained injury *more or less*, & many inhabitants, particularly those of Warren, Concordia, & Plaquemine are ruined. The Citizens also on the Lafourche in Attakappas, the lower part of Opelousas and in Ouachittas has sustained much loss. I fear the people will feel great inconvenience in meeting the public taxes; But the Legislature will be in session in time, to extend to them every indulgence, which the general interest will advise.—

Sir,

I have the honor to acknowledge the receipt of your Excellenys letter of May 19th inclosing a Resolution of the General Assembly of Louisiana and requesting a loan of Arms for that State, in addition to those before received from the Commanding General at New Orleans.

The State of the public arsenals will not justify so great a supply of arms to any one State at this time, as you have requested. Two thousand stands will be deposited with the deputy Quarter Master General at Pittsburg subject to your Excellency's order conformably to the provision of the Act of April 23d 1808, for arming the whole body of the Militia, for which duplicate receipt will be required.

It is not deemed expedient to loan arms to States or individuals, and your Excellency will please to transmit a receipt for those which have been landed by General Wilkinson.— This measure will supercede the accountability of your Excellency to this Department and the Arms will be charged to the State as part of her portion under the Act aforesaid.—

I beg you to accept assurances of the great respect & Consideration with which I have the honor to be your Excellency's most obt. Servt.

Sir,

I am honored with the receipt of your letter of the 22. Cavalry, & in those Counties too, where they would have been most useful.

For the Arms delivered to me by the Commanding General, for the use of the State, I will, by the ensuing Mail, transmit you duplicate receipts, and for the arms to be delivered at Pittsburg to my order, I will authorize *both or either of the Senators* from Louisiana to the Congress of the United States, to *receipt*.—

Sir,

I have received your letter of the 22nd Ultio. and am thankful for the attention paid by yourself & Colleague to the Resolution of the Legislature requesting a loan of arms.— By a communication from the Secretary at War of the same date with yours, I am advised that two thousand stand of Arms will be deposited with the Deputy Quarter Master General at Pittsburg, subject to my order. These Arms will be a great acquisition to the State, & I regret that their transportation hither from the approaching low State of the Waters will necessarily be attended with so much delay.— I wish sincerely you could prevail upon the Secretary at War, to supply the State, with 150 Sabres;— Cavalry are the Troops best fitted for the Climate of Louisiana; and in many parts of the State, could act with the greatest advantage.— The want of swords and the impossibility of obtaining them by private purchase, has prevented the organization of sev-

eral troops of Cavalry, in Counties where they are most wanting.

We have nothing new or interesting in this quarter, late accounts from St. Antoine, left the Revolutionists with fair prospects;— The Royalists having a second time been defeated, & Bernado acquiring daily an increase of numbers.—

I do not learn that the City is at this time unhealthy but serious apprehensions are entertained that fevers, will soon be prevalent.—

Dear Sir,

The mail of yesterday brought me your letter of the 29th Ultimo. I am pleased with the arrangement you have made for the transportation of the Arms, & any expences attending the same shall be immediately paid to your order.— I wish sincerely, you could obtain from the Secretary at War 150 Sabres, more would be desirable, but I presume a greater number could not be conveniently furnished us.— Louisiana I fear is in greater danger than the Secretary at War apprehends.— If the object of the enemy be *to prevent, or delay the conquest of Canada*, he will not fail to make a diversion *in this quarter*; for should he obtain a foothold here, it would require the whole of the *North Western Army and other of our forces which now menace Canada* to dislodge him.— It is probable during the sickly season, we may remain undisturbed; But I apprehend serious difficulties in the fall, & shall be prepared with all my means (feeble at

best) to Co-operate with the Troops of the United States.— I have used & shall continue to use my best exertions to render the Militia efficient; But my prospects are far from being flattering.— The menaces of the Spanish Agents at Pensacola, & the apparent unfriendly disposition of the Creek Indians, have induced General Flournoy to concentrate most of the Regular force in this District, on the other side of the lakes.— The Creek will not for the present (I believe) commence hostilities, unless urged by the English;— But should Louisiana be invaded, the Creeks & Chactaws will unquestionably be enlisted against us.— As regards the Spaniards their course will dictated by England.— I am, Sir &c@ &c@ &c@

Dear Sir,

You have no doubt, heard *my orders*, directing a Detachment of Militia, from German Coast, to be holden in readiness for service, much investigated, and perhaps censured.— I trust however that my fellow Citizens will very generally approve the measure.— Pending the War in which our Country is involved the safety of Louisiana may always be considered as in danger.— We know that the enemy has the power & the disposition to do the United States great injury; We cannot tell the moment, when he may turn his attention to this State, and I cannot too early take my measures of precaution. If Louisiana, should, as I hope in God she, may remain undisturbed, my fellow Citizens will not be called from their homes;— But in case of insurrection, invasion, or eminent danger of invasion I shall order into the field a Militia force, & the Citizens drafted, or to be drafted under my late orders, will be the first to march.— On a former occasion in a case of insurrection there was not as speedy a movement on the part of the Militia, as was desired, and New Orleans presented a Scene of confusion which to me was very painful.— My late orders are designed to prevent this confusion and to insure in the hour of peril a speedy movement.— As regards German Coast, I know its exposed situation, and so far from weakening it, if the occasion demands, an auxiliary force, shall be sent to your aid.— The prejudice of the people against a draft, seems to me to be very unfounded; It is nothing more, than determining by lot on whom the first tour of duty shall fall.—

We have no late intelligence from Washington.— The President of the United States had been ill of a fever but was on the recovery.— There are no rumours of peace & at present no prospect of so desirable event.— The Creek Indians manifest a very unfriendly disposition towards

the United States, & had in considerable numbers repaired to Pensacola, and demanded of the Spanish Governor arms & ammunition which was refused them.— It may be that Louisiana may remain tranquil; But I much fear in the course of next Winter, we shall have our difficulties.— I design leaving New Orleans in a few days on a visit to the interior Parishes, in order to acquit myself of a constitutional duty; To hasten the organization of the Militia, & to cause to be holden in readiness for service a disposable force from each Brigade.—

The United States troops, now in Louisiana are inadequate to our defence in case of attack, & it becomes my sacred duty, to make such arrangements, as will enable me, in time of danger, to call speedily to the field a respectable Militia detachment.—

Secretary of State

Dear Sir,

Our last accounts from Washington left the President dangerously indisposed, and the mail which is due on tomorrow is consequently expected with increased solicitude.— The death of an individual so eminently distinguished for his public & private worth, would at any time be cause of universal regret; But at a Crisis so interesting as the present, it would be a heavy national Calamity.— I hope I attach more consequence to the uniform opposition of Massachusetts to the general Government than it deserves, but it really seems to me, if the men who now direct the affairs of that State, are not checked in their career, the ties which bind together the States

will soon be loosened.— The Resolution proposed by Quincy respecting the Navy is monstrous;— But it plainly shews, what are the ultimate views of his party.— The doctrine next avowed, will be, that as the War in the opinion of Massachusetts is unjust she ought not and will not contribute to its support, & therefore must resist taxation;— “peacably if she can, forcibly if she must.”

That such a project exists I have little doubt & that it will be soon avowed, unless the American Congress, & the State authorities, by some strong expressions of disapprobation should convince these turbulent men that the Nation has the power and the disposition to preserve inviolate the American Union, & to enforce obedience to the Acts of Government.— We have been much cheered in this quarter, by the recent victories in Canada, and I trust our views of Conquest in that quarter, will be pursued with increase energies.— I have myself thought that the enemy with a design to embarrass our operations to the North, would make a diversion in this quarter.— An attack on Louisiana would necessarily weaken our Northern armies.— If the attack was made at this time, our means of defence are so limited, that I should entertain *great* fears for the safety of this Capitol and were the enemy to obtain possession, it would require the whole of the North Western Army, and perhaps the forces which now menace Canada, to dislodge him. The Creek Indians have commenced hostilities— 700 of their warriors are said to have crossed the Perdido, and the inhabitants are seeking an asylum in the fort of Mobile.— General Flournoy with a detachment of Regulars and General Clairborne with a Regiment of Volunteers, are on the waters of the Mobile, & will I trust speedily meet & disperse the invaders. I fear however, these poor, deluded people, are set on by the English, and who will also command the Co-operation of the Spaniards.— I recently issued orders for holding a detachment of Militia

in readiness for service & directed the same to be obtained by draft if it became necessary.— In this City the order has been executed, & shall be enforced in the interior parishes.— In the City some men have been clamorous against the measure declaring it to be unnecessary and contrary to the laws.— But in the Country I anticipate less opposition.— I observe that a Bill is on its passage in Congress establishing a District Court at Mobile.— May I take the liberty to ask you, to make favorable mention to the President of Major Richard Claiborne of this State, as a Candidate for the office of Marshall for the Mobile District.— Major Claiborne was a meritourious officer during the Revolutionary War and has subsequently rendered public service in several civil employments.— He is now poor, dependant and in the vale of life;— But in the enjoyment of great activity of mind & body & fully competent to the discharge of the duties of Marchall.— I feel no delicacy in pressing the claims of Major Claiborne;— The connection between us, by *consanguinity*, if there be any, is so remote that neither can trace it & I speak of him with no *bias*, but that which a knowledge of his integrity his former faithful services, & his present dependant situation *has* excited. Before I conclude this letter, may I also recommend to your patronage Mr. Thomas B. Johnson the present Post Master at New. Orleans.— During six years of his residence in this City I have witnessed with pleasure his exemplary deportment; His modest unassuming manners & the purity of his morals, united to a faithful, zealous & honest discharge of public duties, have secured him my esteem and best wishes.— I regret that the climate of Louisiana, should prove so unfavorable to M. Johnson's constitution;— of late his health is so often interrupted, as to induce him to wish a more Northern residence.— He informs me he has a great desire to obtain a Consulate for some European port.— His education & habits

admirably fit him for such a trust. To a general acquaintance with Belle letters, he has added a knowledge of the French & Spanish languages, & to correct moral conduct, he unites the most unremitted attention to business.—

Sir,

Having understood, that it was the intention of Government to raise a Regiment in Louisiana, & to station the same permanently at New. Orleans, may I take the liberty to recommend Alexander Laneuville for a Majority in said Regiment.— This Gentleman (a native of France) was an inhabitant of Louisiana in the year 1803. and was in 1805 appointed a Lieutenant in the first United States Regiment of Artillerists, & continued in service, until January 1812, when he resigned for the purpose of accepting the office of Adjutant General of the State which he now holds; and discharges in a manner honorable to himself and highly satisfactory to me.— Laneuville is a Soldier by profession; possessing an enlightened mind, and evidencing on all occasions, the greatest integrity, firmness & independence of character.— May I also recommend to your patronage Major Charles Tessier of Baton Rouge;— This Gentleman is a native of Louisiana, and a member of an extensive & influential family his education has been respectable, & he has acquired by traveling a considerable knowledge of the man and of things.— To a very commanding graceful person he

unites the most polished manners, and altho' his partiality for the ladies may have betrayed him into some imprudencies, his deportment has been so conciliatory, & his integrity, bravery and honor so well established that his acquaintance hold him in very high estimation.— Tessier during the Territorial Government was one of my aids, and is now a Major in the Militia of the State.— I think him worthy a like Commission in the Regular service;— But if this cannot be obtained I recommend him for a Captaincy.— I present no candidates for the offices of Colonel & Lieutenant Colonel of the Louisiana Regiment.—No doubt suitable characters will be recommended by the Senators & Representatives from this State, & these Gentlemen will I am persuaded agree with me in opinion that in appointing field officers for a Regiment to be raised and stationed in Louisiana, it would be inexpedient wholly to overlook the French and Creole inhabitants, who compose so great a portion of the population of the State.

Batture in front of the Suburg St. Mary.

The City Council of New. Orleans, having solicited the Governor to assist at their deliberations on the subject of the Batture, he attended at the City Hall on the 9th of August 1813. and addressed the Council as follows.—

Mr. Recorder and Gentlemen of the Council,—

Had my health permitted, I should have availed myself of the honor of your invitation, and been present at the sessions of the Council on Saturday last.— The question as to the right of property to the Batture in front of the Suburg St. Mary, is of very general concern.— That the public right should be maintained against the claims of individuals, is not only interesting to the City but to the State, and the whole Western Country. To this end therefore, *any measure which the laws authorize* will meet my best wishes, and Zealous Co-operation.— A decision of the honorable the District Court of Louisiana, in the suit brought by Mr. Livingston against Mr. Dorgenoy late Marshall of the District, declares the removal of Mr. Livingston from the Batture, by order of Mr. Jefferson late President of the United States, illegal, and directs the plaintiff to be restored to his possession.— I am sorry the defendant has declined appealing from this decision to the Supreme Court of the United States; The high standing of the officer whose authority is denied, the importance of the Stake, and of the principles involved, make it desirable (for the satisfaction of all parties) that the case should have been carried before the highest Judicial Tribunal of this Nation.— I believe however, there is no way of obtaining an appeal but thro' the agency of Mr. Dorgeney, and that the arreté of this Council, which proposes an appeal in the name of the City Council & the Governor of the State will be imperative.— Neither the one nor the other are parties to the Suit, and it is understood to be an established Rule, that a party can alone take an appeal.— The operation of this Rule, in the present case, is unfortunate, Since M. Dorgenoy has in fact been only *an Agent* & his personal *Interest much less, than that of the Public* involved in the issue.— The title of Mr. Livingston is not embraced by the decision of

the Honorable the District Court. These (This) title however, has long been the subject of private and public discussion.— My *opinions*, formed at an early period of this discussion, were (as my duty enjoined) fully and freely expressed in my official Correspondence with the General Government, whilst I acted as Governor of the late Territory of Orleans.— From what I have seen, the Batture can only be considered a Shoal of the Mississippi;— a part of the port of New. Orleans, covered with water from four to five & six months in every year.— And the spot where boats and barges coming from the upper Country, can lie and land with greatest convenience and Safety.— From what I have heard, no doubt exists in my mind, but the Batture at low Water, has from the foundation of the City (with the extent it had from time to time) been used as a public landing & common, where Boats were landed and unload, and where the Inhabitants of New: Orleans obtaining earth for building and for raising the Streets and court yards, and that the French and Spanish Governors of Louisiana had invariably prevented the exercise of individual owner Ship over the same, and removed all intruders.— should the Batture be reclaimed, from my own observations on the Mississippi, and the information of much older Settlers than myself, I verily believe, it would change the current of the river in front of the City to the great injury of the port of New: Orleans and the lower Suburbs and plantations.— Such have been, and such are still my impressions.— perhaps they are erroneous.— contrary sentiments are entertained by others, and it is contended that the Batture is alluvion land, susceptible of private ownership & the property of M. Livingston.— The laws must ultimately decide, & to maintain the public right, we must alone resort to the means, which *these* permit.—

Considering the Batture as a part of the Bed of the Mississippi, it is an object of enquiry, what measures

ought or can be taken by the State authorities, to prevent obstructions on that *Great highway*, the free use of which as well to the inhabitants of this State, as of all the other States, is made one of the Conditions upon which Louisiana was admitted into the American Union.— The subject has been submitted to the Consideration of the Attorney General, the Constitutional adviser of the Executive, and the result of his enquiries, shall be communicated to you.— As far as the laws and the principles of the Government authorize my immediate agency or give me a Controul over the public functionaries, whose province it may be to interfere, you may be assured of a prompt and faithful discharge of duty.— But if upon examination the powers of the State authorities, should on the present occasion, be found incompetent, we must speedily & respectfully solicit the further interference & support of the General Government. *More we cannot do.*— To proceed further than the laws justify, would furnish an example of evil tendency, & injure the best of causes.—

Sir,

I have received your letter enclosing me a Decree of the City Council of this date, by which the Governor of the State is requested to concur with the Council of the City and to pray on his part also an appeal in his quality as first Majistrate of Louisiana to the Supreme Court of the United States from a late decision of the Judge of the District of Louisiana in the case of Edward Living-

ston against LeBreton Dorgenoy cidivant Marshall of the District of Orleans.— As this decision relates to a question of much interest, to the State, & involves principles of high importance, it seems to me desirable, that the case should be brought before the supreme Judiciary of the nation.— As neither the City Council nor the Governor were parties to the cause, I much doubt, whether an appeal on their application will be deemed admissible; I nevertheless have instructed the Attorney General of the State to unite with the Attorney for the City in support of the application, and should it succeed, there will not be the smallest objection on my part, in my official character, to be a party in this appeal.—

Washington City

Sir,

A decision of the Honorable the District Court of Louisiana in the suit of Livingston Vs Dorgenoy, declares the interference of Mr. Jefferson in the case of the Bature illegal & directs the claimant to be reinstated in the possession.— If my memory serves me right, your opinion was always favorable to the Public claim to the Bature, & therefore I shall take the more pleasure in corresponding with you on a subject, so interesting to the City of New: Orleans, and to the State you have the honor to represent. The decision of the Court (altho' the title is not embraced) has occasioned much agitation in this City. The public sentiment is evidently wounded, & the

public feeling greatly excited.— The enclosure marked *A* is a Copy of an Arreté of the City Council on the subject; The marked *B* of an address from myself to the City Council, & the paper marked *C* of a second arretté, advising an appeal in the name of the Governor & City Council, which I consider will be wholly inoperative, unless to show our perseverance in support of the public claim. I shall keep you advised of the progress of this affair;— In the mean time, as far as may depend upon my precepts & example, the public claim shall only be maintained by such means as the Laws justify, & in the further interference and support of the General Government should be found necessary I shall deem it my duty in behalf of the *State*, to address myself to you, as her Congressional Representative.—

The Creek Indians have commenced hostilities.— It is hoped immediate & active operations will be directed against them as the only means of rescuing our frontiers from great distresses.— We feel here very sensibly for the wrongs, *the more than Savage brutality of the enemy towards the people of Hampton*.— These transactions should warm every heart & strengthen every arm in his Country's cause.—

To Thomas Jefferson

New. Orleans Augst. 14th. 1813

Dear Sir,

In the suit brought by Edward Livingston against LeBreton D'Orgeois late Marshall of the District of Orleans, the Honorable Mr. Hall, Judge of the District of Louisiana, has decided, the dispossessing of Mr. Liv-

ingston of the Batture, by order of the late President to be illegal, & he directs the Plaintiff to be reinstated in his possession.— The public sentiment on this occasion is evidently wounded, & the public feeling greatly excited.— The enclosures *A.* & *B.* are Copies of the two arrêtés of the City Council, and the paper marked *C.* of a short address which I made to the Council.— Considering the Batture as a part of the Bed of the Mississippi and included within the port of New Orleans, I shall have recourse to our States Courts, to enjoin Mr. Livingston against exercising any acts of ownership over the same, or in any manner obstructing the Navigation of the Mississippi, which is declared to be a great highway, and the free use of which, as well to the inhabitants of this State, as of the other States, is one of the conditions on which Louisiana was admitted into the Union.— How far I shall be enabled to succeed is impossible to say.— Mr. Livingston has found means either to neutralize or to make active partizans of most of the lawyers in the State. The people however, are fortunate in receiving the support of the Attorney General Mr. F. X. Martin & of Messrs. Moreau Lislet & Fielding Turner, three distinguished lawyers, and I entertain strong hopes that we may yet be enabled, to maintain the rights of the public.—

The Creek Nation of Indians have commenced hostilities & the Frontiers of the Mississippi Territory are much exposed; We shall soon however have in that quarter, a respectable force, & I trust our Troops will be ordered to march immediately into the Nation, as the surest means of punishing & putting down these faithless people. In a letter I received from my Brother General Claiborne of the Mississippi Territory dated Fort Stoddert 3d. of August 1813. he says— “I arrived at this post “on the 30th Ultimo and found the Country in great confusion and alarm.— The Creeks are making every preparation to attack us and on my part, I have, & shall

“make every arrangement for the protection of our frontier.— General Flournoy promised in case of a rupture, “to reinforce me, with the 7th Regiment, should he do “this, & will authorize me, I shall march into the nation, “& shall enter it with sanguine hopes of success.— The “Indians are unquestionably supplied with arms & ammunition by the Governor of Pensacola.— A party on “their return from that place with ammunition &c. were “attacked by a party of Militia under Colonel Collier, & “must have been defeated, but for the conduct of some “of the Militia officers. Colonel Collier behaved bravely, “he is missing & is supposed to have been killed on the “retreat.”

Louisiana has hitherto been fortunately exempt from the immediate horrors of the War;— But I am not without apprehensions, that in the course of the ensuing Winter, we shall be called upon to repel an invasion, & to meet an event of the kind, I shall make all the preparations, which my powers and the resources of the State (feeble at best will admit.—

Dear Sir,

You will have heard of the decision of Judge Hall in the suit brought by Livingston Vs. LeBreton D’Orgenoy. Messrs. Martin, Moreau Lislet and Turner, are employed to prevent all intrusion upon the Batture, & to this end, application has been made to Judge Pitot, to enjoin Mr. Livingston against evercising any act of ownership over the same or erecting thereon any kind of works, upon the ground, that it is a part of the Bed of the Mississippi, included within the Port of New Orleans, and no individual ought or can be permitted to obstruct the navigation.

Sir,

The last Mail brought us, the state of the vote in the Senate, on the nomination of Mr. Gallatin to the Russian Embassy.— Your vote on the occasion, has given very great satisfaction to the friends of the administration in this City & will I am certain, be highly approved thro' out the State.— When the Embassy to Russia was announced my impression was, that the measure had been adopted not so much from the proffered mediation, as with a view, of insuring the United States an able representation in Europe at a period, when the great Belligerents wearied with the toil, and the distresses of War, might be disposed to sheath the sword.— The proposed Congress, for an adjustment of a general peace, is one of the events which the administration seem to have contemplated, when the envoys to Russia were selected, and surely a more judicious selection could not have been made.— Mr. Gallatin was certainly the most efficient member of the Mission; I take pleasure in acknowledging the merits of Messrs. Adams & Bayard;— But I do not hesitate to say, that no man in America is better acquainted with the interests of the United States commercial & political than *Mr. Gallatin*, nor do I know an individual as well enabled as *he* is, to support that interest in a Congress composed of Delegates from the several warring nations, *where* the debates and the proceedings will (probably) be wholly conducted in the French language.— The objection to Mr. Gallatin, that he was *Secretary of the Treasury* might have been waved— His *presence* in the United States, can better be dispensed with (since the duties may be discharged by another) than *that* of a Chief Justice & yet we find, that Genl. Washington and afterwards Mr. Adams nominated a

Chief Justice of the United States an Envoy extraordinary and in each case, the Senate sanctioned the nomination.—

I do not learn: that the Creeks have done much mischief.— We have on the Mobile frontier, a respectable force, which seems to be so judiciously disposed of, as effectually to cover our settlements.— The conduct of the Spanish Governor at Pensacola in supplying the Creeks with munitions of War, is highly reprehensible;— I doubt, whether this is not such an act of hostility, as to justify the American Government in directing Pensacola, to be immediately taken possession of;— I must confess, an order to that effect, would afford me the sincerest pleasure, for I have always considered the possession of Pensacola (and more specially during the present War) essential to the safety of Louisiana.—

I thank you for your several communications by Lieutenant Colo. Ross.— Your command is an important one, and I trust, you will be enabled to make such disposition of your force as effectually to cover our settlements.—

The Spanish Governor at Pensacola, in supplying the Creeks with munitions of War, has subjected himself to a serious responsibility;— The Creeks avowed an intention to commence hostilities against the United States, and the Governor by furnishing them with the means,

has been himself a party.— We shall soon learn the view our Government will take of this transaction;— for myself, I shall be disappointed, if it does not lead to the occupancy of Pensacola, by American Troops, unless the act of the Governor be speedily disavowed by his superiors, & a just atonement offered for the outrage.— I must entreat you to keep me advised of events in your quarter, & more particularly as to the disposition of the Chaetaws, to whose depredations (should they become hostile) several parishes of this State, would be much exposed.—

Sir,

On consideration of the information filed by the Attorney General against Mr. Livingston in the case of the Batture, the Judge of the Parish, Mr. Pitot, thought proper to dissolve the injunction, which he had previously awarded;— It seems the Judge was under an impression; that until Mr. Livingston, had done some act to deprive the Citizens of the use of the Batture, or erected some works thereon, which might obstruct the Navigation of the Mississippi, the interference of the Court was premature and improper.— Thus the case rests for the present, nor has Mr. Livingston yet thought proper to prosecute the Mayor of New Orleans, or the inhabitants who are in the habit of taking as formerly *Dirt* from the Batture;— I am extremely desirous to have the right to title to the Batture finally settled; But feel some difficulty in determining the best manner of bringing the question fairly before our Courts.— The subject however is submitted to the consideration of the Attorney General (Mr. Martin) and the course he advises will

be pursued;— It is believed, that the Indian War on the Mobile Frontier, will soon terminate; The Regular force ordered to that quarter, aided by the Militia of the Mississippi Territory if permitted to act offensively will in one Campaign, destroy or drive beyond the Mississippi, the whole of the War party.— The friends of the administration in this City sincerely regret the objection of Mr. Gallatin by the Senate and much admire your vote on the Question of the Embargo.—

To Thomas Flourney

Brigadier General

of the 7th M: District

Parish of St. Tammany Sept: 17th 1813

Dear Sir,

I have received your letter of the 12th Instant, with its enclosures. General Claiborne gives me an interesting detail of the misfortunes attending the garrison of Fort Mims. The loss is seriously to be regretted; But the gallant defence which was made, & the consequent suffering of the enemy afford great consolation.— I experienced much solicitude for the personal safety of my Brother, but stil more for his Military fame. The misfortune however is not attributable to any neglect or inattention on his part, and I trust an opportunity may be offered him to avenge the death of so many brave men.

The fifteen hundred Muskets reported to be furnished Louisiana were at the date of my last accounts in the Arsenal at Pittsburg.— I have urged their transportation to Baton Rouge, with all possible dispatch but from the low state of the Ohio I fear these arms will not reach me in less than two or three Months.—

I obtained for Captain McQuean a translation of the letter from the Governor of Pensacola, & which I pursued with great interest.— There can be no doubt of the hostile disposition of the Spanish authorities towards the United States, and that they await only a fit occasion to act offensively. I am aware of the magnitude of the trust committed to you, & sincerely regret your limited means.— We must hope for better support, for surely the Government, cannot & will not be so perilous a crisis leave unprotected so interesting and exposed Section of the Union.— You have done right in ordering the 3d Regiment to Fort Stoddert, & it must & will be approved.—

I came in this parish, with a view of taking some measures for the safety of the Inhabitants which will be greatly endangered, in the event of the Chaataws joining the Creeks, which is not improbable.— On tomorrow I proceed to Baton Rouge by the way of St. Helena.— I wish much to visit the western parishes of this State; But I doubt, whether, my return to New. Orleans, may not become necessary.— If the English should hazard an attack against that Capitol, I should be happy to contribute in person against its defence. I am not without apprehensions that the hostilities of the Creeks are designed by the English to withdraw our forces from the Mississippi, and leave New Orleans which they contemplate attacking unprotected.

I beg you to keep advised of all occurrences which interest our safety.— I need not assure you of my Zealous Co-operation.— Were my means equal to my wishes, you would find a prompt & firm supporter, but with an unarmed, & undisciplined Militia, I can only offer you partial aid.— You must have heard of the opposition in New. Orleans, to my orders for holding in readiness for service a detachment of Militia; I know that this opposition *originated* with a few individuals, of whose disaffection to our Country I have long been convinced, and it only remains for me to regret, that such Men should have influenced the opinions of many well disposed Citizens.— Any letters you may direct to me under cover to L. B. Macarty Esqr. Secretary of the State of Louisiana, will be duly forward.— Accept my best wishes.—

Dear Sir,

You will have heard of the Capture and destruction of the Garrison of Fort Mims by the Creek Indians, and the distresses of our fellow Citizens on the Mobile.— I have visited this exposed part of Louisiana, with a view, of taking measures, for the safety of the inhabitants, which will be greatly endangered, should the Chactaws join the Creeks;— an event *by no means* improbable.— I pray you Sir, by letter to your friend at Pittsburg, to urge him, if the arms for this State should still be there, to provide for their transportation to Baton Rouge, with all possible dispatch.— I repeat that the expense attending such transportation will be promptly paid on the Bills of Mr. Brown & yourself jointly, or individually.— The fifteen hundred Muskets promised will be great acquisition, & to which I should be much gratified, if two, three or four hundred Sabres, and as many pair of pistols could be added.— The Creoles of this Country are very partial to Cavalry service, and in some parts of our State, particularly the Western District they are the kind of Troops, that could act with greatest advantage. The great body of the Militia of Louisiana, are, I persuade myself disposed to unite hand & heart in the defence of our Country, but they are greatly deficient in Arms.

Sir,

I have received your interesting letter of the 19 Instant with its enclosures.— The movements of Spaniards on our Western frontier commands my serious attention.— I persuade myself no offence will be offered to Louisiana.— But I am not without serious apprehensions, that they will be disposed to advance as far as the Arroya Honda, (now within the Jurisdiction of this State) which the Spanish agents contend to be the Eastern limit of the province of Texas.— I trust the force you now have on the Mobile will not only enable you to cover that frontier, but to disperse the hostile Indians.

The people of the several parishes of St. Tammany, S. Helena, Feliciana and Baton Rouge seem disposed to rally, *at the first call*, among the standard of their Country, and I shall be disappointed if the people of the Western parishes, (whom I mean also to visit) do not feel and evidence the like patriotism.— At Baton Rouge, the people are repairing the Fortifications, and erecting Block houses. I pray you to have the goodness to suffer to remain at that post all the small pieces of Cannon & Shuch powder & Ball as may be now there. The people are much in want of munitions of War & such as are left at Baton Rouge would I am sure in case of emergency, be used with advantage & effect by the Militia.— I feel much for the safety of New Orleans during the ensuing Winter,— At present it could offer but little resistance to an attack from without.— I am making every effort to organize in the interior of the State a disposable Militia force, & my prospects are flattering. I shall return to

Dear Sir,

The defeat of the Revolutionists near St. Antoine, and the entire ascendancy of the Royalists in the Province of Texas, have thrown upon this frontier, many distressed

Spanish families. I have not been enabled to ascertain the precise number, but it is believed, at least twelve hundred persons have crossed the Sabine, most of whom are wholly destitute of the comforts, & the necessities of life. — I learn however with pleasure, that the Citizens of this & the adjoining parishes have extended to these strangers much hospitality and supplied with a generous hand, their immediate wants.— It is reported here, that a Colonel Elisondo, the Second in Command of the Royalists, had sent to the fugitives a verbal Message to the following effect.— “That the unfortunate inhabitants of “Nacogdoches, and even the Rebels of St. Antonio would “be pardoned, provided they presented themselves at his “Head Quarters within fifty days.” But it is said few, if any, are disposed to accept of the proffered Boon being apprehensive that the Colonel benevolent intentions would not be approved by his superiors, and that were they approved their existance would nevertheless be precarious, since having already become objects of suspicion, their lives, in the event of further attempts on the part of the Revolutionists might be in jeopardy. The Royalists under the command of Elisondo, had advanced to the Trinity distant 180 Miles from this post, and contemplated proceeding on to the Sabine, but it is said were very unexpectedly by two successive Couriers recalled to St. Antoine. It is stated upon the authority of a Spanish Deserter, & several fugitive inhabitants, that the retrograde movement was occasioned by a Revolutionary army from the Interior advancing towards Texas, and in such force as to menace St. Antonio.— Of the Revolutionists, who were taken by Colonel Elisando on his march to the Trinity, the Spanish subjects were immediately shot;— But the Americans, & some native Frenchmen experienced the greatest lenity;— passports to retire from the province & provisions were furnished to the whole, &

to the wounded, Horses were given. Whether this lenient course, is attributable to the policy of the local Government or to the generous dispositions of Colonel Elisondo is not ascertained;— But the prisoners, who were liberated, speak in grateful terms of the very kind, & humane treatment they received from that officer.— Among the Strangers who in consequence of the recent events in Texas, have been brought to this frontier are a nation of Indians, called the *Lapans or Cances*. They had taken a decided stand in favour of the Revolutionists, assisted at all their battles, & seem disposed to follow their fortunes.— This tribe, can bring into the field about five hundred men, and are represented to be brave & war-like;— At the date of the last accounts, they were with their families;— on this side of the Trinity & moving on towards the Sabine. These Indians, will I trust be inclined as all the Tribes in this vicinity now are, to live in peace & friendship with the United States.—The Agent for the Government, at this post Doctor Sibley discharges with great fidelity, the trust committed to him;—He has recently holden interesting conferences with the Chiefs of the Caddoes, Couchattas & other tribes and finds them all favorably disposed.— It seems War talks had recently been sent to these Indians by the Creeks, but had made no other effect than to induce them to inform Doctor Sibley of their willingness, to take up arms, in defence of their American Brothers, whenever their services were required.— I shall leave this post in two days, for Rapides from whence I design to proceed by Catahoula to Concordia, & hope to be in New Orleans between the 6th & 10th of November.—

A TALK from William Charles Cole Claiborne
Governor of the State of Louisiana, and Commander
in Chief of the Militia thereof, to the great Chief
of the Caddo Nation.— Nachitoches 18th October 1813.

Friend & Brother! I arrived at this Post three sleeps past, and learn from our friend Doctor Sibley that you had only left it last month. I should rejoice to have met you here, that we might have shaken hands in friendship, and smoaked & conversed under the shade of the same tree. Seven years ago, Brother, we had a conference at this place, Natchitoches, and mutually promised to keep the path between our two nations white. We have been both long in authority, and know from experience the blessing of peace. We will endeavor to keep the chain bright, and the Chiefs who follow us, may I hope, so strengthen it that our children will live together as neighbors and friends.

Brother, The United States are like the oak of the forest. A great body with many branches. The people of the United States are composed of eighteen families.— Each family has a chief, but the great beloved Man of all is your father, the President, who stands in the place of the great Washington. Our friend Doctor Sibley is the agent of the President, and whatever he says in his name, you must receive as his own words. I have seen brother and highly approve the Talk you gave out, when you was last in Council at this post. The advice you have given to your own people, and to all red men with whom you have influence, is that of a father to his children. I hope they will hold it fast and live in constant peace with the white people.

Brother! Seven years ago you told me your nation had but one enemy. The Osages, and I am sorry to learn you are still at War with those people. I have often heard of the Osages. In the vast hunting grounds where

the great Spirit has placed a sufficiency of Buffaloe, Bear and Deer for all the red men, the Osages, I hear have already robbed the hunters of all nations, and their Chiefs wage War to acquire more Skins. Among the white people, brother, there is also a nation of Osages. Beyond the Sea, there lives a people called the English, who may really be considered white Osages. On the big water, which the great Spirit made large enough for the use of all men, the English have already plundered every people, and their Chiefs direct a continuance of these outrages. Many Americans peacefully navigating the big Water had their vessels and property taken from them. And others were compelled to serve on board of War canoes, and made to fight against their friends & Country Men. But Brother such injuries could not be endured. The hearts of the Americans have become cross; They have raised the Tomahawk, & will not consent to bury it until the English are just towards them. The warriors of your father, the President are marching into the Country of our enemy and the thunder of our great War canoes is heard on every Sea.

Brother! The English unwilling to fight us man to man, have called upon the red people to assist them.— With tongues, as forked and as poisonous as a snake, they have told the Indians many lies, and made fair promises which they will not, and cannot fulfil. Thus it is, many of the red men have been prevailed upon to throw away the Peace Talks of their father the President.— But the Americans have the power, and the will to punish all their enemies. The other day, the Creeks, when it was supposed they were only quarreling among themselves, surprised one of our Forts, & spilled much innocent blood.— A fly you know brother may disturb the sleeping lion— But our Warriors are now in arms against the Creeks, and it will not be in the power of

their friends, the English to shield them against our vengeance.

I don't like many words, but there is something else on my heart which I must relate to you. I hear the Creeks have sent runners with War Talks, to the Conchattas and other tribes, your neighbours, but I hope all these people will look up to you, as an elder Brother, and hold fast your good advice. When your father was a Chief, the paths from your Towns to Natchitoches was clean, and if an Indian struck the people of Natchitoches — It was the same as to strike him. You now brother, stand in your father's place.— To a Chief, a Man and a Warrior, nothing could be more acceptable than a sword, but a suitable one could not be obtained at this place.— I have therefore directed, that a sword be purchased at New. Orleans, & forwarded to Doctor Sibley, who will present it to you in my name.—

Farewell brother! I pray the great Spirit to preserve you in health & happiness.

Secretary at War

Dear Sir,

I am now on my return to New. Orleans, from a visit to the Western frontier of this State. Such of the Revolutionists of Texas, as survived their late defeat near St. Antonio, together with a number of distressed families have sought an asylum in this State. I thought it probable, the Royalists would advance to the Sabine, & perhaps to the Arroya Hundo, but it seems they have estab-

lished their Head Quarters at St. Antonio, & design to suffer the County between that Post and the Sabine to remain a desert. The Caddo Nation of Indians, & other Tribes residing on or near the Waters of Red River are very friendly towards the United States;— War Talks had been sent to them by the Creeks.— But it seems, they cannot be shaken in their determination to remain at peace with the United States.— I have become acquainted in this Country with a very deserving young Man, who wishes a Commission in the Army, and who I beg leave to recommend to your patronage.— I allude to a Mr. Smith Gordon, a modest, unassuming, amiable youth, who seems much attached to Military life, & in his character as adjutant of a Militia Regiment, has by practice, and reading already acquired a tolerable knowledge of Tactics.— Mr. Gordon is nineteen years of age, and were he now honored with the Commission of a Lieutenant in the Louisiana or any (if his life should be spared) he will from his merit meet with rapid promotion.—

From the bottom of my heart, do I congratulate you, on our repeated naval victories. By WILLIAM CHARLES COLE CLAIBORNE
Governor of the State of Louisiana and Commander in
Chief of the Militia thereof.—

A PROCLAMATION.

WHEREAS the nefarious practice of running in Contraband Goods, which has hitherto prevailed in different parts of this State, to the great injury of the fair trade, and the diminution of the Revenue of the United States has of late much increased.— And Whereas, the violators of the Law emboldened by the impunity of past trespasses, no longer conceal themselves from the view of the honest part of the community but setting the Government at defiance, in broad daylight, openly carry on their infamous traffic; and Whereas it has been officially known to me that on the fourteenth of last Month a quantity of contraband goods seized by Walker Gilbert, an officer of the revenue of the United States, were forcibly taken from him in open day at no great distance from the City of New Orleans by a party of armed Men, under the orders of a certain John Lafitte, who fired upon, and grievously wounded one of the assistants of the said Walker Gilbert; and although process has been issued for the ap-

prehension of him the said John Lafitte, yet such is the countenance and protection afforded him, or the terror excited by the treats of himself and his associates, that the same remains unexecuted.—

And Whereas the apathy of the good people of this State, in checking practices so opposed to morality, and to the Laws and interests of the United States, may impair the fair character which Louisiana maintains, and ought to preserve as a member of the American Union;

I have thought proper to issue this my Proclamation, hereby strictly charging and commanding all officers of the State, Civil or Military, in their respective departments, to the vigilant and active in preventing the violation of the Laws in the premises, and in apprehending and securing all persons offending therein: And I do solemnly caution all and singular the Citizens of the State, against giving any kind of succour, support on to the said John Lafitte and his associates but to be aiding and abetting in arresting him & them, and all others in like manner offending, and I do further more, in the name of the State, offer a reward of five hundred Dollars which will be paid out of the Treasury, to any person delivering the said John Lafitte to the Sheriff of the Parish of New. New Orleans 6th Decber 1813.

Governor Claiborne

Sir,

I am induced to believe, that the report of a British force having been landed at Pensacola is not true, but think an attack on this City is meditated in the course of the early part of the Winter. The necessity thereof of having the Militia kept in a constant state of preparation, and discipline for the service is too obvious to require

from me;— But will entreat your Excellency to take such steps as will enable you to order out the force of the City for its defence, at a moment's warning, and to furnish a portion of the Militia from the upper Country, in the event of a call being made upon you for an additional force.—

Enclosed is a proposition from a volunteer Corps of horse which is respectfully submitted for your Consideration.—

a Senator in Congress

Dear Sir,

To my great mortification the General orders (a Copy of which, accompanied my letter of the 8th Instant) meet in this City, with much opposition; They are by some viewed to be illegal, and by others to be unnecessary.— Already they are the object of attack by the News-papers, Scribblers, whose mischievous designs are the more to be

regretted from the facility, with which *in this City* they produce discussion & discontent.— If indeed Louisiana should be attacked, the Regular Troops, are too few in number, to defend the avenue to New Orleans, & unless, the people should feel and act in unison & with great firmness the Country will for the moment be lost. It is not believed, that at present General Flournoy could conveniently concentrate at any one point, within this State, more than 700 Men, of his weakness, he has fully advised me, and has added, that the most prompt support from the State authorities, would in the hour of peril be essential to our safety.— I think it highly probable that the General will in a few days (make) such a requisition of me, for one thousand Men, and which I shall certainly comply with as fully & promptly as may be in my power.— In the patriotism of the Interior Counties of the State, I place great confidence & I persuade myself I shall be enabled to draw from *them* a respectable force for the defence of the Capitol.— I am not without hopes also, that as the dangers increase, the Citizens of New Orleans, will more willingly than they now do, submit to privations, and unite hand and heart in all measures of defence.—

I pray you Sir, to keep me fully advised of the progress of the War, & more particularly of every occurrence which may indicate an intention of the enemy to attack Louisiana.— It is reported here, and credited that 1200 English Troops, have recently arrived at Bermudas; It is added that this detachment, with several black Regiments from Jamaica will in the course of the Winter, be landed at some point within Louisiana.— One thing is certain that the officer Commanding the English Fleet now on this Coast menaces us (in the course of the Winter) with black Troops, & that in the political circles of Pensacola a speedy arrival there of an English force is confidently spoken of.—

At the request of Doctor Shaw, I take the liberty to enclose to you a recommendation in his favor, for a Captaincy in the army.— Permit me to add, Sir, that I always esteemed Doctor Shaw, as a correct Citizen & as deserving of private & public confidence.—

-----New Orleans October 21. 1814-----

Sir,-----

----- I am indebted to you for several very interesting letters and I have noticed with great pleasure your zeal and activity at the present momentous Crisis.— Too much attention cannot be paid to our Caddo and other Indian friends.— At present the Cherokees, Chickasaws and Chahtaws furnish General Jackson with as great an Indian force as is desirable; but in the event of an actual Invasion of Louisiana we shall probably need the aid of our Western Indians, I pray you to keep them prepared for a prompt Co-operation.— It would seem by the information from Nachitoches, that the Spanish Authorities of the province of Texas had made peace with several Indian Tribes lately their enemies, and were likely again to acquire an influence in their Councils, that a column of 800 Spanish Regulars was advancing toward Nacogdoches, and that it would probably be attempted to occupy the post of Bayou Pierre; In this last event Colonel Johnson of Rapides has ample instructions, and I reply on his executing them with promptitude and de-

cision.—It may happen that you will in no manner be molested by your Spanish Neighbours, but in the present state of things I am unwilling any further to diminish our military force in your vicinity; I admire the motives which led Doctor Robinson to raise a volunteer Corps, and the Patriotic Spirit which induced him and them to make a tender of their services thro' me to the United States. I did not respond to this application from an unwillingness to damp the ardor of any American, who in this moment of peril, is ready to bare his bosom in his Country's Cause but since you press me on this point, I must say Sir, that as relates to Doctor Robinson I am delicately situated; he has been considered by the American Government, as lately engaged in enterprises which the Laws of the United States forbid and to my Knowledge a warrant against him has been issued by the district Judge of Louisiana and which I believe remains unexecuted, under these Circumstances I could not consistent with my sense of duty Confer on Doctor Robinson a Commission.— In this Sir you will not perceive anything of a personal nature; It is not possible for me to be influenced, by any such Consideration;— On the Contrary the spirit of enterprise which has marked the Doctor's pursuits in life, his personal firmness, and the very excellent opinion entertained of his head and heart by my lamented friend General Pike lead me to regret the course my duty compels me to adopt.— I trust however that the Young men of Nachitoches will willingly join the Association, which Colonel Johnson has projected, and discovers such laudable zeal in completing;— should Louisiana be invaded on either hand this association would be enabled to render the State the most essential services, nor is there any doubt but under the guidance of their patriotic Leader every individual attached to it, would deserve well of his Country.— The American arms have met with the most brilliant successes to the north, nor has

the enemy since his repulse at the Point of Mobile made any further attempt in this quarter.— We are however impressed with the opinion, that this Capitol will be attacked in the Course of the Winter, and are making every preparation for its defence.—

Dear Sir.-----

----- I have the honor to acknowledge the receipt of your letter of the ——— Ultimo and thank you for the information it Contains.— I have made, and am stil making every possible exertion to defend Louisiana against all attacks from within and from without.— I am zealously supported by Major Generals Villere, and Thomas, and have reason to be content with the patriotic Spirit which pervades the State.— there are indeed individuals, on whose friendly disposition towards the American Government, I cannot depend,— but I calculate with certainty on the fidelity of the great mass of the population:— There has unquestionably been of late a change in the public Opinion, and I see with pleasure, that the best informed citizens are perfectly convinced that the safety and welfare of Louisiana can alone be secured by an indissoluble Union with the American States.— The requisition from this State is nearly completed, and to which is added several Volunteer Corps of Cavalry and Riflemen.— In less than ten days, Regulars and Militia in the Service of the United States, there will be in this City, upwards of **two** thousand men, which the local Militia for

the most part well armed and well disposed would enable us to make a good defence.— Lafourche is well guarded and looks that post shall be speedily established on Barataria, terre aux boeufs and the pass of Chef Menteur.— We shall not be surprised, and unless attacked by an overwhelming force you may fear nothing for our safety. General Jackson continues at Mobile, with a very respectable force; he enjoys the Confidence of the Louisianians, and well deserves it.— The joint letter of your's and Brown's to the Secretary at War is much approved here and we Calculate on its producing the desired effect.— The 1500 stand of arms to which you allude were received and have for the most part been delivered to the Militia now in actual service.— I pray you to write me often and to keep me fully apprised of occurrences.—On my part I will inform you of every thing interesting in this quarter, the Legislature is convened for the 10th of next Month.— I hope there will be Union, and but one opinion, in calling forth the energies of the State and giving to them patriotic direction.—

-----I have the pleasure to inform you that the requisition from this State for a thousand Militia Infantry is nearly completed, and to which has been added two troops of volunteer Cavalry and one Company of Volunteer Riflemen.— We shall in a few days have in this vicinity about two thousand troops, including the

detached Militia, which with the local militia most of which are well armed and well disposed would enable me in case of an attack to make a good defence.—Major General Jackson continues at Mobile, and has I presume by this time been reinforced by a strong detachment of volunteers from Tennessee.—The last accounts from Pensacola, left the English in Possession of that Post, and in the daily expectation of the arrival of the Fleet, and many transports with troops.—We are extremely anxious to learn that Pensacola had been possession of by General Jackson, we are assured that gallant officer only awaits the Instructions of the Government to that effect and which it is hoped will not long be delayed.—Pensacola is in every sense of the word an enemy's Post.—It is there that the retreating Creeks found an assylum and were permitted to make every preparation to renew the war against our frontiers;—It was there that the English land and naval forces made every necessary arrangement for the late attack against the Point of Mobile, and after their repulse they again retired to Pensacola where not only all their immediate wants were supplied but they have been permitted to recruit their forces.—with a knowledge of those facts, and that Pensacola is in every point of view the most eligible spot for the debarkment of an english force destined for the attack of Louisiana, I must confess Sir it would give me the sincerest pleasure to learn that General Jackson had been authorized to pursue to that point his beaten enemy, and to drive from hence him and his protectors the spaniards.—my apprehensions for the safety of New Orleans have of late greatly subsided.—I find that General Jackson has already a respectable army, and that every preparation has been made for further reinforcements from the Western States. I find also a very patriotic Spirit pervades this State and that the best informed Citizens seems to be convinced that the happiness and prosperity of Louisiana

depend upon an indissoluble union with the western and atlantic States;— for the present, Sir, every precaution will be taken to guard against a surprise, and unless we are attacked with an overwhelming force I have every reason to hope we shall give a good account of the enemy, come when he may.—I must not however disguise from you the fact, that Louisiana must look for permanent safety to support of our gallant Western Brothers.

of Creoles of Louisiana arrived on last evening from attackapas and about five hundred and fifty of the detached militia Infantry are expected here in two or three days from Baton Rouge.— Major General Villeré of the First and Major General Thomas of the second division of militia have manifested the greatest zeal and I am much indebted to them for the support they have given and Continue to give me. I have also abundant reason to be satisfied with the Conduct of Colonel McRea and the Quarter Master General Colonel Pratt. I find these Gentlemen greatly disposed to promote the good of the service and to afford the militia every proper accommodation. — Your address¹ sir to the Chosen men of Colour will be printed on this day;— I will use my best efforts to promote your wishes, but I do not know with what success.— I have already apprized of the distrust which exists here against this Class of people;— I believe it ill founded but its existence may, and I fear has in some degree indisposed them towards us.— The difficulty among the officers of the Battalion of Colour of which I informed you is nearly arranged and I continue to think in the moment of trial they will prove a meritorious Corps.¹— Fort St. Philippe at Plaquemine is in need (I learn) of reinforcements; if it meets your approbation I will detach to that post a lieutenant and forty men of Colour.— -----

Dear Sir,-----

-----I am honored with the receipt of your letter of the 19th Instant.— It gives me pleasure to learn, that Lieutenant Basque, is continued in the

Army;— He possesses Talents, and a genius susceptible of much further improvement.— But is young and I fear imprudent.— The free men of Tennessee have acquired the confidence and the esteem of the Union;— Their distinguished Patriotism is indeed an example for all the states and no one of them has more occasion to profit of it than Louisiana.— I shall use with discretion all the information you give me, whatever is published relative to your movements will be in the form of editorial intelligence, and always with caution.— I have reason to believe, that you are correct in supposing the enemy desirous to ascertain the extent of the force declined for the defence of the lower Country;— It has been given in a letter from a Colonel Colliel/ who altho' a spanish officer, may from his long residence be considered as an Inhabitant of Louisiana/ to a Captain Moralez now in Pensacola.— The original letter is now in my hands and you have been furnished with a Copy by the Marshall, Mr. Duplessis. The letter has been submitted to the Attorney General of the State;— He thinks the Judicial Authority cannot notice it;— but supposes if the *Governor* thinks Colliel a dangerous Character *he* may then, be sent away.— On yesterday Colonel Colliel was requested by one of my aids, to attend me at the Secretary's office; he was much indisposed, and begged to be excused until this morning 11 o'clock, when he promised with certainty to present himself. I shall give him 48 hours to prepare for his departure for a Spanish Post, and if force be necessary to send him away I shall use it.— Colliel is an old man and the father in law of Mr. Delacroix one of our wealthiest Sugar Planters, a director of the Bank, and a member of the Committee of Safety.— The Chief of the Caddoes, is a man of great merit, he is brave, sensible and prudent.— You may rely on whatever he may say to you;— But I advise, that you address a Talk immediately to the Chief, he is the most

influential indian on this side of the River Grande, and his friendship sir, will give much security to the Western Frontier of Louisiana.— It is right you should know that Doctor Sibley the Indian Agent at Nachitoches is a very unpopular man with the Inhabitants, he has some warm friends, but many bitter enemies.— I have myself found him, a zealous Faithful agent, and an ardent friend to the Government but for some cause to me unknown, he appears to have suffered in the opinion of the administration.— I have now in my possession a letter from the late Secretary at War, directing his dismissal, and a letter of appointment for a successor, with authority to fill up the blanks with the name of such Citizen, as I supposed merited the trust;— To this moment I have not acted upon these letters, owing to the impossibility of finding here a suitable Character.— Sibley has no information from me of this authority, or rather instruction to remove him and I believe him wholly uninformed upon the subject.— What ought I to do?— Unless you can give me the name of some active intelligent faithful man, I must return the letters to the Government.—

A former Communication from me will have informed you of the delay which attended the receipt of your addresses to the Louisianians and to the free men of Colour.— each address has been published, the first has evidently made a favorable impression, and the effect of the latter, will be soon known.— I have always thought that the policy you propose is the proper policy to pursue towards the free men of Colour.— but sir my views on this respect, have not been seconded by other public functionaries of the State.— Lately sir there has been a great emigration to Cuba of free people of Colour, and many others are I am told to follow;— This circumstance will much operate against your plan, But it is nevertheless believed that several Companies may be raised;— I will write you more particularly hereafter.

— Receive my warmest congratulations on our successes by land and water.— We are once more a great united and gallant people.— Let the Invincibles of Wellington advance, and they find in free men in arms, a foe before whom their laurels acquired in europe will fade.-----

New Orleans October 28th 1814-----

Dear Sir,-----

-----I feel great solicitude for the welfare of Young Basque.— I fear his youth, inexperience, and warmth of disposition may lead him into imprudence,— It however is a pleasure to me to know that he is at present under your immediate Command, and I trust he may by his good conduct recommend himself to your esteem.— It seems, an american minister, A M. Irvine has been appointed to Spain,— I fear this does not argue a design on the part of our administration to avenge the Injuries, which the Agents of the Government have endeavored to inflict upon us in this quarter.— On the 24th of this Month, I wrote to the Secretary at War /M Monroe/ what follows.— “Major General Jackson continues at “Mobile, and has I presume by this time been reinforced “by a strong detachment of volunteers from Tennessee. “— The last accounts from Pensacola left the english in “possession of that Post, and in the daily expectation of “the arrival of a Fleet, and many transports with troops. “— We are extremely anxious to learn, that Pensacola “is in every sense of the word, an “*enemy's Post*. It is “there that the retreating Creeks, found an assylum, and “were permitted to make every preparation to renew

“the War against our Frontiers;— It was there, that
 “the English land a naval force made every arrange-
 “ment for the attack against the Point of Mobile, and
 “after their repulse they again retired to Pensacola,
 “where not only all their immediate wants were sup-
 “plied but they were permitted to recruit their broken
 “forces.— with a knowledge of these facts, and that
 “Pensacola in every Point of view, the most illigible
 “spot for the debarkment of an English force destined
 “for the attack of Louisiana I must confess it would give
 “me the sincerest pleasure to learn that General Jack-
 “son had been authorized to pursue to that place his
 “Beaten enemy and to drive out him, and his protec-
 “tors.” Such are the sentiments which I have not hesi-
 tated to avow to the Administration, and if you should
 think without awaiting orders to pursue your beaten
 enemy to Pensacola, you will stand Justify upon every
 principle of policy, upon every principle of the Laws and
 usages of Nations.-----

New Orleans October 28th 1814-----

Dear Sir,-----

-----The mail of this morning has brought me
 your letter of the 15th Instant.—The same rumour con-
 cerning the gun Boats to which you allude has prevailed
 here, but it proves untrue.—A Continuance of adverse
 Winds must have retarded the Passage of Vessels from
 hence to Pensacola or you would not remain uninformed
 of the state of things in this quarter.— Since my recov-

ery from my late indisposition I have made you several communications, and in one of them I mentioned the disposition which *until your further orders* would be made of the Militia requisition of this State.— In pursuance of this plan I have to inform, that one complete Company near a hundred strong, under Captain Hicks have ascended the River to the Lafourche, where they will soon be joined, by a detachment of one First Lieutenant one second Lieutenant and Forty Privates raised in the vicinity of Lafourche and which will be mustered into the service of the United States.— Hicks is instructed to assume an illigable position low down on the Lafourche, to throw up a batterie for one 12 Pounder, which he has with him, and to build a strong Block House, in case of the approach of the enemy, he is to hasten information to the commanding officer at New Orleans and to Brigadier General Hopkins of the second Brigade of Louisiana Militia, and this latter officer /who resides near the Lafourche/ is directed without waiting further orders, to turn out the whole or such part of his Brigade, as the occasion may require, and to aid in repelling the enemy. — Another Company near a hundred strong will leave hence in a few days to watch some passes on the waters of Barrataria with the double view of guarding a surprise by the enemy from that quarter, and to prevent there assembling of the Pirates and Smugglers.— The Feliciana and Attackapas Cavalry about a hundred strong are stationed in this city and will be employed in reconnoiting and aiding information between this city and the English Turn, and terre aux Boeufs, and occasionally to Fort St. Philip, at Plaquemine and the Post to be established on the Lafourche.— A Company of mounted Riflemen, said to be a hundred strong from St. Francisville, will be here probably in ten or twelve days. — They will temporarily be stationed in this city, and employed for the present on detachments occasionally

with the Cavalry but most generally as videttes in the vicinity of terre aux Boeufs and Chef Menteur.— The Cavalry and Riflemen, are the troops best calculated to act in case of Domestic Insurrection, and with a view of making on the negroes, the desired impression, I shall request that these Corps be occasionally marched in a body above and below the city for some distance. between four and five hundred Militia from Baton Rouge will arrive here probably in a few days, and as I informed you in a former letter will take post at the english turn.— You will observe sir that a thousand Militia Infantry in obedience to the requisition are not yet in the Field.— There are many defaulters among the drafted men,— some from long and Continued indisposition, but most I fear from a bare and wilful neglect of duty.— Enclosed sir is a general order issued on the occasion, you will notice that it applies only to the first and second Brigades, from the second division no special Report has yet been received it is believed however that the defaulters in that Part of the State, will not prove numerous;— I learn however that since the Militia were ordered from Baton Rouge there have been frequent desertions.— Colonel Johnson of Rapides has promised to send me 80 infantry, and with this and other Corps, which will probably offer themselves, I hope to exceed the Requisition,— Tennessee I perceive is always herself.— Truly Sir, no State in the Union, is more conspicuous for real, practical patriotism.— her gallant Militia which are soon to be with you, to accomplish all your objects and to leave the Mobile Section in perfect security whilst you pay us a visit at New Orleans,— this visit is greatly desired, and by no one more than,

New Orleans October 30th 1814-----

Sir,-----

You no doubt have heard that the late expedition to Barrataria, had eventuated in the entire dispersion of the Pirates and Smugglers and the Capture of nearly all their Cruisers.— It is greatly to be regretted that neither the *General* nor *State Government* had not sooner been able to put down this Banditti;— The length of time they were permitted to continue their *evil Practices* added much to their strength and led the People here, to view their course as less vicious.— Measures tending to the prevention of crimes, can alone relieve us from the distress of punishing them;— Had such measures in regard to the offences in question, been earlier

taken, we should not now have to lament the frequency of their commission—I have been at great pains to convince the people of this state, that Smuggling was a moral offence; But in this I have only partially succeeded.— There are Individuals here who in every other respect fulfil with exemplary integrity all the duties devolving upon them as Fathers of Families and as Citizens— But as regards Smuggling altho' they may not be personally concerned, they attach no censure to those who are.— It is the influence of education of habit of bad example.— Formerly under the Government of Spain Smuggling in Louisiana was universally practised, from the highest to the lower member of society.— To shew you the light in which it was then viewed, I will only observe, that occasionally in conversation with ladies, I have denounced Smuggling as dishonesty, and very generally a reply in substance as follows would be returned. —“That it is impossible for my Grand Father, or my Father or my husband, was under the Spanish Government a great Smuggler, and he was always esteemed an honest man.— It takes time to remove the Influences of prejudice of example of former habits. Much has already been done to reconcile the Louisianians to the Government, laws and usages of the United States, and more must yet be done to do away all traces of those improper feelings and sentiments which originated with and was fostered under the corrupt Government of Spain.— Prosecutions are now pending in the District Court against several of the Barataria offenders, and in the course of the investigation, it is probable that the number implicated will probably be very Considerable. Justice demands that the more culpable be punished with severity.— but I see no good end to be attained by making the penalties of the law to fall extensively and heavily.— The example is not the less imposing by circumscribing the number of its victims, and the mercy

which should dictate it, seldom fails to make a salutary and lasting impression.—Should the President think proper to instruct the attorney of the District of Louisiana, to select a few of the more hardened offenders of Barrataria for trial, and to forbear to prosecute all others concerned, I think such an act of Clemency will be well received, and be attended at the present moment with the best effects.—A Sympathy for these offenders is certainly more or less felt by *many of the Louisianians* with some it arises from national attachment; but with most, from their late trade and intercourse with them.—Should the Attorney for the District, be instructed not to prosecute the case of minor offenders, it is desirable that such instructions be accompanied with the opinion of the executive as to the offence of Smuggling and that publicity be given to the same.—Such a document would I am persuaded be productive of great good.— It may be I am in error.— Some of my Contry-men of talents and virtue think differently, but for myself, I have always thought, that as much may be done with the Louisianians by a mild policy, and the act of persuasion, as any People I ever knew.— which impression has always influenced my Public Conduct.— It is true I have often failed in my objects.— But a Chief Magistrate with more talents and discretion than I possess who should pursue such a course, could not fail to succeed.— do me the favour sir to submit this letter to the President and be good enough to inform me when your leisure permits how far he may approve the limits, which with the greatest deference I have taken the liberty to recommend.—

New Orleans November 4th— 1814—

Sir,-----

----- Your communication of the 23rd Ultimo is before me.— The Tennessean Volunteers under General Coffy have no doubt reached you and the drafted men under General Taylor will not I hope be long delayed.— We are all solicitous to learn that affair in the Mobile were arranged to your satisfaction, and that you pay this section of your Military district an early visit.— The detachment you have ordered from Tennessee to New Or-

leans cannot arrive too soon.— The prospects of Peace are at an end.— The Terms submitted by the English Commissioners, would to a Conquered People, be vastly humiliating.— But a *Nation* Great, Powerful and Free could not consent *even* to consider them without compromising its dignity and honor.----- Lest these extraordinary propositions may not have reached you, I enclose a paper containing them, I forbear to make any comment; they will be read by every American, and excite but one feeling, one opinion.----- I Consider our Country now, as standing upon elevated and sure ground; the People will be United, and the Enemy made to accede to Just Conditions.----- I am sensible of the inexpediency of dividing too much the *Forces in this State*; My object has been, and still is, to concentrate the greater Part of the disposable Militia Force near New Orleans.— The settlement on the *Lafourche* was exposed, and as that *Bayou* was one of the avenues by which New Orleans could be approached it was deemed prudent to assume and fortify a Position on the same, and I am happy it meets your approbation;— The Detachment on Barrataria if the occasion requires may be recalled in Forty eight hours; In the mean time, they serve as videttes on one of the avenues of approach;— The Militia from Baton Rouge are Posted at the English Turn, where Colonel McRea contemplates throwing up a *Field* work, behind which the Militia and other Troops, in the event of an attack may Fight with more Confidence.— It is believed by many Persons / and myself among numbers / that the Mississippi may probably be the avenue of approach selected by the Enemy;— If so and he comes in force, the Fate of New Orleans will be decided at the English Turn.----- A wind with which a Fleet might ascend from the Balize, will not serve thro' the Turn;— Hence Batteries at the Turn could act to advantage, and the enemy to hasten his steps must make

his way by land.----- Colonel Shaumberg and Mr. Benjamin Morgan descending since, to Fort Saint Philip, were solicited to favour me with their opinion as to the state of the defences on the Mississippi and of the scites most proper to be occupied.----- I now take the liberty to enclose their Original report, and to recommend it to your consideration.----- You will observe that Fort Saint Philip is represented to be deficient in men;----- This I learn will be immediately remedied by Colonel McRea, who send on a reinforcement;— The Colonel had also previously determined to complete the Fort at the English Turn alluded to in the report, but how far that officer may feel himself authorized to reoccupy the post at the Balize, I am not yet fully informed.— You will observe sir, that this is deemed by Colonel Shaumberg and M. Morgan, a most important measure, and as absolutely essential to the security of this City against all approaches by way of the Mississippi.----- So far as regards the advised co-operation on the part of the Navy in the defence of the Balize and South West Pass, I have been informed by Captain Patterson, that it cannot be given, without abandoning the lakes, and leaving the Communication between New Orleans and Mobile wholly insecure.----- Captain Patterson complains much of the Want of Sailors.— The Brig Etna has not more than twenty six Persons on board;— the ship Louisiana is wholly without nor can they be obtained; six Gun Boats and one Schooner is Captain Patterson's effective force; he was asked by me whether he had authority to purchase Vessels and answered, it had been expressly denied him, but that nevertheless in case of exigency, he would purchase, but thought it useless, as additional Sailors could not be procured in this Station.— Captain Patterson seems disposed to co-operate with promptitude and zeal in such manner as his *means* permit;— but is of opinion, that

these will not enable him for the Present to do more, than to guard the lakes and keep the Communication free between the Mobile and this City.-----

In a late letter, I advised you of the Publication of your address to the Free men of Colour.— Its effects are beginning to be manifested;— A M. Bourgeois a French man by birth but who has resided here for several Years, and supports a very good Character, came to me today, and said he could raise a Company of a hundred men, provided he Could receive the commission of Captain.

----- I requested him to raise the same without delay, and promised to recommend him to the General commanding the District, who alone had the Power of commissioning him. ----- There are I am told two other Gentlemen, who desired to raise Companies, but they have not yet named the subject to me. -----

----- You have been informed of the Contents of an intercepted letter written by Colonel Colliel a Spanish officer, to a Captain Morales of Pensacola; This letter was submitted for the opinion of the Attorney General of the State, as to the measures proper to be pursued against the writer. ----- The Attorney General

was of opinion, that the Courts could take no cognizance of the same, but that the Governor might order the writer to leave the State, and in case of refusal to send him off by force.----- I accordingly Sir ordered Colonel Col-

lier to take his departure in Forty eight hours for Pensacola and gave him the necessary Passports. I hope this measure may meet your approbation.----- It is a Just retaliation for the treatment locally observed by the Governor of Pensacola to some American Citizens, and may induce Spaniards residing among us to be less Communicative on subjects which relate to our Military movements. -----

----- Mr. Abner L. Duncan who goes direct to Head Quarters will have the honor to deliver you this

letter;— You have long known him and therefore no recommendation from me is necessary.— Mr. Duncan feels a lively interest in all measures which promise to give security to our Country and as regards the present Condition of our Military preparations in this State, he can give you much useful Information. -----

----- The News of the Morning leaves us no hope of peace, and every reason to believe that Louisiana will soon be attacked by the enemy. ----- It seems to be the opinion of many well informed Citizens that if invaded, the Mississippi, will be chosen as the avenue of approach, and indeed I apprehend myself, that the enemy will find that route the most convenient. ----- Under this impression, I learn with the sincerest pleasure your determination to strengthen the Garrison at Fort St. Philip and to repair and man the Battery at the English Turn. ----- May I call your attention also to the Balize which has always been as a Post, dependent upon New Orleans/ take the liberty to ask, how far you may be authorized to occupy and fortify that Position? It is believed that a few heavy Pieces mounted at the battery formerly erected at the Balize, Could keep a Fleet from passing the Bar, and in any event, a Detachment stationed in the vicinity of that Pass will give us early notice of the enemy's advance, which is all important.----- I take this occasion to inform you that a Company of

mounted Riflemen seventy strong, and destined for the service of the United States will reach this City on this afternoon.-----

----- I omitted to mention in my letter of Yesterday that a company of mounted riflemen from St. Francisville Seventy Strong, had arrived and were for the Present Quartered with the Feliciana Cavalry.-----

----- A Company of volunteer Infantry from Rapides are stil expected and a Detachment of Fifty volunteers have I believe joined Captain Hicks on the Lafourche.— The requisition of a Thousand Militia Infantry will very soon / I trust be Completed and to which the Cavalry and Riflemen being added will give you from this State an auxiliary Force of Twelve hundred men.-----

In this City there are several uniformed Militia Corps of much promise and my impression is, that on *these* with other Companies of the Militia, much confidence may be reposed in the moment of Trial.— There are Individuals who believe otherwise: It may be, I am in error: but there certainly has been a sensible change in the Public mind.

----- There is not displayed by the Public at large that enthusiastic ardor which is to be found in the Western States; But there is no symptom of opposition to the Government and Laws.----- A Strong hatred is manifested towards the Enemy, and a determination expressed

to unite in the defence of the State.----- You will observe Sir, that I speak of the People at large;— I know there are some disaffected characters, and in this City are many vagabonds who if the occasion served, would be disposed for mischief.— The Legislature of the State will be in Session on the Tenth Instant, and their zealous support at this moment of danger, will confirm the Louisianians in their present good disposition.----- But if unfortunately a spirit any thing like that, which led the Legislature, the last winter to oppose a Militia requisition, should again prevail, I shall encounter great embarrassment and much opposition.----- But as I have already observed a great Change in the Public mind has apparently taken place; Many members of the Legislature, have always had American Feelings, and sentiments, & those whom I have lately seen profess the most patriotic Intentions, and all will I hope act a part, which the crisis advises and the security of the Country demands.— The Colonel Commanding the Detached Militia Alexander Declouet, is anxious to obtain a Furlong for three weeks, and begs me to be an applicant to you in his behalf for that Indulgence.— He has a mother labouring under a decease of which she cannot recover and a numerous Family whose Interest requires his presence for a few days in Attakapas.— Colo. Declouet is the Senior Colonel in the State;— He belongs to an ancient Creol Family, who were much patronized by the Spanish Government, and one of his Brothers is now an officer at Pensacola;— But in Colonel Declouet's fidelity, I place entire confidence;— he has on various occasions afforded proof of his attachment to the American and for the uniform and steady support he has given to me, I feel under personal obligations.— I have said thus much of Colonel

Declouet lest the feelings attributed to some of his family may excite some suspicion as to him.—

----- Extract from a letter from Major General Andrew Jackson to Governor Claiborne dated Head Quarters Pierces Stockade October 31st 1814.-----

Being desirous to place New Orleans and its vicinity in a state of perfect security, I have ordered a force of Five Thousand five hundred men from Tennessee and Kentucky to proceed by forced Marches direct to your city.----- Independent of this I have notified Governor Holmes to hold the whole Militia of the Territory, in readiness to march at a moment's warning.-----

Recent information from the most correct sources, has been received of an expedition of Twelve or Fifteen thousand men, sailing from Ireland early in September intended to attempt the Conquest of Louisiana. You will therefore see the necessity of preparing for Service, at an hours of Notice the whole body of Louisiana Militia-- I rely on your Patriotism and activity and hope not to be disappointed.-----

To Genl. Morgan.

New Orleans November 17th 1814.-----

Dear Sir,-----

----- I did a few days since, say to you, that taking into Consideration the fact that of the Louisiana detached Militia in the service of the United States more than Two thirds had been drawn from the second division, I have thought it just to take from that Division the General of Brigade, which the orders of the Secretary at War had called for, and in as much as you was the senior Brigadier of the second Division the Command in question was at your disposition, so soon as my intentions could be notified to Major General Jackson, and time afforded him to give such orders as the appointments of a Brigadier General in this quarter would necessarily call for.----- I have since discovered from conversing with Generals Hopkins and Labatus (?) of the First Division of Militia that this arrangement is considered by them as injurious to their military rights, and that from their ideas of Justice, nothing could be more correct, than to ascertain the Senior Brigadier of the First Division, and to decide by lot whether the command of the Detachment shall devolve on you or him, it has been intimated to me since my last interview with you that this proposition is not disapproved even by yourself, and that you are disposed to accede to it.— Upon this Statement of Facts, I have only to observe that there is nothing I more desire, than not only to act correctly on this question, but that the generals interested should be satisfied with my decision. If therefore sir, you should wish the promise of Command which was made you a few days since, to be Conclusive, *It shall be so*;— But if you should be inclined to wave that promise and draw for Command with the Senior Brigadier of the First Division, it shall take that course; Or if it be more agree-

able to all parties that the question as to the right of Command should be left to the opinion of three Military men, / not connected with the Militia / whom I will name it shall be so directed.----- Whatever may be my private partialities for Individuals, so far as regards the rights of officers, I shall always endeavor to divest myself of personal Feelings;---- The consideration which induced me to offer you the Command the other day, speaks for itself, and whilst there may be some who may disapprove, doubtless will others who will think it correct.-----

I am Sir,-----

New Orleans November 17th 1814-----

Sir,-----

Your letters of the thirty First Ultimo are the last which has reached.— The probable destination of the Forces, which were to have sailed from Ireland in September last, makes me solicitous to hold in requisition all the energies of this State, and if I am supported by the Legislature, now in session, you may calculate with certainty on my efficient Co-operation.----- The enclosed Copy of my communication to the Two houses of the Legislature, will shew you my sentiments as to our national affairs and how ardently, I desire, that the Just war in which we are engaged may be prosecuted with union & vigour.----- It is certainly true that the

Louisianians have of late manifested the most Patriotic disposition, and that if the Spirit which exists be cherished and encouraged, we have every thing to hope from the great Majority of this Population.----- The Legislature have not as yet done any thing to damp the Public Ardour.----- I hope the body will be Justly impressed with the dangers to which we are exposed, and will warmly second all my efforts;----- But I fear, I much fear they will not act with the promptitude and the energy which the Crisis demands.-----

Dear Sir,-----

Since I last had the honor to address you, a great change has taken place in the Public mind in this Quarter, and a very Patriotic Spirit pervades the State.----- If the Legislature, now in session, should cherish and encourage this spirit we shall have every thing to hope for, from the great Majority of this Population; but if unfortunately, under an impression that the danger is not as great as has been apprehended, the Legislature should decline giving me a cordial support, Jealousy & distress will arise, and it will not be in my Power to co-operate as effectually as I could wish in defence of Louisiana.----- In any event however we shall be made secure by those brave and determined men who are hastening from Tennessee and Kentucky and I await their arrival with much anxiety.-----

 of the Secretary at War making a requisition on the
 several States for an auxiliary Militia Force, the Brig-
 ade to be drawn from Louisiana and the Mississippi Ter-
 ritory was entitled to one Brigadier General and one
 Deputy Quarter Master General.— The latter officer has

yet gained an ascendancy in Louisiana, and I would advise you to seek for your productions the Patronage of some one of the Northern Citys.----- If however you will entrust me with a prospectus of the work, I will submit it to the Regents of the University of Orleans and if they should think useful to that institution, I think you may Calculate on their support.----- I am Sir-----

Dear Sir,-----

----- I write more to advise you of our anxiety to learn the news from Washington than to furnish you with any thing interesting from this quarter.-----

General Jackson is with us, and the Tennessee Militia daily expected.----- It is not believed that the British are in Force any where in our vicinity, and the apprehensions of Invasion seems to have subsisted (Subsided). ----- I should regret however to see

the smallest relaxation in our preparations for defence.

----- Messrs. Lewis of Attakapas, and Francis X. Martin have each been presented to the Senate as Judge of the Sprme Court and rejected.----- I do not know

at present an Individual who could unite a Majority in the Senate:----- Seven members have voted for Martin, and will I believe, be satisfied with no other Person.----- There are I think seven others who would

prefer Mr. Joshua Lewis, and several members have expressed a wish that Mr. Robertson might be nominated.

----- The House of Representatives consume much

time in debate and as yet the Legislature have *answered no one of the objects for which they were called*. I trust and hope however they will unite in some measures which the Interest and safety of the State imperiously demand.-----

What is likely to result from the New England Convention?----for myself, I view this proceeding with much anxiety and inquietude.----- It surely presents an alarming aspect to the friends of the Union, and will not fail to encourage the enemy to attempt the overthrow of our Government.-----

----- Major General Jackson arrived in this city on the First Instant, and has been received with all the respect to which his long and useful services so Justly entitle him.----- No officer who could have been assigned the Command of this District, would have been more generally approved than General Jackson, nor do I know one under whose orders in the Field, I would more cheerfully place myself. But in this event of General Jackson's Death, or absent from the District, it is not improbable but some contest may arise as to the right of Command.-----

----- At the last session of the

Legislature of the State by a Resolution of the Two Houses, I have been requested whenever the Militia of Louisiana were ordered into the Field, to Command in Person.----- In Consequence it has been and is stil my determination, whenever the danger of Invasion becomes eminent, to order out the whole, or such portion of the Militia of the State as circumstances shall render necessary, and to place myself at their head. It however is far from my wish to enterfer with the Command of General Jackson.----- On the contrary I have assured him that on receiving I will obey his orders.----- I however should be unwilling to acknowledge any other officer either of the Regular army or of the Militia, on duty in *this Station*, as my military superior.----- I do not know how far General Jackson may be inclined should I take the Field to consider me as his second, nor do I design at present to press a decision; it is not improbable, that the General would rather the President should determine, the rank to which a Governor of a State taking the Field was entitled and I would myself prefer that course.----- I observe if the News Papers are to be accredited, that Governor Tompkins of New York has been vested by the President with the Command of all the Forces within that State.----- I do not ask for a *like Command* within Louisiana; It has been committed to much abler hands and I should regret a change.----- But diffident as I am of my Military Talents, I must confess Sir, I should with extreme reluctance within my own State, submit to the Controul of any one of the Militia Generals in the service of the United States, who had no greater military experience than myself and less knowledge of the Country.----- I solicit therefore that whenever in case of Invasion or eminent danger of Invasion, I should in my character as Governor of Louisiana order out a portion of the Militia and place myself at their head, that General Jackson may be in-

structed to consider me as second in Command of the Forces to be employed within this State.----- Be good enough I pray you Sir, to bear this message of mine to the President and to inform me how far he may be disposed to grant it.----- I have read with much pleasure your plan for augmenting the army, and facilitating enlistments.----- In the event that the additional army of Forty Thousand men, be raised, I should feel happy Sir to be honored with a Commission.----- The war in its commencement and progress has always had my support and in its vigorous prosecution at the present moment I see the only difficulty for our Independence.----- With these Sentiments I am unwilling to remain an inactive spectator of the Struggle.----- Like most of my Country men who have been called into service, I can claim, but a limited Knowledge of Military Affairs; I however hope you will not consider me as presuming too much in wishing the Command of a Brigade,—and

troul.----- The enclosure *A.* is a return of the Regular Militia, at present within the city and environs of New Orleans.----- Their numbers have been diminished by several Detachments heretofore ordered into the service of the United States, and by two or three Companies recently raised I learn under your authority, and of which description are the Detachments under Mess. Ogden & Jacques Viessire.-----

The Enclosure *B.* will shew you the strength of the several Rifle, Marine and Veteran Corps of Cheveau's Troop of Cavalry and of the Fire Company.----- The Rifle Company is an Independent Corps organized under a particular Law.----- The Marines have recently been raised and consist for the most part of transient Persons.----- The have been organized by me into a Batalion, and fully officered; They were inspected on this morning, and are anxious to be put on duty.----- The Veterans are comprised of men exempt by law from Militia Service, or incapable by age or bodily infirmities of active Duty.----- Cheveau's Cavalry is an Independent Company, entitled by law to peculiar Privileges, one of which is to be more immediately under the orders of the Governor.----- The Fire Company is composed of Fathers of Families entitled by law to exemption from ordinary militia duty; But who at the present Crisis, have made a voluntary tender of service within the City.

The enclosure *C.* will shew the strength of a voluntary Battalion of Free men of Colour, which I have recently organized, and officered, they have been inspected, and are armed with good muskets, Cartridge Boxes and Bayonets; Belts have not been furnished them, nor have I any at my disposition.----- This Battalion is solicitous to be put in activity, and if you think proper to make me the vehicle of conveying your wishes, it shall be ordered to any point you shall designate.----- I have

not accurate information as to the present Condition of the Battalion of Uniform Militia /Planche's Command/ at present under your immediate orders; It has of late been much added to by recruits from the Regular Militia, and indeed the practise of having one company to join another, has of late become so common, that to prevent the total destruction of some Corps and much derangement to others,— I have deemed it proper to forbid it in General Militia orders.-----

The Return of the Battalion of chosen men of Colour, ordered to the Chef Menteur has been mislaid; another, will soon be furnished me, and Copy shall be forwarded to you on Too-morrow if desired;----- But I take it for granted that of the strength of this Corps you are fully informed.-----

I have the honor to inform you, that in a Letter from your predecessor General Armstrong, under date of the 12th of August. last, I was authorized to appoint an In-

New Orleans 30 December 1814.----

Dear Sir,-----

The Enemy remains encamped, about seven miles below this City, within full view of our army under the command of General Jackson;----- The Force of the Enemy is veriously stated from four to seven Thousand; ----- In an attack on the evening of the 23d Instant the enemy suffered considerably, and but the darkness of the night, which caused some little confusion in our ranks, the affair would have been decisive.----- We have lost some very brave men, and among the number, I am sorry to mention Two highly Esteemed officers of

your state, Colonel Henderson of the Rifle Corps and Colonel Lauderdel's of the Volunteers.----- The Tennessee Troops equal the high expectations which were formed of them;— It is impossible for men to display more patriotism, Firmness in battle or Composure under fatigue and privations.— The Louisianians also deserve, and will receive, the highest approbation, we are united as one man, and a Spirit prevails which ensures our safety; We may have and calculate on having some hard Fighting; But you need not fear for the result.----- The Commanding General inspires much confidence, and all his Troops, Regulars, volunteers and Militia are in high Spirits, and anxious to be led against the Enemy. This will be done in due season;— The Kentucky Troops are daily expected; until reinforced by them the General has very prudently determined to maintain his present position.----- A Position which completely covers the City, and from which the enemy cannot dislodge him.---- The American army is drawn up in line from extending the Mississippi to the Cypress Swamp, having in front a wet ditch, and an entrenchment impenetrable against musketry or smaller pieces of ordnance. The right flank covered by the River and the Left by the Swamp, and the whole defended by several pieces of Canon of various Calibre.-----

Sir,-----

----- The Enemy continues in our vicinity but for the last ten days has been very quiet. on the first of the month, he opened on our lines a heavy Fire of

Shells, Grape, Cannister and Rockets, which killed and wounded several of our brave Fellows, but his batteries were soon silenced, by a well directed Fire from our Twenty Four Pounders.----- Six privates have deserted from the enemy from their statement and that of some of the Prisoners, we are enabled to form an opinion as to the enemy's Force.----- He is represented to have eight Regiments, Two of which are black.----- Of these Regiments the Strongest is said to be eleven hundred, and the weakest Five hundred, but admitting that they average eight hundred which is probable, their number may be estimated at six thousand four hundred, with the addition of a Corps of Marines and some artillerists.----- The enemy is now supplied with some heavy artillery and is strongly entrenched.----- The arrival on this Morning of the Kentucky reinforcements will probably enable the commanding General / JACKSON / to act on the offensive.----- It is asserted that some of the Enemy's Ships of war have entered the Mississippi:— But we have at Plaquemine and the English Turn /Two Important Points/ Strong Fortifications, which I hope and believe they cannot Pass.----- I stil feel assured of the safety of this city. In addition to the Kentucky Troops we have received reinforcements from the Interior of Louisiana.----- We have to lament for *the moment* a scarcity of arms, but are hourly in expectation of an Ample Supply which the General is informed has left Pittsburg some time since.----- The Regulars, the Militia and People are in high Spirits.-----

----- Enclosed is a Duplicate Copy of my letter under date of the 23rd of December. Mr. Gales the Indian Agent has set out for Nachitoches, he was detained here longer than he had intended from the impossibility of obtaining funds for his necessary personal expences owing to the entire Stagnation of Trade, and the distresses of the times, he could not find a purchaser for his Bill on account of Salary on the War department, until I could borrow the amount, I felt some regret on the receipt of your letter mentioning Mr. Gauvin, that I had previously filled up the Blank, in the letter of appointment, I trust however that the selection will meet your approbation.— M. Gales is a well informed young man, and I am assured will deserve your Confidence; he resigned for the Agency, the office of Judge Advocate for the Seventh Military District, and I should learn with sincere regret, his being superceded in the agency.-----

----- I take it for granted that Major General Jackson keep you fully advised of all Military occurrences in this vicinity, and consequently shall only state, that the contending remain /this day/ quietly within their intrenched lines, that the arrival of General Adair with the Kentucky Troops has given additional security to this city, and that we hope soon to be enabled to drive off in the Invaders.-----

----- Secretary at War.-----

To James Monroe.

New Orleans January 9th 1815

Sir,-----

----- Since I last addressed you nothing important occurred until yesterday the 8th Instant.-----

At the dawn of day the enemy advanced in Columns the attack of our lines, protected by an incessant fire from all his batteries;—his primary efforts were directed against both our Flanks.----- The right supported by the River, and the left by a Cypress Swamp----- This evinced an ardour which nothing could have overcome, but the steady firmness and well directed fire of our brave Troops.-----

----- At the commencement of the firing, I repaired to the scene of action and arrived there, before the battle was ended.—The officers and men, the Regulars, the Kentucky, Tennessee and Louisiana Militia seemed to me to be a like and determined.----- The fire of the Kentucky and Tennessee forces on the left was particularly fatal to the Enemy.----- They soon strewed the Field in their front with the dead and dying.----- The battle continued with vigour for near two hours, when the Enemy retired from the contest.-----

----- I cannot with any kind of certainty state their loss in Killed, Wounded and prisoners, it is however estimated at Twelve to Fifteen hundred Among the Killed are Colonel Raney, a Major Pringle, and many other officers; Among the Prisoners I have seen Fifteen or Sixteen officers, most of whom are wounded.-----

----- It is a matter of equal Joy and wonder that in a conflict, so long, so glorious to us and so fatal to the enemy our loss is astonishingly small. It is not believed to exceed in Killed and wounded, twenty-five or thirty among whom I have not heard of one officer.-----

----- The intrenchments protected our men

from the fire of the enemy and altho' their batteries poured forth a Shower of Shells, balls and Rockets, they did very little injury; for the most part overshooting the lines, and following harmless in the Field behind.-----

----- The Commanding General /Jackson/ will give to Government the particulars of a day no less honorable to him, than profitable to his country.-----

He will do Justice to his brave Army and his distinguished brothers in arms, Generals Carrols, Adair and Coffy, and many others whose merits he can justly appreciate.-----

----- The victory of the American arms, would have been complete and Louisiana probably delivered at once from the Invading Foe, but the momentary success of the British on the opposite shore or west side of the Mississippi.-----

----- Batteries had been erected there to annoy the Enemy's lines, and under the brave Commodore Patterson, had gloriously contributed to our successes.

----- They were protected by a detachment of the Kentucky and Louisiana Militia, under Brigadier General Morgan of this State.----- Pending the attack on our lines a party of the enemy, the force of which is not correctly ascertained, but is supposed to be inconsiderable crossed the River, and owing to some cause not yet accounted for, our Troops speedily gave way, and the brave Commander was compelled to spike and abandon his cannon.— General Morgan is understood to have been cool and collected, and to have made many efforts to rally his men.— General Jackson was prompt in reinforcing him so, as to check the enemy's advance & we hope to day to hear of our batteries being reoccupied.-----

I am Sir, &c &c -----

----- Signed Willm C. C. Claiborne.-----

P.S.— Since writing the above. I have had the pleasure to learn that the enemy has abandoned our batteries on

the opposite shore, and recrossed the River, he has also suffered more in the action of the 8th than I at first imagined.----- Their Commander Lieutenant General Pickingham (Pakenham) is said to have been killed and his second Major General Keene badly wounded.----- I am very sure our own loss does not exceed the number stated.-----Indeed I have reason to believe I have over rated it. -----

To James Madison.

New Orleans January 19th 1815----

Dear Sir.-----

I congratulate you on the glorious issue of the contest in which was involved the safety of this section of the Union.----- It has this moment been officially announced to me by one of the aids de camp of Major General Jackson, "That the enemy evacuated their camp in "the course of last night, and that the State of Louisiana "is now probably Free from the presence of an Invader." I cannot on this occasion forbear to express the high sense I entertain, of the meritorious services of the Army and Navy.— In the former the Militia were alike conspicuous with the regular Troops, for their Zeal, Firmness and Forbearance under privations.----- Our Brethren of Tennessee, Kentucky and the Mississippi Territory deserve the thanks of the Union, for their effectual support in the preservation of one of its important members; and I glory in the opportunity which has afforded the people of Louisiana to prove that altho' the Youngest of the great American Family, they are not the least in valour and Patriotism.-----

----- I decline entering into details; They are reserved for the Commanding General who will do am-

ple Justice to the brave men, who have contributed so much to his own and national Glory.----- I should however be unjust were I not again to bear testimony to the good conduct of the officers of our navy on this Station.

----- Although early deprived by an overwhelming force, of the few gun Boats which constituted the greater part, of our naval Strength, they stil found and improved the means of adding to the Luster of the naval Character of Columbia.----- Their Chief Commodore Patterson after furnishing with promptitude to the army and militia such supplies of arms and ammunition as could be spared from the naval Stores, or prepared by his marines, caused to be erected batteries on the western bank of the Mississippi opposite to the English Camp from which he continued a galling fire, greatly to the annoyance of the enemy, and to the support of our lines.

----- During a conflict so long and so obstinately maintained a great effusion of Blood might have been expected; The enemy have indeed lost their best Generals, and at last one third of their original force, But thanks to almighty God the loss on our side in killed and wounded from the commencement of the attack to the retreat of the foe, falls short of a hundred and fifty.-----

The oponents of the American Union will no longer I hope thank it easy to make an impression on its distant Sections and the friends of our common Country may hereafter look with calmness on any attempt which may be made to sever any of its members from the original Stock.-----

I have the honor to be, Sir,

New Orleans February 11th 1815----

Sir,-----

Your Letter of the tenth Instant has been read with respectful attention.— I think with you, that the disposition of the President to exercise lenity towards the Individuals charged with Piracy and other offences at Barataria as communicated to me in the letter of the Attorney General of the United States under date of the tenth of December last will be greatly increased by the good Conduct of these Individuals during the late Invasion of Louisiana, and the interest taken in their behalf by the Legislature of the State and the Commanding General of the Seventh Military District.----- Under this persuasion your entering Nolle Prosequis in all the cases you have named to me, where prosecutions have been commenced or presentments found, will meet my approbation.-----

-----New Orleans 24th February 1815----

Sir,-----

I find that the Martial Law which was proclaimed in the city of New Orleans by the general orders of the officer Commanding the Forces of the United States in the seventh Military District of which this State makes a part, continues to be enforced to the injury of our Fellow Citizens.----- If the liability of an American Citizen

not the military service of the United States, to have his conduct tested by the arbitrary principles of Martial Law can ever exist, it cannot certainly be expected to be endured at another moment, than that of the actual Invasion of that part of the Country in which it is Proclaimed.

----- Yet although the enemy does not at this time occupy an inch of ground within this State, the capitol of Louisiana, the city of New Orleans and its environs continue to be the theatre of Military Dominion.----- The Plea of necessity under which alone this measure is said to be grounded, ceasing to give it any Justification, I can no longer remain a Silent Spectator of the prostration of the Laws.----- I therefore request you Sir, without loss of time to repair to this city, and resume your official duties; that you give your aid to the Civil Majistrates, particularly the Inferior ones, and on receiving information of any attempt of the Military to seize the person of any Private Citizen, not actually in the Military Service of the United States, you are specially instructed to take for his protection, and for avenging the Injured Laws of this State such measures as your knowledge of the Laws will point out.-----

To a soldier who has done his duty in all the conflicts, in which his country has been involved, from the war of Independence to the present moment, it must be matter

of great exaltation to notice the valour and firmness of the children of his old friends; to be convinced, that they are the true descendants of the original stock.-----
 That the young men of your Brigade should have looked up to you in the hour of Battle as their guide, and their Shield, is only a continuation of that Confidence which their Fathers had in a Chief, whose arms had so often, and so successfully been raised against the Foe.-----
 The Enclosed Resolution of the General Assembly of Louisiana will shew you the high (esteem) which is entertained in this State, of your own services and of those of your Brothers in arms.----- Be towards them the vehicle of our sentiments and receive for yourself the assurances of my Respects and Best Wishes for health and happiness.-----

I take great pleasure in communicating to you a Resolution of the General Assembly of this State expressive of gratitude and thanks to you and your gallant Comrades for the Brilliant share, they have had in the defence of Louisiana, and the happy harmony they have maintained with the inhabitants and Militia of this State.-----

Under a Leader Young in Years but old in deeds of valour, our brethren of Tennessee hastened to our relief.

They arrived in time, to participate in the conflict with the advancing foe, to thin by a well directed Fire his numerous Columns, and greatly to contribute to his final overthrow.----- It must be pleasing to you to contemplate the present comparative security of Louisiana.----- It cost you and your brave associates some Toilsome days and watchful Nights.----- But it is not to the gratitude of this State only that you have acquired a title.----- The whole Union must feel indebted to those whose faithful services have conduced to the preservation of one of its important members.-----

I have the honor to enclose you a Resolution of the General Assembly of Louisiana from which you will perceive the grateful sense which is entertained of the services rendered to this state by " our brave brother Soldiers from Tennessee, Kentucky and the Mississippi Territory and their gallant Leaders.-----

It is the pride of America to see her gallant defenders guide the Plough or front her Enemies as the National Interest and Safety shall advise.----- To such Citizen Soldiers do we chiefly commit the protection of our dearest rights. The defence of our beloved Country, and that we may continue to do so, and with confidence, the glorious termination of the Campaign in which you have borne so distinguished a part, affords a Pleasing Proof.

----- From the prospect now before us, we may be permitted to hope Sir, that the calm of Peace, will soon authorize you to rest from the toils of war and to lead back your Patriotic Division to their Families and Friends.

----- The best wishes of the Louisianians will adways accompany you and them.----- The Spirit of Union of mutual affection and confidence, which now happily exists between the people of this State, and their Brothers of the sister States, will I trust be forever cherished.

Sir,-----

In my last letter, I enclosed you a Copy of the French Consul's letter to me relative to General Jackson's order for certain French Subjects to repair into the Interior of this State, and of the answer I had returned.----- I now transmit you a Copy of a news paper publication on the subject which appeared on the Third Instant in the Louisiana Courier, and which Mr. Louillier, a distinguished member of the Legislature of this State avowed himself the author.¹----- On the Fifth of this month Mr. Louillier was arrested by order of General Jackson, and lodged in the Barracks. On the same day the Judge of the District / Mr. Hall on application directed a Writ of Habeas Corpus to issue; But before the Writ was served, Judge Hall was himself arrested and conducted under a Strong guard to the Barracks, where he remains confined.----- The orders which relate to the French Subjects, were on the Eighth Instant retracted or suspended at the request as is stated of the Orleans Battalion of volunteers; —But the French Consul Colonel Tousard, has been specially commanded to retire from without the limits of General Jackson's Camp and which he has done by leaving the city.— Two days since the United States district attorney /Mr. Dick/ applied in behalf of Judge Hall to Mr. Lewis, Judge of the First Judicial District of Louisiana for a writ of habeas corpus, which was issued and served on the General.----- But the attorney was immediately arrested and lodged in the Barracks where he still remains. Orders were given for

the arrest of Judge Lewis; But they have been recalled.
 ----- I decline for the present making any comments
 on these proceedings, but I must request you Sir, to com-
 municate them to the President, General Jackson has
 thought proper to declare the city and precepts of New
 Orleans his camp, and to enforce in and over the same
Martial Law, and to the entire prostration of the laws
 and civil authorities of this state and of the United
 States.¹-----

We have for some days past been in expectation of
 receiving official information of the ratification of the
 Treaty of Peace;----- But we are doomed stil longer
 to remain in a State of Suspense.----- The Official
 Messenger who left Washington on the 14th January
 either was not given the dispatch intended for him, or
 it has been lost, for it seems nothing satisfactory has
 reached General Jackson, and by me not a Line upon the
 Subject has been received.----- The mail of this

-----CIRCULAR.-----

Dear Sir,-----

We (are) assured here on the authority of Admiral Cockran, that a treaty of Peace between the United States, and great Britain was signed at Ghent on the

26th of December last and which treaty being already ratified by the Prince Regent awaits only the sanction of the American Government to put an end to hostilities.— Taking it for granted that the conditions are such as neither to compromise the honor nor the Interest of the United States, I offer you my congratulations on an event so desirable to our Common Country.-----

You will learn with regret, that an unfortunate misunderstanding exists between Major General Jackson, and the Legislature and *Executive* authorities of Louisiana against the *latter* of which I have reason to believe, his resentment is more immediately directed.----- With a Favorit and Victorious Chief whose gallantry and exploits have attracted so much *admiration*, I am well aware I can enter into no contest upon equal grounds.----There however is a Shield which a kind Providence furnishes the cause of Justice and truth, which resists present attacks and grows stronger with time.— On former trials, I have experienced the strength of this Shield, nor on the present can it fail to extend to me the most ample security.----- I acknowledge that General Jackson has rendered important services nor do I deny him the possession of some great qualities; But the violence of his character casts a Shade upon them all, and in this Capitol he has observed a Course of Conduct which cannot be easily excused, much less justified by those who feel a proper regard for the rights of others.¹-----

Mr. Louillier, whose case as particularly mentioned in my last letter being brought before a Court Martial denied its authority to try him; but the court is understood to have decided in favour of its competency, the prisoner refusing nevertheless to answer the plea of not guilty was entered by order of the Court.----- The decision of the Court was rendered I am told on yesterday, but is not yet promulgated;----- In the mean time, Mr. Louillier remains in confinement.— The Honorable Judge Hall whose case I also stated in my last letter, was on this day removed from the Barracks, and escorted by a small guard of Cavalry about five miles above the city, beyond the point which the General Considers as the upper line of his Camp.----- We await with great solicitude intelligence of the ratification of the Treaty by the President and Senate.-----

Sir,-----

I have had the honor to receive your communication of Yesterday with its enclosures, the executive of Louisiana has no controul over the acts of the officers Com-

manding the Military district within which it is included. Whether or not the rights secured by Treaties and the Laws of nations to the subjects of his Christian Majesty residing within this State, are violated by the General Order of which you complain is a question not for me to determine.----- It properly belongs to the Judicial Power, and there can be no doubt but on proper application, it will interpose its authority in such manner, as Justice and the Laws shall prescribe.

Sir.-----

I have the honor to transmit you a translation of a letter which was addressed to me on last evening by the French Consul, together with a Copy of the answer which I have this moment returned.----- I have had no conversation with General Jackson relative to the orders of which the Consul complains, nor do I know whether there be any reason for this measure, other than the one expressed.— Under an impression that the treaty of peace, said to have been concluded at Ghent contains nothing derogatory to our national honor or Interests, we await its ratification with great solicitude.--- That union and mutual confidence which so recently pervaded this whole community no longer exists:---- I persuade myself however that if the people should again be called upon to repel an advancing foe, it would be the signal for reunion, and for the like display of Patriotism, valour

and firmness, which in a recent occasion did so much honor to the Louisianians and so greatly contributed to their safety.-----

Dear Sir-----

GREAT is the change which the return of Peace has already made in this Capitol.—Our harbor is again whitened with canvass; The Levee is crowded with Cotton, Tabaco and other articles for exportation;----- The merchant seems delighted with the prospect before him, and the aggriculturists in the high price for his products, finds new incitements to Industry.----- There will doubtless be Individuals who will take exception to the conditions of the Treaty, but in the present State of the world, it seems to me we could not have expected to have sheathed the sword upon better terms.--

It is presumable that the army will speedily be

placed on the Peace Establishment, and in which event, will you excuse me for expressing a solicitude that among the officers retained, may be those very deserving officers, Colonel William McRea of the artillerists and Major Wicks of the Seventh Regiment of Infantry, the former has long been in service and I believe always acted worthily.----- He has been in command at New Orleans and the vicinity for eight Years, and I have had frequent occasion to notice his great attention to duties, and sincere attachment to Government.-----

Major Wicks is a young man of great promise; with the advantages of an accomplished education, and a deportment in life which commands great Respect and esteem.

-----May I also take this occasion to remind you of the great desire, which my friend, Mr. Thomas Johnson of this city stil feels to be sent to some Port in France in character of a Consul.----- I have heretofore taken the liberty to express to you my opinion as to Mr. Johnson's fitness for such employment and the high Character I then formed of him is confirmed by his uniform correct and honorable deportment.

I should feel happy, in rendering any assistance to those Gentlemen, to enable them to execute the object of their mission, but agreeable to the determination of Major General Lambert before he went away, all those slaves who were not willing, and who objected to return to their former Masters, have been embarked for the Island of Bermuda, to be sent from thence to Trinida, The Major General did every thing in his power, to induce the whole of the slaves you deserted from New Orleans to return. but he did not feel himself authorized to resort to force, to oblige them to do so, as they threw themselves on his protection, which they were entitled to, having served with the British Army and which they did voluntarily and without compulsion.-----

Its my duty to inform you that efforts are now making within this State to prepare the means of a Military expedition against the Interior Provinces of Mexico.

----- The expedition professes to have for object, the best interests of humanity.----- The generous enlargement of an oppressed people.----- *Belle Isle* near the Mouth of Chaffalaya is appointed the place of Rendezvous, where from four to five hundred men are said to have assembled and to be well supplied with arms, ammunition and Provisions.----- Some late commissioned officers of the United States Army and Navy, recently discharged, Privates are also stated to have joined in the enterprise.----- The expedition proceeds from *Belle Isle* by water to *Matagorda*, a small Port near the Gulph of Mexico, from thence to Labahaia a little village on the River San Antonio about forty miles from the Sea Coast and Eighty from the town of San Antonio the Capitol of the province of Texas.----- It is also said another expedition is to move from Nachitoches, and "Labahaia" is fixed upon as the point of reunion.----- One thousand men /it is reported/ are already engaged and a much greater number calculated upon from Kentucky and Tennessee.-----

Among the Persons now at belle Isle is a Spaniard of the name of Labalac,"— he is represented to be a native of the Province of Yucatan, and late a delegate from said Province to the Cortez of Spain.----- I do not know, who is to Command these expeditions;----- In this quarter, a Mr. Henry Perry a native American /Formerly a conspicuous commander under Toledo in his late unsuccessful attack on Texas/ is considered the more prominent character.----- Having been much of the greater part of the last months in retirement at my Plantation about eighty five miles from New Orleans, and most of the time confined to the house, either from my own or the Indisposition of my Family, it was not until very lately, that I became acquainted with the particulars, which I now communicate.-----

The civil authority of Louisiana is not competent to the suppression of these expeditions, and if the Government wish them put down Force must be applied.----- On former occasions the civil authority of the State interposed, but to no effect; nor does a like interposition at this time promise a more favorable result.----- The proposed enterprises against the Spanish Provinces, meet in Louisiana the more Support from an impression that they are Secretly countenanced by the administration.----- I have endeavored to remove this impression and quoted your former Letters to me on this Subject. But until the Government shall apply the only sure corrective force many of the Persons concerned will continue to think that these projects are not disapproved by the Executive.-----

Sir, -----

Your Letter of the twenty third of June has been duly received.----- The four Packets of Stamps for the First Collection district, and to which you allude were forwarded to Mr. Ryson the gentleman First named the collector of that district; he declined accepting but acknowledged to me the receipt of the Packets. A Mr. Carson was next appointed, and to him Mr. Ryson was requested to deliver the Stamps; But Mr. Carson declined, and the papers I understood remained in the hands of Mr. Ryson.

----- Mr. Marshall was informed of all this, and desired by me to call for and receipt for the papers, Mr. Ryson died a few months since, but he was a man of business and Integrity;----- The Stamps therefore I have no doubt, were carefully put away, and will be safely delivered by his representatives to Mr. Marshall.-----

I do not know how to account for the deficiency you notice in the Stamps acknowledged to have been received by P. A. Delachaise the Collector of the Second district, and those forwarded from your office.----- The Fact is that the Packets of Stamps, as received from Mr. Morgan were delivered by me to Colonel Thompson, then a member of the Legislature of Louisiana, and Brother in Law of Mr. Delachaise, and were I am assured placed by the former into the hands of the latter.----- The deficiency in the Stamps received by Mr. Ficklein, was at the time communicated from the Treasury Department to Mr. Morgan, and to whom I gave such information on the subject as came within my knowledge.----- The Several Packets of Stamps delivered by Morgan, were deposited in the office of the Secretary of this State, and consequently under the care of the Secretary.----- They were forwarded to the several Collectors by the first Convenient occasion, and allways under the care of some honest citizen.----- It is possible, some of the Stamps

for the fourth district, may have been lost on their passage, or through mistake forwarded to the Collector of the first district, and should this last be the fact, you will learn from the return, which Mr. Marshall may make of the Stamps received from the Representatives of Mr. Ryson, the gentleman first appointed Collector.-----

New Orleans September 10th 1815—

Sir, -----

----- Your Letter of the 29th Ultimo complaining that your former communication to me had remained unanswered has been duly received.-----

Not long since my friend Colonel Shaumberg visited Natchitoches, and was specially charged to inform you the reasons which induced me to decline giving any general Instructions, relative to the agency, and had he met you at Nachitoches the cause of my silence, would have been satisfactorily explained.----- It is known to you, that General Armstrong when Secretary at War, confided to me the trust of selecting an Indian Agent in the place of Doctor Sibley, and to that end enclosed me a blank Commission; That the general also authorized me to give,— “To the agent such additional Instructions as may be necessary for his immediate government, and to establish him at such place as shall promise best accommodations.”----- Previous to the selection of the Agent I determined to advise with General Jackson com-

manding the seventh military district, as to a suitable character because being informed, that the General was authorized to embody and to receive into the service of the United States the Caddoe and other Indians on the Frontiers of Louisiana, it was by me deemed important that the New Agent should possess his entire confidence.

----- General Jackson being then on the Mobile, the nomination was necessarily delayed, but you sir, was ultimately chosen with the entire approbation of that officer.— Subsequent to your appointment and previous to your departure from New Orleans, I received a letter from Munroe the Successor of general Armstrong instructing me to fill the blank in the Commission for Indian Agent with the name of ----- Gauvin; But the Commission was no longer within my controul of which fact I informed Mr. Munroe by letter under date of the ----- day of -----, and enclosed him a duplicate of my letter of the ----- of the same month, which announced your appointment.----- You will observe, Sir, that my only authority to exercise the smallest Controul over your acts was derived from the letter of General Armstrong already alluded to.----- The Communication from his Successor M. Munroe furnished evidence of a wish, not to have confided to me the Selection of the Agent, and this circumstance induced an unwillingness on my part further to interfere in the affairs of the agency, unless Mr. Munroe should invite me to do so.----- This he has had an opportunity of doing in reply to the several letters I addressed him relative to your appointment, but to this moment, the receipt of these letters have not been acknowledged.-----

As regards the delay and difficulty in honoring your Bills for expenditures incurred, in embodying the Indians, I can only express my regret.----- I had understood that your Predecessor, Doctr Sibley had instructions from General Jackson on that point, and I knew how

anxious, the General was for your arrival at your Post, in order that the warriors of the Caddoes, and other Tribes, who were invited to rendez-vous at Nachitoches might be mustered into the service of the United States.

----- On this subject I never supposed it my province to give you any instructions, always believing that it was exclusively committed to the officer commanding the Seventh Military District, and I am persuaded sir, that on application to that officer, he will promptly and cheerfully Sanction, all such expenditures by you incurred in embodying the Indians, as shall appear to have been directed by a prudent discretion.-----

Such information relative to the Indians as may immediately interest Louisiana, or any portion of it, will be thankfully received, & on all points, which shall concern the State or its Citizens, I shall from time to time, take the liberty of writing you.----- As regards the general policy, which the Government of the United States, would wish to pursue towards the Tribes committed to your care, it can I presume, be collected from the official communications to and from your predecessor.

----- But if these are not sufficiently explicit, the Secretary at war, will doubtless on application, give you ample Instructions.-----

It is rumoured here, that efforts are making to set on foot, in the vicinity of Nachitoches an other expedition against the Spanish Province Texas, and that the Caddoe and other Indians are likely to prove zealous auxiliaries;

----- Will you be pleased to inform me how far these rumours may be accredited.----- No man wishes more sincerely than I do, that Mexico, and the other Spanish Provinces, should become free of all European influences, and placed under a Government of Laws;----- But I must confess, I shall learn with regret, that any portion of our Citizens should engage in enterprises which the government of the United /as far as I know and believe/

does not approve, and the laws positively forbid.-----

I am sir

With Respect

Your humble Servant-----

Circulars to Governors.

New Orleans September 15th 1815—

Sir, -----

I have the honor to enclose you a copy of an act of the Legislature of Louisiana, entitled “*An Act to Regulate the Administration of the Charity Hospital of the City of New Orleans,*” Together with the plan of an edifice, which under the direction of that administration, is now completed.----- YOUR EXCELLENCY will observe by a reference to the Twelfth Section of the act, that the Funds of the Hospital are deemed inadequate to the purpose of giving to it, all the extent required by the Situation of this Metropolis, “To which great numbers of our Fellow Citizens, Inhabitants of the States and Territories bordering on the Mississippi, the Ohio, and other water courses, annually repair;”----- And that it is made the duty of the governor of this State, to propose to the several State Legislatures, “A Subscription for the benefit of Said Hospital, which will thereby be enabled to receive a greater number of sick, and to participate to them the necessary relief.”-----

For several years past it has been found that among the Patients admitted into the hospital gratis, the greater proportion were Inhabitants of the Western States and

Territories who descend annually to New Orleans, with their surplus productions.----- The Peace which our country now happily enjoys, cannot fail to promote a more frequent intercourse of the industrious and enterprising Citizens of your State with this Capitol, nor is it improbable but among them, there will be Individuals, who afflicted with the diseases prevalent here during the summer season, may seek an assylum in the benevolent Institution, in whose behalf I now address your Excellency.----- This consideration, no less than that generous disposition to relieve suffering humanity, which the American States have at all times manifested, will I am persuaded induce the Legislature of----- to extend to the Charity Hospital of New Orleans its support.----- With sentiments of great Respect His Excellency the Governor of the State of Tennessee-----

New Orleans September 22. 1815

Sir,-----

The Command of the Brigade of Militia which includes the city and suburbs of New Orleans, previous, pending and Subsequent to the late Invasion, having de-

volved upon you, I know not any officer who has had so good an opportunity to notice my general conduct, in character as Commander in Chief, and I therefore request you, Sir, as far as your knowledge of facts will permit, and as early as may suit your convenience, to respond the Following Questions.-----

FIRST, Did I not some time previous to the late Invasion, advise the Militia by General orders, and otherwise of the dangers which menaced the State, and strongly urge the expediency of introducing order, and discipline, and being at all times prepared to receive the Enemy?

SECOND, When on the twenty third of December, the alarm was given, did not the First, Second and Fourth Regiments of Militia, and Choveau's Troop of horse, all under your Command, rendez-vous in obedience to my orders in front of the Principal, between two and three O'clock?

THIRD, Did I not on the same day, repair to the Principal, and assume the command of the Detachment?

FOURTH, To such Privates as had no muskets were not Pikes furnished, and in what manner, were they directed to use them.-----

FIFTH, Did I not as soon as ball Cartridges were distributed inform the men, that they were to be immediately marched against the enemy, and in what manner was this information received?-----

SIXTH, How far had the Detachment moved on the road, leading to Villere's Plantation before it was halted, and ordered to move on the Gentilly road, and in what manner was this last order received.-----

SEVENTH, During the night of the twenty third of December, was not the Detachment under arms, or on the march the greater part of the night?-----

EIGHTH, Until the First and Second Regiments were withdrawn from the Gentilly road, did I not remain with

the Detachment and participate in all its Toils -----

NINTH. During the period that the Command of the City of New Orleans was confided to you, did I not often visit the guards, and repeatedly urge the expediency of enforcing, the greatest vigilance and attention to duty?

TENTH. Very early on the morning of the Eighth of January, and immediately after the firing General Jackson's lines commenced, did I not *previous to going to the lines*, repair to the government house, and what were the orders I then gave you?-----

ELEVENTH. On my return from the lines, were you not ordered by me to press every boat in the harbour with their crews, not omitting the little market boats, for the purpose of facilitating the passage of the River by the troop destined to reinforce the Detachment on the Western Bank which had given ground to the enemy?-----

TWELFTH. Did you not by my orders, cause domiciliary visits to be made, within the City and Suburbs of New Orleans, and were not all the Spare arms found, immediately placed at General Jackson's disposition?

THIRTEENTH. Previous and Subsequent of the Battle of the Eighth, did I not in general orders express my highest disapprobation of the desertions which had taken place in some of the Militia Corps, and were you not expressly commanded to cause the Deserters to be arrested?-----

It only remains for me to apologize for the trouble I am about to give you, and to assure you of-----

-----My great Respect and Esteem----

Signed,----William C. C. Claiborne-----

New Orleans October 1st 1815.----

To Col. Shaumburg.

Sir,-----

As far as your recollection may serve, and as soon as your convenience shall permit, will you have the goodness to respond to the following questions.-----

FIRST.-----From the Second day of September Eighteen hundred and fourteen, the period of your appointment as my aid-de-camp to the present day has there not existed between us the most friendly intercourse, and a frequent and unreserved interchange of Sentiments and opinions.-----

SECOND.-----Have you at any time heard from me a Sentiment expression or wish indicating other feelings, than those of the warmest attachment to my Country's interest, and the greatest solicitude for the safety, welfare and tranquillity of this Section of the Union.----

THIRD.-----Is it not within your knowledge that every effort was made by me to array and bring into the Field, the auxiliary militia Force, required from this State under the orders of the Secretary at War of the fourth of July eighteen hundred and fourteen.

FOURTH.-----Is it not within your Knowledge that some months previous to the Invasion of Louisiana, in my character as commander in chief, I apprised the Militia of the dangers which menaced the State and strongly urged the necessity of union, vigilance, and the strictest obedience to orders.-----

FIFTH.-----Have you not heard me acknowledge the chagrin which the opposition to general Flournoy's requisition, by the city militia, and the countenance which the Legislature of this State afforded such opposition, had occasioned me, accompanied with an apprehension, lest

a similar opposition might arise to the requisition of the Fourth of July eighteen hundred & Fourteen.-----

SIXTH.-----When it was found that the last requisition was cheerfully and promptly met, that several volunteer Corps had offered their services, and that the old men throughout the State, were /in conformity to my request forming military associations/ did I not express to you an opinion that the people were becoming sensible of the dangers to which they were exposed, and that they would in the hour of Peril prove faithful to themselves and to their Country.-----

SEVENTH.-----Was you not in the month of October Eight hundred and fourteen the bearer of Letters from me to Major general Jackson, then at Mobile.----- did I not previous to your departure communicate freely to you the condition in which Louisiana was placed as related to defence, and were you not particularly instructed to make General Jackson fully sensible of the Same?---- Did I not also furnish you with a memorandum in writing, which conveyed my impressions as to the defensive measures which ought immediately to be taken, with a request, that you would explain the same to the General? and finally did I not authorize you to assure the general of my disposition to co-operate with him, hand and heart? -----

EIGHTH.-----Is it not within your Knowledge that immediately on your return from Mobile, I caused Posts to be established on the Lafourche, and on the waters of Barataria?-----

NINTH.-----Did I not also employ Spies, or Scouts, and receive information daily from Chef Menteur and Terre aux boeufs, did I not also in general orders advise the militia generally, in what manner they were to act in case the enemy should effect a landing in any part of this State?----- and did I not establish within the City of New Orleans, Signals of Alarm by day and night,

and designate the points of rendez-vous for the different Corps?-----

TENTH.-----When a part of the Louisiana contingent took Post at the english Turn, is it not within your Knowledge, that I advised an Intrenchment in their front, extending from the river to the Cypress Swamp.--

ELEVENTH.-----Previous to General Jackson's arrival in Orleans, is it not within your Knowledge, that I spoke respectfully of him as a man and officer?-----And on his arrival, is it known to you, that I evinced every disposition to give him a friendly and respectful reception.-----

TWELFTH.-----When I yielded the command of the Militia of Louisiana to General Jackson, did I not acquaint you with the motives which influenced me?-----and what were those motives?-----

THIRTEENTH.-----Previous to the general's arrival in New Orleans, was not the Patriotic disposition of the Militia of the City, and indeed throughout the State often spoken of, by me, & noticed by you?-----

FOURTEENTH.-----When on the Seventeenth of December Eighteen hundred and Fourteen, the General announced in general orders, his volunteer aids-de-camp, and Judge-Advocate, did I not say to you that the general had taken into his confidence men, whose primary object would be to create a Schism between him & me?-----And was it not observable, that from that moment, the intercourse between us became every day the less friendly, until it finally ceased?-----

FIFTEENTH.-----On the twenty third of December, when the alarm was given did I not hasten to place myself at the head of the city militia?-----On taking up our lines of march towards the enemy, did you not notice the enthusiasm with which the militia were animated, and when we were halted, and ordered to proceed on the gentilly road, did I not observe to you, that this

was part of a System decided on, to keep me in the back ground?-----

SIXTEENTH.-----Did I not remain on the gentilly, or chef menteur road, until by sending reinforcements to general Jackson, the detachment was so reduced, as not to present a suitable command for a Colonel?-----

SEVENTEENTH.-----Whilst commanding in person, on the Chef menteur road, did I not maintain the strictest police, and cause the greatest vigilance to be observed, and a *Defile* which I occupied, to be strongly fortified?--

EIGHTEENTH.-----When I returned to the City, is it not within your Knowledge that in addition to the care and vigilance which I continued to extend to Chef Menteur, I took frequent occasion to visit the guards in New Orleans, and inforced in the city the greatest vigilance?

NINETEENTH.-----Early on the morning of the eighth of January, did I not (/yourself in company) arrive at the lines of general Jackson, soon after the enemy's Infantry had retreated, but at moment when he directed against our lines a heavy cannonade.-----

TWENTIETH.-----Did I not leave the lines and return to the city for the express purpose of reinforcing the Detachment under general Morgan on the West Bank of the Mississippi which had given ground to the enemy?-----

TWENTY-FIRST.-----Did I not soon after reaching the City, hand you for perusal a note addressed me by general Jackson, and which determined me to cross to the West Side of the river and to assume command;— That note is at this time in your possession, will you state its contents?-----

TWENTY-SECOND. Did you not *immediately* after my receiving the note above alluded to, cross the river, with express orders from me to assist in rallying the retreating Troops, and in placing them in a situation to be led back to the ground they had lost?-----

TWENTY-THIRD. In what situation did you find gen-

eral morgan's Command?— and who at the moment of your arrival was the commanding officer?----- did not the greatest confusion reign?----- and was there apparently any uniformity of opinion, except as to the inexpediency of attempting at that moment a second rencontre with the enemy?-----

TWENTH-FOURTH. Did I not reach general Morgan's Camp as soon as the reinforcing Troops could all be brought up?----- And is it not within your Knowledge, that I was discouraged from hazarding an immediate attack, from the then disorganized Condition of Morgan's detachment the opinions of the Superior officers, the state of the weather, and the further circumstance, that the reinforcing Troops /most of whom had fought in the morning at general Jackson's lines/ were at the moment worn down with fatigue?-----

TWENTY-FIFTH. When on the sixteenth day of January I again crossed the river /agreeable to general Jackson's request/ and assumed the command, is it not within your Knowledge that general Morgan hesitated to obey me? and did you not understand, that general Morgan, shewed a letter from general Jackson instructing him to consider his command as a separate one, and independent of my controul?-----

TWENTH SIXTH. Was not general Morgan, the day after my assuming the command, detached by order of general Jackson with six hundred picked men?-----

TWENTY SEVENTH. Morgan being so detached, were the troops on the lines on the opposite shore, greater in number, than a Major could with propriety be intrusted with? and were not these Troops badly armed, thinly Cloathed, unhealthy, discontented and dispirited?

TWENTY EIGHTH. It is not within your Knowledge that to supply all the men on the opposite Shore, with

arms of some kind, I caused two hundred Pikes to be made and brought to the Lines.----- and-----

TWENTY NINTH. Was it not after general Morgan was detached with the best men, and after the Commanding general by Letter, had directed Brigadier general Morgan not to consider himself under my orders, that I resolved to leave the command of the small party of troops with Brigadier general Hopkins and return to the city.— and did it not appear to you, that the commanding general designed to render any command under him disagreeable to me.-----

It only remains for me to ask pardon for the trouble I impose upon you and to assure you of,-----

-----my Esteem and Respect

Signed William C. C. Claiborne.

Colonel Bartholemew Shaumburg.

----- Answer. -----

New Orleans October 30th 1815-----

Sir,----- I comply with your request of the First of this month, with great pleasure.----- The following answers to your queries are as nearly as I recollect and to the best of my belief correct.-----

FIRST. I have reason to believe that from the moment I became your aid-de-camp on the second day of September, eighteen hundred and Fourteen, I enjoyed your entire confidence in matters of war, men and measures.-----

SECOND. None other but the sentiments of a man who loves his country and had particularly at heart the Safety and welfare of the State over which he presided.-----

THIRD. From my own Knowledge of your personal exertions, you have left nothing undone, that ought to have been done to bring the *quota* of a thousand militia of the State into the Field, and the greatest part of this quota was actually in the Field, and served out their term.-----

FOURTH. I recollect well because I copied many of the

letters and orders in which the danger which menaced the State was fully impressed on the minds of the militia, I think it had the desired effect; and I believe also inconsequence thereof all the old men in the city formed themselves in militia companies and Corps, and to the vigilance of those Veterans, I think our city has been preserved from many evils.-----

FIFTH. I have often heard you express much regret that the city militia particularly on a former requisition, made by Brigadier general Flournoy should have behaved badly in refusing to turn out, and I think too, I heard you complain of the State Legislature for countenancing this opposition.----- and I remember well that you expressed much Joy on this occasion, when you was informed that the greatest part of the quota of militia under the requisition of the fourth of July were assembled at the respective rendez-vous?

SIXTH. You certainly did make use of those expressions and opinions,----- “That the People would be finally faithful to themselves and their Country.”-----

SEVENTH. I was the bearer of your dispatches in the fore part of October, eighteen hundred and Fourteen to Major general Jackson who was then at Mobile.----- You did communicate with me freely before my departure on the situation in which Louisiana was placed as related to its defence, and what further defence was in your opinion necessary;----- In addition to this communication, you gave me a written memorandum to Strengthen my memory.----- I had the honor to deliver your letters to the major general, he was at that time much engaged /Fort Boyer having been attacked by a British Squadron./ But he granted me a half an hour conversation, during which time, I said what I had to say to him.----- And he appeared to be well pleased with those communications, and promised to write to you fully in answer to those objects;----- I left with him

the written memorandum above alluded to, nor did I fail to assure the Major General from you, that you would co-operate with him, *hand & heart*; you did also authorize me to press upon the general's mind, the necessity and utility of his early repairing to this city.-----

EIGHTH. It is perfectly within my recollection that immediately after my return from Mobile, you ordered me to reconnoitre the shores of the waters of Barrataria and the Mississippi near Plaquemine /Fort St Philips/ to choose sites for Fortification; and that, you caused works to be established on the Shores of Barataria and Lafourche, and that those works were garrisoned by the militia of this State.-----

NINTH. I remember well that you did employ Spies and scouts to watch chef Menteur and Terre aux Boeufs, Two Places most likely for the enemy to land;----- This was continued till the arrival of a Troop of Dragoons and a mounted company of riflemen both from the Parish of Feliciana, when the duty devolved upon them, and from whom you receive reports daily.-----

TENTH. You did instruct the commanding officers of the Louisiana Militia by general orders how to act in case the enemy should effect a landing in any part of the State; Signals for alarm in the city were also established by you and alarm Posts assigned for the different city Corps.-----

ELEVENTH. Previous to the arrival of General Jackson, in the city, you directed me to go to the english Turn, and their advice with Mr. Lafou the engineer, on the erection of a temporary defence, for the Barrack at that place which was occupied by part of the Louisiana Militia under the command of Colonel Declouet.----- I proceeded to the place, and it was thought proper by the engineer and myself to open a ditch about four feet wide, and to throw up a parrapet high enough to cover musketry.----- The ditch was about a hundred and fifty

yards in front of the barrack, and to be extended from the river to the Swamp; these works were raised by the Louisiana Militia.-----

TWELFTH. It is on record, with what respect you spoke of Major general Jackson, before and after his arrival in this city to your militia, and it is known to me, that the day after his arrival, you ordered the uniform companies to parade in review before his quarters, and that you introduced all the principal militia officers, and other gentlemen to the major general.-----

THIRTEENTH. The militia of the State were badly supplied with almost every war like implement, such as arms, Flints and Cartridges, and wholly without Knapsacks, and Camp equipage;----- The resources of the State did not enable you to procure these necessary supplies, and much less to provide the means of transportation, and to pay, equip and victual the militia, all which must have been done at the expence of the State, had you retained the command, agreeably to the principle laid down by the general government, in the case of the governor of Massachusetts, and of which you were apprised.

-----Under these circumstances, you relinquished the command of the militia to general Jackson, and consented to receive his orders, not however without evidencing much feeling and regret on committing to another the direction of the whole force of the State, and that too at a moment when its safety was menaced, these were your motives, as communicated to me at the time.--

-----I then thought your course correct and I still think it so.-----

FOURTEENTH. Anterior to general Jackson's arrival in this city, the Patriotic disposition in the people of this State generally and particularly in the city, and its vicinities increased as the danger became more visible, and I heard you often express satisfaction, when you was told

by letters from the militia throughout the State, /that the people were united, and would turn out.-----

FIFTEENTH. You did say to me, when the appointments of the volunteer aids-de-camp and the Judge advocate appeared in the general order of the Seventeenth of December eighteen hundred and fourteen, that those men would do you much harm, if the general suffered himself to be imposed on.----- From that moment the intercourse between you and the general became less frequent, I know also that the general often found fault with you; but whether it proceeded from the intrigues of those gentlemen, I am not able to determine.----- I am however aware that they were every one your enemy.-----

SIXTEENTH. On the twenty third of December eighteen hundred and fourteen, when we had *suffered ourselves to be surprised* by the landing of the Enemy, within seven miles of the city, the First, Second and Fourth Regiments of militia from the city and the Faux-Bourgs were assembled, and formed as quick as the Forty Fourth Regiment of Regular Troops; that you was at their head, and on your march towards Villeré's where the enemy was understood to have landed, when you received an order from general Jackson to turn, and march towards the gentilly road; The order apparently damped the enthusiasm of our men, as all of them were anxious to meet the enemy, and occasioned for a moment a murmur among them.-----and it was on this occasion that you said to me, dont you see, that this is the beginning of a system decided on to keep me in the back ground! But I could not altogether agree with you, in that belief, because it was in my opinion highly necessary that that pass should be strongly guarded, the landing of the enemy below Town, might have been intended for a false attack.-----

SEVENTEENTH. You remained at the Post assigned to you, until your command by sending reinforcements

from it to general Jackson's line, had been reduced to a Subaltern's command.-----

EIGHTEENTH. While you commanded on the chef menteur road, I believe no better vigilance, police and order, was observed in any other camp, and you did fortify the position on which you encamped, which was a *defile*, and in my opinion well chosen to oppose an enemy.

NINETEENTH. Besides the care and attention you bestowed towards chef menteur, you exerted all the means, in your power to maintain that good order and vigilance, which was observed by the Veteran Corps in the city.----

TWENTIETH. On the report of the first gun fired in general Jackson's camp on the morning of the eighth of January, I mounted my horse and rode as fast as he could carry me to Fort St Charles where I found you already mounted, and you immediately required me to ride with you to the point of attack on general Jackson's lines, and we arrived soon after the firing of small arms had ceased, but under a heavy canonade from both sides of Shells, Balls and Rockets.-----

TWENTY FIRST. While we were in conversation with some of our militia officers of the uniform batalion, and now and then evaded an enemy's shell, an eighteen pound Shott, or a rocket, and viewing the astonishing slaughter our artillery had done, I heard the sound of a trumpet on the right bank of the river opposite our lines;-----/It happened to be very foggy and could not see more than half way of the river./ I enquired of others and they likewise heard the trumpet; I then was sure that the enemy had crossed, and were attacking the lines on the right Bank; at the moment, I saw adjutant general Butler coming on foot from the right;-----I met him and asked whether the right bank was attacked, he replied yes, and I am going now to try to send a reinforcement from the line;----- But said he, had you not better

go to town, and muster all the men you can find, and cross them to the other side;----- I told him, there were none, but the old men who were guarding the city; well said he there is a general Villeré, he has two hundred and fifty men, order him over.----- I asked the adjutant general whether this was intended as an order to general Villeré he said yes;----- deliver it to him as an order.-----during this conversation my impression is that you came up, and that the adjutant general communicated to you the necessity of reinforcing the other side without delay;----- We left the line together, and ran to the place where we had left our Servant with the horses, but could not find him; We then took two horses belonging to Doctor Flood at the hospital, and rode to Town with all Speed.----- When we came to the place where general Villeré was posted I left you to deliver the orders and did deliver the orders; But the general remonstrated, and said that he was posted there by the express orders of general Jackson, that his detachment had only a hundred arms; that he had Five hundred negroes to take care of, and all the english Prisoners that were made on the morning of the eighth.-----I told the general, I saw the necessity for him to remain where he was, but I wished it to be understood by him, that I had delivered the adjutant general's orders, upon which I left him, and found you employed with general Labatut, in getting boats ready to cross any troop, which might be sent from general Jackson's lines, to reinforce the right bank.----- Two hours afterward a detachment from general Jackson's lines, arrived in Town but these troops were rather slow in crossing the river;----- They had had but little rest, the night before they had fought at Jackson's line; they had marched about *four miles* from camp to Town in a heavy Shower of rain, their arms and ammunition were wet.----- Some without arms and in fact they were in no way fit for a new combat for that day.---

TWENTY SECOND THIRD FOURTH and TWENTY FIFTH You did hand me a note for perusal from general Jackson to you the content of which is this.-----

-----HEAD QUARTERS 7th Military Distri
Sir-----

“I have sent you all the reinforcements I can spare,
“or that I have arms for; The enemy on the other side,
“are not more than Five hundred Strong, *they must be*
“*destroyed.*”-----

-----Signed ANDREW JACKSON.-----
Major general Cordg

“HIS EXCELLENCY,-----

-----William C. C. Claiborne.

Governor of the State of Louisiana.

After perusing this note you told me that you should cross the river immediately with the reinforcements and take the command; In the mean time, you ordered me to proceed immediately to Morgan’s lines, to consult with him, and see what could be done;----- I did so but I found general Morgan’s command greatly scattered, disheartened and discontented.----- I spoke to several of the men, and reprobated their conduct, and they said, “give us officers and we will fight better.”----- I went to general Morgan shewed him general Jackson’s note to you, and asked him if he would be able to get men enough together to execute the general’s orders; he said he thought not, and indeed by the looks of things I thought so too.— The reinforcement from general Jackson’s lines had not then reached general Morgan, the road being very bad, and the men fatigued.----- In this State of things a French general Humbert who it would seem was a Volunteer in general Jackson’s service, but I know not in what capacity came to Brigadier general Morgan and told him, that he had been sent by general Jackson to

demand four hundred men to destroy the enemy on the right bank.----- I think general Morgan asked him if he had a written order; he said no, that it was a verbal Message; Brigadier general Morgan then asked whether he was an aid de camp to general Jackson he said no, general Morgan then told him, if he had the men, he could not give them to him.----- Monsieur Humbert was then displeased and went off.----- At this time you arrived noticed the unpleasant situation of the Troops, and had Brigadier general Morgan and other officer's opinions on the subject of attacking the enemy.----- Under these circumstances together determined to make a true Statement to general Jackson, which you did personally.----- But the fact is the enemy did not wait to be attacked for he retreated soon after forcing our men from the entrenchment.-----

TWENTY SIXTH. On the Sixteenth of January you crossed the river, with an intention to take the command on the right bank /as you informed me by request of Major general Jackson/ and immediately issued an order announcing that you had taken the command at the request of general Jackson, and which being promulgated to the Troops afforded as was understood at the time much satisfaction.----- Soon afterwards I had some business with Brigadier general Morgan, and he told me, he was not quite sure, he should give up the command; ----- and I understood on the evening of the day from Colonel Laneville our adjutant general, that Brigadier general Morgan had shewn him a letter from Major general Jackson directing him to consider himself still in Command and independent from your Controul.

TWENTY SEVENTH. Yes, general Morgan was detached on Command.-----

TWENTY EIGHTH. General Morgan being detached, with six hundred picked men the remaining Force, was in-

deed but small, besides they were disspirited, discontented, badly armed and thinly Cloathed.

TWENTY NINTH. It is within my Knowledge that you ordered two hundred Pikes to Morgan's lines for the use of men who were without arms.—

THIRTIETH.—It was on the day following on which general Morgan was detached that you determined to give up the command of the handfull of troops on the right bank of the River;----- The commanding general's orders which appeared, *so much to your prejudice* and was so apparent to every officer around you, that they could help advising you to adopt the measure.----- I myself was one of your staff who gave that advice.-----

Such are the only answers which keeping in view, truth and Justice, I can return to your several questions. -----I know not how far efforts which have or may be made to injure your standing in life shall receive the countenance of the American government, and people. But this I do know, that previous, during and subsequent to the late Invasion your conduct was such as to encrease your claims to the Public Confidence.-----

I am Sir,

With great esteem & Respect

Your humble Servant

-----Signed B. Shaumburg.-----

TO HIS EXCELLENCY,

William C. C. Claiborne

Governor of the State of Louisiana.

To Daniel L. Patterson.

New Orleans November 10th 1815.

Sir,-----

Will you be good enough to answer the following questions as soon as your convenience permits.-----

FIRST. Has there not from the period of your appoint-

ment as my aid de-camp to the present day, existed between us the most friendly and confidential understanding?-----

SECOND. It is not within your Knowledge, that my efforts have been unceasing to excite among the militia of Louisiana, a spirit of union and devotion to their country and government?-----

THIRD. During the late war did I not often by general orders, and otherwise advise the Militia of the dangers to which the State was exposed, and urge upon every officer and private the expediency of holding himself in readiness to take the field at a moment's warning?-----

FOURTH. Previous to the arrival of general Jackson, in New Orleans, did not the militia generally manifest the most Patriotic disposition, and had not the old men /at my request/ formed themselves into military associations?-----

FIFTH. Pending the late Invasion of Louisiana, did you discover any want of disposition on my part to share with my fellow Citizens in all their toils and dangers.----

SIXTH. Did you not witness, the ardour with the city militia under my immediate command advanced against the enemy on the twenty third of December?-----

SEVENTH. When on the twenty third of December the city militia under my command were halted on their march to Villere's Plantation, and ordered on the gently road, did I not accompany the detachment, and remain with it until the twenty seventh of December when the First and Second Regiment were sent to reinforce general Jackson?-----

EIGHTH. Did you not on the eighth of January, witness my exertions to reinforce the detachment under General Morgan on the West Bank of the River, which had given ground to the enemy?-----

NINTH. Did you not cross the river with me on the eighth of January, and notice my chagrin on our arrival

at general Morgan's head quarters on finding the troops not in a situation to be led back to the ground they had lost.-----

TENTH. Is it not within your Knowledge that in consequence of my invitation bearing date the ----- day of december 1814, to the Inhabitants to furnish negroes to assist in the completion of the works and fortifications, destined for the defence at New Orleans, that several hundred Slaves were immediately placed by the farmers at the disposition of the public agents.-----

New Orleans November 11th 1815.

Sir.-----

I have the honor to acknowledge the receipt of your letter of this morning, and to reply to your several questions as follow.-----

FIRST. Since the beginning of the year *Eighteen hundred and four*, period of my appointment as your aid-de-camp to the present day, I have every reason to believe that I possessed, that which I endeavored to deserve, your confidence and esteem.-----

SECOND. It is within my Knowledge that you have exerted every means to excite among the militia of Louisiana, a Spirit of union and devotion to their Country and government, and their conduct during the late Invasion proves the success which attended your efforts.—

THIRD. That you often during the late war, advised the militia of the dangers to which the State was exposed, and urged on every individual the expediency of holding himself in readiness to take the field, is not only known to me, but to every Inhabitant of this State.-----

FOURTH. Previous to general Jackson's arrival in New Orleans, I well remember that the old men of the city had formed military associations, and the militia of the State generally manifested the most patriotic disposition.-----

FIFTH. During the late Invasion of Louisiana so far from your manifesting a want of disposition, you discovered the greatest solicitude to share with your fellow citizens all their toils and dangers.-----

SIXTH. I did witness the ardour, with which the city militia under your command, moved towards the enemy on the twenty third of December, and well remember that when you said to them they were to be led immediately against the enemy who had effected a landing near Villeré's Plantation, the men replied with cheers and moved off.-----

SEVENTH. When the city militia was halted on their march to Villeré's Plantation and ordered on the gentilly road, you did accompany them, and remained in command on the gentilly road, until the twenty seventh of December, when the *First* and *Second* Regiments & I believe some other detachments composing the greater part of your command were sent to reinforce general Jackson.-----

EIGHTH. I did on the eighth of January witness your exertions to forward reinforcements to general Morgan.

NINTH. I did cross the river with you on the eighth of January, nor could I avoid noticing your pain, on your observing the disorder which reigned on the opposite Shore, and the impossibility of an immediate advance, against the enemy with a prospect of success.

TENTH. It is within my Knowledge, that in consequence of your invitation, bearing date I believe *fourteenth of December eighteen hundred and fourteen*, many negroes were sent immediately to New Orleans, and placed at the disposition of the public agents.-----

Being absent from New Orleans, your communication of the tenth Instant, did not reach me until yesterday; the conduct of Perry and Brunson as detailed in the Disposition, you refer to is daring act of violence, and it was your duty to notice the same.----- The attorney general for the district /Mr Wilson/ has I hope been advised of your proceedings, and it will remain for him, to take such other measures against the offenders as the laws prescribe.----- The *expedition* which Perry professes to have in view, falls within that description of illegal enterprises to which the President in a late Proclamation alludes, and you sir, and every other faithful officer, and citizen, should use every effort to prevent this expedition from being carried into effect.-----

Will you do me the favour to answer, as far as your memory serves the following questions.-----

FIRST. About the *last* or *First* of november *eighteen hundred and fourteen*, very soon after the drafted militia of Louisiana had taken post at the english Turn, did I not direct a breast work, with a wide and deep ditch to be thrown up, in their front extending from the river to the Cypress Swamp.-----

SECOND. Is it not within your recollection, that in a conversation I had with the officers at the time, I stated

the facility with which New Orleans might be protected, against any approaches by way of the Levee, the precaution being previously taken to place the defending force behind a Strong work extending from the river to the Swamp?-----

THIRD. Did not the militia at first manifest an unwillingness to labour on the works I had advised, and did I not in consequence repair a second time to the Turn, and in conversation with the officers Strongly urge the necessity of completing the works advised without delay, and saying at the time if my example would induce the men to labour the more cheerfully, I would readily take the first spade.-----

Baton Rouge October 30th 1815-----

Sir,-----

In reply to your questions addressed to me, in your note of this morning, I answer.-----

FIRST. That very soon after the drafted Regiment of Louisiana militia took post, at the english Turn, you did direct a breast work /with a wide and deep ditch/ to be thrown up in their front extending from the river to the Cypress Swamp.-----

SECOND. Previous to the landing of the enemy in December last, I have heard you give an opinion, that new Orleans might be easily defended against an attack by land and by way of the Levee, the precaution being previously taken to place our forces behind a strong field work which should extend from the river to the Swamp.---

THIRD. It is within my recollection, that the men at the english Turn, did at first seem unwilling to labour on the works, you had directed, and I also recollect, that in a conversation you had with the officers at the Turn you enforced the necessity of the works in question, and that you stated your willingness to be yourself attached to the fatigue party if the example was thought necessary. The works proposed were laid out by Mr. Lafou and it is my belief that the opinion and influence of your excellency induced the men to labour on them with cheerfulness and industry.-----

FIRST. How many pieces of cannon, had you mounted at the batteries, which you commanded in person, and of what calibre.-----

SECOND. How many effective men, do you think general Morgan had at his lines on the evening of the Seventh of January, and how were they armed.-----

THIRD. Were you not apprised, early in the evening of the Seventh of January that the enemy was passing boats by way of a canal which he had cut into the river, and anticipating an attack, did you not suggest by letter to general Jackson the expediency of reinforcing Morgan's lines?-----

Fourth. At what hour in the night of the Seventh of January, was Morgan reinforced by what number of Troops, and how were they armed.-----

FIFTH. In what force do you think the enemy crossed the river on the morning of the eighth of January?-----

SIXTH. At what period of the night of the Seventh of January, did the enemy get his boats into the Mississippi.-----

SEVENTH. have you reason to believe, that the sudden fall of the Mississippi during the night of the Seventh of January materially affected the plans of the enemy, and delayed his movements.-----

EIGHTH. How many cannon fell into the hands of the enemy on the west bank of the Mississippi; and of them how many did he carry away?-----

-----Will you have the goodness to return an answer to the following questions as soon as your convenience may permit.-----

FIRST. Did I not from time to time during the late War, advise the division under your command, of the dangers to which Louisiana was exposed, and order the whole militia of the State to be holden in readiness for service?-----

SECOND. It is not within your Knowledge that I made every effort promptly and effectually to meet such requisitions for an auxiliary militia force as were made of me, under the authority of the President.-----

THIRD. Previous to your receiving information of the actual landing of the enemy below New Orleans in December last, were you not ordered by me to embody the militia, and to be prepared to defend any point within the limits of your Command, which should be menaced?

FOURTH. Were you not specially instructed by me, in case the enemy should land within your district to remove beyond the reach the Stocks of Cattle, hogs and provisions of every kind;----- To impede his movements by falling of trees, and filling up the water courses in his route, to attack his foraging parties, and harrass his advance and distress him in every manner?-----

FIFTH. Were not my orders on all occasions promptly and cheerfully obeyed by the division under your Command.-----

SIXTH. Were not my orders for the march of detachments from your division to New Orleans pending the siege of that city, obeyed not only readily but with an enthusiasm evincive of the most pure and ardent patriotism?-----

SEVENTH. So far from any reluctance being manifested in descending to New Orleans, did you not on some occasions find it difficult to restrain men, whom you wished to occupy some other exposed post from marching direct to this city.

EIGHTH. Previous to the actual Invasion of Louisiana, were you not impressed with an opinion that the people of the State were generally determined on the most spirited resistance in case of such an event, and previous to Major general Jackson's arrival at New Orleans or his exercising any Controul over the Louisiana militia, did you not observe in your division evidences of the greatest devotion to our Country & Government.-----

Answer.

Baton Rouge 30th November 1815.

Sir,-----

I acknowledge the receipt of your letter dated the thirtieth of October eighteen hundred and fifteen, putting a number of questions to me, I shall answer them one by one.-----

TO YOUR FIRST QUESTION. I answer you did and I have your orders to prove the same; I took immediate steps to have my division in readiness to march when called on.-----

TO YOUR SECOND QUESTION. I answer that I receive your orders for raising the quota of my division of six months men called by the United States and it was immediately carried into effect and the men brought into

the field, agreeably to those orders, and I heard no murmuring on the occasion except some officers contending to go on.-----

TO YOUR THIRD QUESTION. I answer that on the twentieth of december at night I received your orders as stated, and they were promptly executed; I brought seven Regiments into the field as quick as possible, the other four Regiments, I held in a State of readiness to march at a moment's warning; all this before it was known where the enemy would land.-----

TO YOUR FOURTH QUESTION. I answer you did, and I am ready to produce the orders, and I took immediate steps to have the same carried into execution Should the enemy land within my division.-----

TO YOUR FIFTH QUESTION. I answer they were, by the division I have the honor to command, and I saw no kind of reluctance with respect to obedience of orders but a real willingness to meet their enemy.-----

TO YOUR SIXTH QUESTION. I answer they were, as nothing but true patriotism would ever have moved militia in the rapid manner in which they marched to the scene of action; for the men and officers appeared to me to be glad of having an apparent chance of fighting the enemy.-----

TO YOUR SEVENTH QUESTION. That from my knowledge of the division which I have the honor to command, the men composing the same, are with few exceptions, as firm American in principles, as those of any division in the United States. I have now had a full proof of the fact, for I had to make use of the most positive orders to keep a few men at some points, that I thought necessary to keep up, so great was their desire to be at the real scene of action.-----

TO YOUR LAST QUESTION. I answer that I have always found my division obedient to orders, and as before stated with some few exceptions, I never had a doubt

of being able to call the whole strength into the field, when ordered by the Chief Magistrate of the State, or any officer authorized by the United States, as to Major general Jackson, but few of my division knew any thing of him, but they had heard that he was a brave man and I heard none say they were unwilling to fight under his command, but I am equally sure on such occasion, it was no matter who would command, my division would have come forward to defend the country, and I do believe, that the men had no other stimulation, but the love of the country, and the protection of their Liberty, and their property.----- I am truly sorry that any misunderstanding should have taken place when all, with the hands of a kind providence have terminated so well.-----

I have answered all the questions, that you have called on me to answer, and have all your orders ready to produce if necessary, which will prove your statement to be facts.-----

May God grant you and family prosperous days.-----Signed—Philemon Thomas.

Major general of the Second Division.

Being engaged in communicating to a friend a detailed account of the military operations in this State during the past Winter, and feeling desirous that the same should be strictly correct, I must ask the favour of you to answer the following questions, as early as may

suit your convenience.-----

FIRST. When did you assume command of the Troops stationed at the english Turn?-----

SECOND. What was the force under your command at the english Turn on the twenty third of December eighteen hundred and fourteen?-----

THIRD. At what hour of the day on the twenty third of December eighteen hundred and fourteen did you receive information that the enemy had effected his landing near to Villeré's Plantation, and how was the information conveyed?-----

FOURTH. How long did you remain at the english Turn after the auction on the night of the twenty third at Villeré's?-----

FIFTH. Did you cross the river in conformity to orders, or on your own responsibility?----- If the former where were your orders dated?-----

SIXTH. On what day did you take up a position on the west Bank of the Mississippi nearly opposite to general Jackson's lines?

SEVENTH. What was the effective force under your command on the evening of the seventh of January Eighteen hundred and fifteen.--

EIGHTH. Where your lines of defence completed on the evening of the Seventh of January Eighteen hundred and fifteen.-----

NINTH. Did you ask a reinforcement from the Commanding general on the evening of the Seventh of January and by what numbers were you reinforced?-----

TENTH. How many cannon had you on your lines, and of what Calibre?----- were any of those caannons received during the night of the Seventh of January, and had you a plentiful supply of ammunition?

ELEVENTH. Were the men under your Command during the attack on the eighth of January well armed?----- and

TWELVE. Were the batteries commanded by Commodore Patterson so situated as to co-operate in the defence of your lines, against an assault by land.-----

Shortly previous to the late Invasion of Louisiana fifteen hundred stand of new muskets the property of this State, which were at the time deposited in the United States Arsenal, were by my request to Captain Humphreys placed into the hands of the Louisiana Contingent and other corps of Militia ordered into the service of the United States.----- Of these arms six hundred and forty three were returned to me by the officer commanding the Louisiana Contingent, and the residue has or I presume will be delivered to the United States Commissary of ordnance in this city.----- The last of-

ficer having invited the return of all public arms I have endeavored to enforce his call by two militia orders in the last of which with a view of avoiding all pretese for avoiding it, I particularly ordered,----- The immediate return to Major Woolstoncraft of the United States ordnance department of all muskets and other arms now in possession of Individuals, or Corps, which were received at the United States Arsenal in this city whether the said arms were delivered as "the property of this State or of the United States."— Under this circumstances, I have thought that the State could justly claim of the United States, the deficiency in the arms, /*Eight hundred and fifty seven*/ furnished as aforesaid, and therefore take the liberty to ask of your an order on the proper officer for the delivery to the Governor of Louisiana or to his order *eight hundred and fifty seven* Stand of Muskets.-----

Commanding the Second Military-----

-----DIVISION-----

To John Jamison.

New Orleans May 18th 1816

Sir,-----

----- Your letter bearing date at Natchez the 4th Instant reached me by the last mail.----- In my Judgment it is no less essential to the interest of the United States and of the Indians than to the convenience of the Inhabitants of the Parish and Town of

Natchitoches that the factory and agency be removed.

----- The policy of the government has been to keep the Indians at their homes, to guard against those impositions to which they were exposed by an indiscriminate trade and intercourse with the whites, to introduce among them, husbandry and the art of Civilization, finally by supplying all their wants to impress them with grateful and friendly Sentiments.----- With these views, agencies and trading houses were established, and to promote them, the removal of the factory and agency from Natchitoches the center of a compact and rich Settlement of Louisiana to some frontier position is deemed advisable.-----

----- It however is thought a measure of Prudent precaution, to place the establishment, under the precaution of a military Post, and to this end, I shall recommend to the Secretary at War, the immediate establishment of a garrison on the Sabine, at or near the Spot where the Nocogdoches road crosses the Same, and which I consider as the most convenient Site for the factory and the residence of the Agent.----- In the mean time you will remain at Natchitoches, and here if the buildings appertaining to the Factory do not furnish comfortable accommodations and I learn they do not I advise that you rent suitable Apartments.----- It is not in my power to say, what are the emoluments to which you may be entitled, but I give it as my opinion that the government ought, and will make you a reasonable allowance for quarters.-----

----- The Honorable the Secretary at War requests me to give you such additional Instructions, as I may deem necessary for your immediate government.

----- It is very probable that you may have re-

ceived from the Secretary some general *Instructions*, and I therefore must in the First place ask for a Copy of them, in order to prevent mine from being in any manner opposed.----- In the mean time, I recommend the Following Points to be attended to.-----

FIRST. That the act of Congress regulating trade and intercourse with Indian Tribes be strictly enforced.-----

SECOND. That no traders be permitted to reside among the Indians, but such as have been licensed according to law.-----

THIRD. That you press upon the minds of the Indians the benefit resulting to them by exclusively trading with the Factory.—

FOURTH. That so soon as the Indians visiting the Factory shall have their trade, you hasten their return home.-----

FIFTH. That you discourage and take all the means in your power to prevent the Indians from exchanging their peltry with the whites for ardent spirits.-----

SIXTH. That you bring the provisions of the law, to bear against such citizens as shall sell ardent spirits to the Indians.—

SEVENTH. That you endeavor to excite among the Several Tribes a disposition to live in peace with all nations.-----

EIGHTH. That you protect and treat with kindness not only our own Indians but Individuals of such other Tribes without the limits of the United States as may visit your agency.-----

NINTH. That you endeavor to ascertain the policy observed by the Spanish Authorities towards the Indians residing on the Waters of Red River, and how far the same may be friendly or otherwise towards the United States.----- and -----

FINALLY. That you keep the governor of Louisiana informed of such occurrences within the limits of your

agency as may in any manner affect the interest of this State or the views of the government.-----

----- You will observe that the removal of the *factory* and *Agency* from Nachitoches to a position on the Sabine, is deemed by me highly estimable;----- But in as much as it is necessary to place them under the protection of a military Post, I take the liberty to recommend that orders be given for the establishment of a small garrison on the Sabine, at or near the Nacogdoches road crosses the same, and that the factory and agency be removed to that place as soon as the suitable buildings can be erected.----- The Inhabitants of the Parish and Town of Nachitoches have long complained of the Inconvenience to which they were subjected by the frequent visits of Indians and I really think that the Inter-

est of all concerned requires that the cause of Complaint
be removed which can only be done by locating the Fac-
